WIT AND HUMOR.

A Cow Story.—Among the travelers toward the western part of Kansas this spring were several gentlemen from this city; and among these were four or five, constituting a separate party, who started with a fine cow. About two weeks ago the friends in Alton, Ill., of one of the members of this party received a letter from him, dated "Kansas, two hundred miles from home," in which he spoke of "old Brindle," saying that she made the party a great deal of trouble, &c.

A few days after the receipt of this letter the gentleman to whom it was addressed, living in Middletown, was astonished at finding, early one morning, a cow exactly like "old Brindle" standing at his gate. He could hardly believe the evidence of his own eyes, but an examination convinced himself and family that it was the very cow herself. How long she remained with the party after the time of writing the letter, two hundred miles from home, is unknown. Certain it is that she had found her way home across the country, for at least that distance—not stopped by rivers, creeks, swamps or anything else. The story seems fiction, but it is confidently true, as any one who wishes can assure himself.—*Alton Courier, May 31.*

THE DAILY HERALD.

BATAVIA, Wednesday, June, 8, 1859.

OSCAR C. DIBBLE
EDITOR AND PROPRIETOR.

☞ For READING MATTER see every page of the HERALD.

The Daily Herald.

This Daily was just one year old yesterday, the 6th of June. During this short life it has more than paid its way, and its present prospects are extremely flattering to Publisher and Proprietor. It has had the *frowns* upon the one hand of the covetous and the constant indignation of a *few* who would be pleased to gag out of countenance every laudable enterprise but their own selfish undertakings; while upon the other hand, the real business Public, the just and equitable position of our citizens have been constant in its support from the very beginning; and to day its subscription list surpasses our most sanguine expectations, and its advertising columns, will show to its daily readers how the busy world works itself into its support.

The *Herald* has no new claims to offer; nor does it offer, at this time, any stronger inducements to its patrons than its heretofore persistent course in laboring and contending for the Right; and for the general interest and the good of all, which has ever characterized its course from the beginning.

Its present Editor, though yet in his youth, is every day growing older. And experience, that matchless old Schoolmaster, who holds out to him the sure "bow of promise"—flatters him with the triumphant success of the *Herald*, though it may be obliged to wade through the labrinths of contending factions, and discordant elements in its future progress; and age, with its hoary head, may canopy our brow with its laurel wreaths of wisdom.

Fourth of July.

No steps have yet been taken to make arrangements for the celebration of the coming Anniversary of the declaration of Independence, and, as it takes considerable time to make arrangements, it is probable that we shall have no celebration, unless immediate steps are taken. Let us all go to-morrow evening to the Eagle Hotel, and join together, heart and hand for a Celebration that is a Celebration. Let Old Batavia's hills resound with the echos of the canon, and let us *all* in a body turn out and have a glorious Old Fashioned good time. Hurrah for WASHINGTON the father of his country! and celebrate in a fitting manner the anniversary of our Independence. Who will move in the matter?

The Republican General Committee met last evening in Albany, pursuant to the regular call of the presiding officers of last General Committee, under the direction of that Committee. There were 28 delegates present. Chas. P. Eason was unanimously chosen President. The delegates present all presented regular credentials of election. This is claimed to be the regular meeting of the Committee, only twelve delegates present at the morning meeting, being admitted to be regularly chosen, the remainder having been either contested or substitutes.

A man named Cole has been arrested at Montague, Essex county, N. J., on a charge of having poisoned his wife to death during her confinement in child bed. The facts transpired show that Cole and the family physician, Dr. Wickham, had conspired together to commit this horrible crime, an insurance of $2,000 having been first obtained on the life of Mrs. Cole.—Cole is in custody, but Dr. Wickham managed to escape.

The difficulty among the seamen on board the Russian ship General Admiral, became so threatening last night, that the aid of the Police was invoked, and upward of 60 of the refractory sailors put in irons.

Joseph Fowler, Samuel F. Nott and Rossery Cooke, all influential business men of New York city, have died within the past few days.

A shocking accident occurred to the family of Mr. Clark Smith, of Canterbury, Orange county, a few days since, by which their daughter was so dreadfully burned that it is feared her recovery is impossible. Mr. and Mrs. Smith were badly burned while trying to extinguish the flames surrounding their suffering daughter. It appears that the daughter (a beautiful young girl) aged sixteen years, was prepairing the fire for the tea, when her dress caught fire. Her cries attracted her father and mother, who rushed to her assistance and attempted to extinguish the flames, which they finally accomplished, but not before the body of the unfortunate girl was blistered from head to foot.

A letter in the *Debats*, referring to the Zouaves, says: "One fact will give an idea of the incomparable African troops, with whom the Austrians are not yet acquainted. For six months the Third Regiment of Zouaves has been on campaign; since the 15th of October the men have not slept fifteen nights in Barracks; three or four weeks ago they were at Tuggurt; they were embarked at almost a moment's notice, and since their arrival in Piedmont have been encamped in the midst of rain; and yet the regiment has not ten men sick."

Despatches from Charleston state that the banks there have agreed to carry $700,000 of the bills of Frazer & Freeholm and protect the cotton in Liverpool until the first of September. This will enable the house to go on again.

"The Strongest Man in the World" Prostrated.

At Boston the other evening, Dr. Geo. B. Winship, who is said to be the strongest man in the world, was announced to deliver a lecture. The hall was filled, and the Dr., after having commenced his lecture was seen to tremble and fall to the floor. He appeared again and again swooned, when by the advice of physicians he was dissuaded from attempting to go on with his lecture. It is said that on being taken from the hall, his heart nearly ceased to beat. Dr. W. accounts for the unfortunate affair on the ground that the atmosphere of the hall was close and impure. His friends, however regard it as caused by the peculiarity of appearing before a public audience for the first time.—Dr. W. has for several years given much attention to the subject of physical education. He is twenty-five years of age, five feet seven inches in height, and weighs one hundred and forty-three pounds. He graduated at Cambridge five years ago.—He can raise a barrel of flour from the floor to his shoulder; can raise himself with either little finger, till his chin is half a foot above it; can raise 200 pounds with either little finger; can put up a dumb bell of 141 pounds; exercises daily with two dumb-bells weighing 100 pounds each, which he can raise alternately above his head; can lift with the hand 926 pounds dead weight, without the aid of straps or belts of any kind. Topham, the strongest man in England, could raise only 800 pounds in the same way; and the celebrated Belgian giant could lift only 800.—Dr. W. was prepared to exhibit all these feats, but the unexpected turn which events took prevented it. The strong man proved to be an infant.—*Buf. Ex.*

THE MILK BUSINESS.—Some idea may be formed of the extent of the milk business by the quantity which arrives in New York, daily, through one channel. About two hundred and forty single and double wagons cross the Jersey City ferry every night for their supply of milk, which arrives principally by the New York and Erie road. The wagons average eighteen cans of forty quarts each, making a total of 177,200 quarts. The freight upon milk on the New York and Erie road amounts to about $2,000 per day.

PASS HIM AROUND.—We are informed by Mr. Willsch of the American Hotel, that the "Dr. Hamilton, whose name has been flaming on daily posters in town during the last two weeks, as a curer of "female diseases," left town on Saturday afternoon without settling his board bill, and forgetting also to pay our neighbors of the *Journal* a good round printer's bill. He is an unlooked swindler, operating under an assumed name, and his conduct has not pass without suspicion that all was not right. It has been noticed that telegraph dispatches from Toronto, directed to Dr. Ross, were taken off the letter rack at the American by the pretended Doctor, and quietly pocketed when he supposed nobody observed him. His true name is said to be McDonald.—*Lockport Advertiser.*

—During the last five months, no less than fifty murders have been committed in four cities—New York, Philadelphia, Boston and Chicago.

NEWS SUMMARY

—In the Essex county (Mass.) Court of Common Pleas, at Newburyport, Abraham Norris, for biting the nose off a woman, was sentenced to five years imprisonment in the State Prison.

—The Oshkosh Democrat comes down rather severely upon the Bank of Oshkosh for what it calls their penurious policy.—The bank was burnt out, and they are nailing up a sort of shanty, which was contracted to be built with all the counters and conveniences necessary, for $150.

—John Minor Botts does not propose to fight O. Jennings Wise, as he had intimated before the Virginia election. Benevolence has driven revenge from his heart and prompted him to write a long letter to the Richmond Whig, in which he declares his purpose to prosecute Wise for libel, and to award the damages thus obtained to some benevolent society.

—The negroes of New England have called a convention, to be held in Boston, on Monday, August 1st, 1859, to take in consideration the subjects connected with the moral, social, and political elevation of the colored race, in the New England and other States.

—Travel to Europe seems to increase as the season advances, and this, too, in spite of war and rumors of war. The two steamers on Saturday had an aggregate of six hundred and fifty passengers, a large portion of whom, the Evening Post says, were families from the Southern States.

—Gen. David E. Twiggs, was, at last account, (April 26,) lying dangerously ill at San Antonio, Texas. His physicians have given up all hope of his recovery, and the General had made his will and given directions as to his funeral. San Antonio seems to be fatal to commanding Generals of the Texas Department, Generals Worth and Brooke having met their death in that locality.

CAPT. PILSBURY ACCEPTS.—We learn from the New York *Tribune* that Capt. Pilsbury has consented to accept the office of Commander-in-Chief of the New Police Force. We understand the salary will be $10,000 a year. The Captain is worth it. He will enter upon the duties on 1st July next. It is said that the Captain will throw up the Albany Penitentiary.—This will lead to a fresh excitement among our office-seeking friends.

THOMAS BARRETT'S
3rd ANNUAL COTILLION
PARTY!

The undersigned would respectfully announce to the Public, and Pleasure seekers generally, and to all who "tip the fantastic toe," that he will give again, at Ellicott Hall, on Friday the 17th inst., his Third Annual COTILLION PARTY. And he would most earnestly solicit the patronage of the merry dancers, and all lovers of the frolics of the Ball Room.

And let the merry waltz go round,
With fairy footsteps in the bound!
While strains of music cheers the heart,
And sable joys to each impart!

LOCAL MATTERS.

Acknowledgment.

We were again pleasingly surprised night before last, by receiving a Serenade from the BATAVIA BRASS BAND. The improvement these Gentlemen are making in their music is gratifying to all who have an interest in their prosperity.

We are sure that in a short time Batavia can boast of as good a band as any place of its size. Progress, Gentlemen, "practice makes perfect," and be assured you can always count on us as one of your friends and ever ready to do anything in our power to advance the interests or prosperity of your undertaking.

The citizens of Batavia, favoring the getting up of a celebration for the Fourth of July, are requested to meet at the Eagle Hotel, to-morrow (Thursday) evening at half past seven. A general attendance is requested.

MANY CITIZENS.

At STEPHENSON's can be found a choice assortment of *Lace Point Capes*, Mantillas Lace Veils, *Lace Mitts, both Ladies Misses' sizes.* Parasols all colors, styles and prices. Summer Raglans, Stella Shawls, Organdie Robes, in great variety. Also Organdie Lawns, splendid styles by the yard.

Persons will do well to call and examine my stock as *I can and will* sell cheaper *for Cash* than any other house in this village.

Remember the place 1 & 2 Cobble Stone Block.

The City of Washington at N. Y.

FURTHER DETAILS OF HER NEWS.

NEW YORK, June 7

The steamship City of Washington arrived at 1 o'clock this morning.

ALESSANDRIA, May 21

The Austrians, about 15,000 strong, attacked the advance post of Marshal Baraguay de Hillers. They were driven back by General Forey's division, which behaved admirably, and carried the village of Montebello, after a fierce combat of four hours duration. The Piedmontese cavalry, commanded by General Sounaz, displayed extraordinary energy. We have made 200 prisoners, one of whom is a Colonel, and we have from 500 to 600 killed and wounded. Gen. of Brigade, Bouret, infantry, and commandant Duchet are killed, Colonels Guy, De Lespart, De Bellefonds, Conseil Dumersheil, and commandants Sacretelle and De Ferussac, are wounded.

The Austrians are in full retreat since last evening. The loss to the enemy reaches 2,000 men.

The Vienna correspondent of the London Times says that the Austrian force consisted of three brigades and their loss was probably about the same as that of the French.

TURIN, May 23

Yesterday the enemy appeared in great force at Palestro, with the object of obstructing the march of reconnoitering parties which had taken the direction of the Sesia by order of the King of Sardinia.—The enemy's artillery was however, silenced in every part.

The Austrians have shot an entire family of 8 persons in whose house Austrian guns had been found.

The French had occupied Casteggio, where they are fortyfying themselves.

A despatch dated Vienna, May 20, says that at noon of 21st inst, about 15,000 of the French and Sardinian army attacked our troops, numbering 3,000 at Vercelli. Our men retreated fighting to Orienzo.—At this place two other Austrian brigades hurried to the rescue, and threatened the enemy's flanks, which retired across the Sesia to the western side of the river.

It is stated that 20,000 Austrians are about to be concentrated in Voralberg.

It was reported in Switzerland that all the Austrian detachments on the Lago Maggiore had withdrawn.

An Austrian despatch says that precaution had been taken against Garibaldi, whose intention it was to rouse Como to revolt.

ENGLAND.

All the London papers give credence to a report that Lord Palmerston and Lord John Russell had come to a general agreement on the subject of Parliamentary reform and foreign policy, and they predict that the Derby Government will be compelled to resign soon after the re-assembling of Parliament.

Kossuth had addressed another large meeting in favor of the neutrality of England at Manchester. He intimates that he should probably soon be in his native country. It was reported that he was the President of a Hungarian committee just established at Geneva, the object being to encourage desertion from the Austrian ranks.

The Canard Company had sold four of their screw steamers to the Spanish Government and they are to be replaced by vessels of greater power and size.

The siege fleet was fitting out at Toulon. It was to consist of [illegible] screw gun-boats, suitable for the shallow shores of the Adriatic.

Accounts from Hungary are extremely alarming, and [illegible] latter be serious disturbances [illegible] are not made. The country is full of Russian agents, who act almost openly.

The Vienna correspondent of the Times, says it was credibly reported that Prussia would soon place a corps [illegible] on the lower Rhine, and two on the eastern frontier.

A general insurrectionary movement is being organized throughout all the provinces in the Turkish Empire. It is supposed to be favored by foreign influence.

THE LATEST.

BERNE, May 23.

It is reported from Lugano that Gen. Garibaldi with his 5,000 men had barricaded himself in the town of [illegible], but is without cannon. The Austrians posted in the neighborhood are provided with artillery, and a fight has commenced.

The Bey of Tunis has offered two auxilliary regiments to Piedmont.

The Emperor passed several hours at Valenza. Nothing is yet decided respecting the departure of the troops.

The Times alludes to the designs on the part of the Viceroy of Egypt to take advantage of any disturbance which may arise in Turkey, for the purpose of obtaining, if not independence, at least a large measure of authority. The influence of France for the moment is supreme, but England will allow of no trifling in the matter; the slightest sign to evade the treaty of 1840, will bring down on the Viceroy the whole weight of England's power.

GRAHAM Flour from pure white wheat, for Sale by W. H. STORY.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla.

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the inestimable value of this Discovery—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am certain that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption as Quinine is in Intermittent Fever, but also as effectual a Preservative as Vaccination is in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"Out of *twenty-two cases in the third or last stage*, treated at my Dispensary, during the past year, *eight have completely recovered*, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a fac-simile signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. [illegible] bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 47 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S. on receipt of twelve cents in stamps to cover expense of postage. Also circulars and all reliable information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

OFFICE 90 MAIN STREET,

(Up-stairs, Up Front, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL [illegible]

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A Class of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations of symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat, shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhea or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from marital excitement and [illegible] [illegible] a state of morbid [illegible] hence the want of success on the part of the old [illegible].

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new; it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without exposure, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Man suffering from these dreadful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

The only real Hair Restorative

MCOMBER'S HAIR RESTORATIVE AND INVIGORATOR.

IS WARRANTED to grow hair on bald heads, stop its falling out, increase the growth of moustaches and whiskers to any desired extent; to cure dandruff and all diseases of the Scalp, even "scald heads." It has a reputation of merit unknown to any other article, and those who buy a bottle are sure to purchase the second and third, as it never fails to give satisfaction, and to do all that it is claimed it will do. For TOILET USE it is also unsurpassed.

When the evidence of this kind is within the reach of every one, why will any one doubt? Get a circular and read the certificates of well known citizens, then buy a bottle for fifty cents, or a dollar bottle. It never has failed.

Each bottle has the following words impressed on its sides—*McComber's Hair Restorative and Invigorator, Buffalo, N. Y.*

BY PETER WORTH.

No. 2 Cary Block, Batavia.

"Pete" would inform his friends around
He's took the Stand—on Gardner's ground—
In No. 2 of Cary's block;
Where Lager's sold, of purest stock!
He has remodeled this Saloon,
And made it now a Splendid Room.
It is a place of fine resort
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease retire,
And "Pete" will them, with Bier inspire—
Or sell them all a Dinner, warm,
Or Lunch, that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often high he looks, and tall,
He will respect, to Patrons pay,
Or treat them all in friendly way!
With sparkling Lager by your side,
This world of sin, you would deride
And in your fancies, still must say,
Bright Lager puts in healthy way!

WIT AND HUMOR.

Rocky thinks is provoking for a woman who has been working all day mending her husband's old coat, to find a love letter from another woman in the pocket.—This is perfect nonsense. There is not a woman on earth but would find the letter before she began to mend the coat.

This forenoon a man in search of a child was hailed by a ponderous Hibernian, who thrust his half naked frame through the window of a dilapidated three-story wooden building, "Is it a child ye want?" "Yes." "About three years owld?" "Yes." "He has fair hair, blue eyes, red stockings an' smoked-colored gaiters!" "Yes."—"Had he a plain dress and white sthraw hat on 'im?" "Yes! yes! Is he up there with you?" "Ah, no, sir, but I saw his mother a while ago lookin' for the darlin'."

An Irish lover has remarked that it is great pleasure to be alone, especially when you have your sweetheart wid you.

Shoulder Arms!—They have got a new military company in Chicago. They drill six times a week, and have now got so they can form a straight line—by leaning against a fence!

Our Glorious Fourth!

☞ Be at the EAGLE HOTEL to-night, at 7:30, and we will have a glorious **FOURTH OF JULY CELEBRATION!**

The London Times in an editorial on the affairs of Mexico, gives the decided opinion that the sympathies of England are due to the same party which has secured the friendship of the United States, and says it makes the avowal with more emphasis because its correspondence apparently intimates that the British representatives have inclined to the opposite side. It regards with great satisfaction the alledged proceedings of the Americans.

The Woodstock (Vt.) Age says that Isaac T. Morgan, Esq., of Bethel, a member of the Windsor County Bar for the last ten years, committed suicide by shooting himself with a pistol, on Thursday of last week, in a room in his own house.—He leaves a family.

On the 2d instant, at Pottsville, Pa., a vivid flash of lightning and deafening peal of thunder so alarmed the wife of Mr. George W. Potts, coal operator, while standing at her door, that it induced a fatal attack of heart disease. She fell back and died in a few moments. She was a niece of Hon. George M. Dallas, and a daughter of the late Trevanion B. Dallas, of Pittsburg.

A fire broke out in Salem, Mass., about 1 o'clock, yesterday morning, in the stable of the Mansion House, in Essex street, destroying it together with 16 horses. The Hostler, whose name was Hatch was burned to death.

The flour and grain trade in Albany was never more dull than at present, and this seems to be the case in every city east and west of us. Speculation was rife three or four weeks ago, but it has since received a check that involves heavy losses. So says the Argus and Atlas.

The Albany Statesman says a passenger on last night's express train down on the Central Road says a large pile of wood in one of the R. R. Co's sheds at Oneida was burning furiously. The Fire Engine was throwing water upon it, but seemingly with but little effect.

We learn from the St. Paul papers of Saturday and Sunday, that that city and other towns above and below have suffered seriously from a flood in the Upper Missippi.

Sufferers from Scrofula and Scrofulous affections, clean up! Why wear your Pimples, Blotches, Ulcers, Sores? Why have the life twisted out of you by Dyspepsia, Rheumatism and Gout? Why suffer Syphilitic and Mercurial diseases to rot the bones in your body, or the flesh off your bones? Why let your sluggish blood drag, and scatter its distempers through your veins? AYER'S COMP. EX'T OF SARSAPARILLA cures these complaints, and cleanses them out of the system. Use it faithfully and you bring to society a healthier, cleanlier and far more acceptable member.—*Democrat, Baltimore, Md.*

At Detroit, recently, an ox was killed because he could not understand the French language. The team, consisting of one English and one French ox, drawing a heavy load and driven by a French driver, was crossing the railroad track when the express train made its appearance. The driver, in great excitement, immediately ordered his oxen to "chuck," the French word for "haw." The French ox understood him, and turning off the track, saved himself, but the English ox, never having studied the language, pressed further on, and was instantly killed.

A NEW CHALLENGE FROM SEEREITER TO PHELAN.—We are informed by correspondents at Detroit, that a movement is on foot in that city to comply with the demands of Mr. Phelan, in relation to the amount of money requisite for a new encounter between him and Seereiter; and that a private subscription will shortly be set foot to post the necessary sum for a match of $25,000 a side and the Championship of America. This movement, we are assured, will proceed from pure city pride, and not from any love of gain; and it will be conducted in the main by a gentleman who, ordinarily do not take much interest in wagers of any kind. Having learned that Phelan is determined not to play for a less stake than $25,000, and being very confident in the ability of their champion to redeem his laurels, they are determined to come up to the mark of Mr. Phelan's declarations, and give their representative another chance. As we know that this information is sent to us in good faith, we will look with much interest to the first solid signal, in the shape of an initiary installment of $5,000. Let Mr. Phelan, therefore, look after his harness, and prepare for the list again.—*Porter's Spirit.*

On the 2d inst, a severe thunder storm passed over Pottsville, Pa., and a vivid flash of lightning, accompanied with a crashing peal of thunder, so shocked Mrs. George W. Potts, who was standing in the doorway, that she fell back and died almost immediately. She was a daughter of T. B. Dallas, of Pittsburg, had been married about a year and was near her first confinement.

ANOTHER SICKLES AFFAIR.—The West Troy Democrat has been put in possession of the particulars of the shooting of a young man who formerly resided in that city, by the father of a girl said to have been seduced by the young man. The affair took place in Stillwater, Saratoga county.

We give the account as furnished the Democrat, which paper vouches for the credibility of the statement:

"The citizens of this place were thrown into great excitement last night by a report which reached us about sunset that Hiram D. Case had been shot by Arthur Holden for improper relations with his (Holden's) daughter. This Case was formerly clerk in a Dry Goods establishment in Albany. His parents and friends live about five miles north of this place. Last December he came home and stayed about here for three weeks, and during the time got acquainted with Miss Holden. She was the daughter of a poor man, but bore a good character. As circumstances have since shown, Case, under promise of marriage, ruined her. As soon as her father knew this, he swore that Case should answer for the crime with his life. Mr. Holden served in the Mexican war, and with him to say, was to perform. Since the first of March, Case has resided with his parents, and last night came down to Holden's, when Holden, as he entered the gate shot him through the heart with a rifle. He died almost instantly. Holden gave himself up to the authorities, and made no resistance, simply remarking that he had done his duty. There is a great deal of feeling here upon the subject, and a large number of people have been to the place where the tragedy occurred, which is about two miles north of the village. I will inform you further upon this subject if any new facts are developed.

Yours truly,
MILES H. ROBBINS."

Every morning a middle aged gentleman walks down Broadway, from Bleecker to Wall street, who has trod daily the same route for 25 years. Twenty years ago, being convinced of the evil and extravagance of smoking, he resolved to lay aside the trifle spent in segars, amounting to only two or three daily. He has adhered to that resolution ever since, and the sum of those little expenditures, weekly deposited in a savings bank, has reached this day, two thousand five hundred and ninety dollars.

It is stated on the authority of the Buffalo Republic that the Pensylvania Central road commenced yesterday morning, in New York, to sell tickets through to Chicago over their route $12! and from New York to Detroit, via Cleveland, for $10. This is the lowest fare ever made between these two points, and looks as if the Southern roads were determined to carry on the war in good earnest. All we have to add by way of comment on this is: "The de'il take the hindmost."

A couple were married in Pawtucket last week, one of whom—the girl—was less than thirteen years old. The bridegroom was a few years older. It was a runaway match, and took place in the absence from home of the father, who is a respectable farmer in North Providence. The bride absented herself from school on pretense of illness, but it appears she recovered sufficiently to leave home without her mother's knowledge, and return a wife.

An Indian fracas occurred at the Tuscorora settlement, five miles from Suspension Bridge, on Monday evening, in which an Indian named Chew was stabbed in the neck with a knife by another Indian, named Patterson. The former died in a few minutes thereafter. It appears that Patterson had a quarrel with a brother of the murdered man, when the latter interposing to settle the difference, received the stab as above stated.

The Chicago Democrat of the 4th inst., says a whirlwind passed over Pecatonica Stephenson Co Illinois, on Saturday last. It formed a water-spout in the Rock River, and passed through the woods prostrated the forest timber for a space of one hundred feet wide and a considerable distance in length. Some four miles further it demolished two barns, tore off the roof of a house, &c. The water was carried a distance of four miles from the river.

—Mr. David Vail, a much respected citizen of North Salem, Mass., mysteriously disappeared from his family on the third of last month, and was neither heard from nor seen until Saturday, when his body was found suspended to a tree in an advanced state of decomposition, with a strip of bark fastened around his neck, by Mr. Starr Fields. One hand was thrust into his pocket, and clasped in it was found $92 in bills, which he had collected.

—The heirs of Hon. W. B. Clarke of Washington County are likely to receive $100,000 for their portion of the revenue from the British Government for the use of Henry J. Roger's signals.

NEWS SUMMARY

—The residence of Mr. Levi Pennfield, in Montgomery County, Maryland, was destroyed by fire on the night of Friday last. Two promising lads, sons of Mr. Pennfield, were asleep at the time the fire broke out, and could not be reached, were burned to death. One of the lads was 13, and the other 9 years old.

—The Mineral Point Tribune says on the 25th, while a young man named James was employed in a field with a harrow, he had occasion to turn it over. He turned around to look at something else, when his foot caught, throwing him down and the harrow on top of him, one of the teeth entered his body, passing between two of his ribs, penetrating to the depth of about four inches. He is likely to recover.

—Chas. W. Allen, of New Haven, has in his possession a coin taken from the ruins of Nineveh, which cannot be less than from 2,300, to 2,500 years old!

—The death of Nicholas Hill was appropriately noticed at the opening session of the Court of Appeals, Albany, Monday.

—The Recorder's Court in New York has quashed the indictment against Wood, Eddy & Co., lottery dealers, "no law on the State having been infringed."

—The oldest prelate in the United States is Archbishop Kenrick, of Baltimore. He has been 30 years a bishop.—The diocese itself was established in 1789.

—At the grave of Humboldt the United States were represented not only by our minister at Berlin, but by a representative from each State of the Union, gathered for that purpose at Berlin from different parts of the Continent.

—The name of the Hon. Rufus Choate appears in the list of passengers by the Canada from Boston on Wednesday. He had engaged passage, but was prevented from going by continued illness. Mr. James T. Fields, the publisher, sailed in the Canada.

—Van Amburgh's elephant tried to swim the Appomattox on his way to Petersburgh the other day. A bull-dog chased him midway into the stream. The elephant quietly submerged the dog with his trunk and then tossed him ashore.

—A rascal in Cincinnati a short time since, shipped for New Orleans what purported to be cigars on which he procured an insurance of $6,000. On the down trip he endeavored to fire the boat, but failed, and it was then ascertained that his cigar boxes contained nothing but chips and shavings.

—In Chicago, a few days ago, a man named Schifferman, an employe in a brewery, was sent down into vat to clear it out, which he had nearly done, when another workman, who had received an order to draw some hot beer that was in process of cooling into one of the vats, by mistake turned the scalding torrent in upon his comrade, burning him in such a manner that he died a few hours afterwards.

—The Spanish Government has given orders for the supply of tents for the army of 30,000 men.

—Armstrong, one of the colored men under sentence of death for the murder of the mail-carrier at Brantford, has had his sentence commuted to imprisonment for life in the Penitentiary.

—A tobacconist in Cincinnati sells upward of two hundred pounds of snuff in the course of a month to ladies, who chew it in lieu of the weed in the leaf state.

—It has been resolved at Vienna to station an army of 60,000 men in Gallicia. Austria has already placed all her contingents to the garrisons of the federal fortresses on a full war footing.

LATER FROM EUROPE.

Arrival of the Arago.

ANOTHER BATTLE FOUGOT!!!

ALESSANDRIA, May 29.

The Emperor is enjoying perfect health. We have but few sick. The weather is beautiful and the harvest is begun. The army is abundantly supplied, and the soldiers continue to feel full of confidence, and are in high spirits.

Garribaldi has re-inforcements of troops at Como.

The artillery has been reorganized, the National Guards mobilized, and volunteers are hastening to increase the militia.

The national movement is spreading, and the town of Lecco is free.

The Austrians in considerable force have occupied Dobbio.

The following was received at Rentes telegraph office yesterday evening:

Gen. Garribaldi entered Como amidst bell-ringing and a general illumination of the town. All the steamers on the Lake of Como are in possession of Garribaldi.

The Austrians are in rapid retreat.

Advices from Lugano, dated noon of the 28th, state that the Austrians, pursued by Gen. Garribaldi, were withdrawing towards Milan.

Gen. Garribaldi had occupied Camerlo and Lecco.

Insurrectionary movements have taken place in the Valteltino, and 800 Valtelline insurgents are now on board an Austrian steamer.

The following advices have been received from Lugalo to-day:

Yesterday evening, after a furious fight which lasted from 5 to 8 o'clock, Garribaldi entered Como.

The combat was renewed at Canerlosta, and the Austrians again gave way and retreated.

The town of Como was illuminated, and all the steamers on the lake are in the hands of the patriots.

This morning the Austrian war steamer on the Maggiore kept up a three hours' cannonade upon the town of Oannabio, without much effect.

According to advices from Florence of to-day, Russia, Prussia, England and Turkey are said not to have recognized the Provisional government of Tuscany, and the representatives of this country are also said to have withdrawn their flags.

The London Times says that the report that Mons. Bernedilly is about to proceed from Paris on an extraordinary commission to the German Confederation, tends to strengthen the supposition of a possible compromise at no distant day, by means of Prussian agency.

The Paris Semi Official Pays of this evening, contains the following:

The Austrians, 50,000 in number, quitted Practozza yesterday and re-entered Lombardy.

The London Post in reply to some statements as to Lord Palmerston and Lord John Russell being actuated by mutual rivalry, says the public may rest assured that if the Liberal party cannot act unitedly the fault will not rest with its chiefs.

The Paris Pays states that England is endeavoring to renew diplomatic relations with Naples, but only on the condition that France will simultaneously do the same.

The Correspondent of the Times report that several Colonels of the Swiss regiments are concerned in the conspiracy against the Crown Prince.

MRS. M. M. DENSLOW,

Having returned from New-York with her usual supply of New Millinery Goods, is now ready to offer to the Public an assortment that will vie with the very best self-imported Stock ever before brought into a Batavia market.—True Mrs. D. *did not go to Paris herself*, but bought her supply at Importing Houses in New York who have been long in the Trade and who sell to their old customers, who pay, at very reasonable rates, and Mrs. D. being one of that class of customers, is enabled to give her patrons the full benefit of a superb Stock of Goods, purchased at those Houses, where Fashionable Goods are to be had at very small profits. The Public are invited to call and see, after seeking to be supplied elsewhere, among Importers, and she feels they will not be inclined to go empty away.—The cash trade is greatly desired—though responsible persons can have credit from four to six months.

She is fully prepared to execute all orders in this line of traffic, and to prosecute with dispatch, and with all of the neatness, elegance and fashion that her reputation has heretofore won her, any work trusted to her care. Her uniform prices are also made to suit the times and in favor of the buyer. 245daw

A NEW
CONFECTIONERY.
PAUL ZALA

HAS NOW RE-FITTED IN A VERY splendid manner the SALOON next door east of Mrs DENSLOW'S Millinery Store, where he will prosecute the above business in all its branches. He will keep a general assortment of Toilet and Fancy work, and execute to order such candies and ornamental designs as is demanded for parties of pleasure and festivals generally.

He flatters himself that his mechanical ingenuity, and long experience in his business will enable him to give to all general satisfaction.—Having been to much expense in getting his Establishment in readiness, and making his place attractive—he earnestly solicits a liberal patronage from the town and country.

He will also keep Ice Cream devoted to the taste of the most fastidious epicure—and hold himself in readiness to entertain his customers with the luxuries of his Saloon; and to make his place a *fashionable* resort to all who desire delectables.

DR. COGSWELL'S NEW MEDICAL SALT.
For Inflamatory Diseases Only.
New Medical Salt! New Medical Salt!
IT IS NOT A CURE-ALL.
For Inflammatory Diseases only

Dr. Cogswell's New Medical Salt, instead of its being a remedy for all ills, [illegible] has but one aim, and accomplishes but one thing, to wit: subdues inflammatory [illegible], whatever be its form or locality, whether [illegible] head, throat, stomach, intestines or skin.

New Medical Salt. Its peculiar excellence [illegible] in that without the [illegible] strength it effectually cures inflammatory diseases, [illegible] by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

Notice to Invalids! The following forms [illegible] inflammatory diseases, and [illegible] have been mentioned, [illegible] are readily subdued by the *New Medical Salt,* as fire is extinguished by water, to wit: [illegible] Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia [illegible], Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, [illegible], and all itching and other cutaneous eruptions.

Dr. Cogswell's New Medical Salt exerts, [illegible] the fluids [illegible], an extraordinary [illegible] over the veins and arteries, [illegible] a gradual decline of inflammation [illegible] the [illegible], which then resumes its natural state, and the [illegible] pain and fever disappear.

Dr. Cogswell's New Medical Salt [illegible] which it claims to [illegible] cure, [illegible] equalizes the fluids by removing from the system all arterial and venous obstructions. [illegible] circulars may be obtained from any Druggist who has this valuable medicine for sale.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!
DR. CHURCHILL'S DISCOVERY.
Winchester's Genuine Preparation of the chemically Pure Compound of the
HYPOPHOSPHITES
of LIME, and of SODA,
Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for
CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA,—removes all remaining doubt as to the [illegible] value of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost invariable success. [illegible] Consumption [illegible] a moment [illegible] [illegible] last hope?

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove [illegible]."

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever, but also
an Effectual a Preventive
as Vaccination in Small Pox.

"*In no instance have I found the remedy fail* [illegible] *anything that could reasonably be expected from it.*

"*Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. Such a result is altogether unparalleled in the annals of Medicine.*"

This Remedy is the most powerful generator of blood known, and invariably efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile* signature.

No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

Price, $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in cases and [illegible] sent by mail, when specially ordered. Sold wholesale and retail at the Principal Depot in the U. S., 49 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S. on receipt of twelve cents in stamps to cover expense of postage. DR. JOHNSON'S
HERB DISPENSARY!
OFFICE 95 MAIN STREET,
(Cor. [illegible] Up Stairs, Buffalo, N. Y.)
A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING
Spermatorrhœa, Nervous Debility, Marasmus or Wasting Consumption.
AND ALL
Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or marasmic wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs; great palpitation of the heart; asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhœa, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named, have their seat primarily in the sexual organs, and arise from special excesses and chronic inflammation [illegible] morbid irritability, hence the want of [illegible] the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The Business, located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world-wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name as originators, to increase their trade—to prevent the few who may be unacquainted with us, we would state that we have no connection with any other Gift Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future, we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

WORTH OF

BOOTS & SHOES

To be sold in the next 2 months, at 20 per cent. less than Manufacturer's Prices.

THOMAS YATES,

Who, for the last 20 years has held forth in this Village, and has never yet been outdone, either in prices or quality, would respectfully announce to the inhabitants of Batavia and surrounding country, that he is still in the field, opposite G. B. Worthington & Co.'s Hardware Store and second door from the corner of Jackson-st. where may be found an extensive assortment of

BOOTS, SHOES, RUBBERS & GAITERS,

of the latest styles and most approved workmanship, which will be sold from 10 to 30 per cent. less than the usual prices. This is one of the best opportunities to obtain GREAT BARGAINS, ever offered to the people of Western New York, and it is desirable that the stock should be closed off by the first of December next.

Ladies' Black Fox Gaiters only 4s worth 7s; Ladie's Black Fox Fine Gaiters only 5s, worth 8s; Ladie's Black Fox very fine Gaiters, only 7s worth 10s; Ladie's Black Fox Heel Gaiters only 8s, worth 14s; Ladie's Black Fox Congress Gaiters only 10s, worth 16s; Ladie's Kid Congress Gaiters, thick and thin soles, less than cost to manufacturer.

A NEW LAGER BIER

SALOON!

BY PETER WORTH,

No. 2 Cary Block, Batavia.

"Pete" would inform his friends around
He's took the Stand—on Gardner's ground—
In No. 2 of Cary's Block,
Where Lager's sold, of purest stock!
He has re-modled this Saloon,
And made it now a Splendid Room.
It is a place of fine resort
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease entire,
And "Pete" will them, with Bier inspire—
Or sell them all a dinner, sure,
Or *Lunch,* that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often *high* he looks, and *tall,*
He will respect, to Patrons pay,
Or treat them all in friendly way!
With sparkling Lager by your side,
This world of ale, you would deride
And in your inmost soul must say,
Bright Lager puts in healthy way!

WIT AND HUMOR.

An old bachelor says that marriage was instituted for no other purpose than to prevent men sleeping diagonally in bed.

Calliope Anecdote.—Some time in the spring of '57, the steamer St. Nicholas "opened" at New Orleans with a calliope, the first one ever heard of in those parts, causing the greatest consternation among the servants, most of whom suppose they must now give an account of their sins, sure enough. But one of them, a girl, stood and listened for some time, and at last walked into the house and expressed her opinion thus:

"Missus, I don't b'lieve dat ar's Gabriel, 'cause I a'nt feared a bit; but if it's him, he's playin' 'Wait, for the wagin', sure's you're born!"

A lady in Indiana has obtained a divorce from her husband, because he laid with his back to her. All wrong! She might have got over on the other side of him.

A farmer made his last will and testament in words few but significant: "I have nothing, I owe nothing and I give the rest to the poor."

[From the Utica Evening Herald, Jan. [illegible], 1857.]

Benjamin F. Walker, of Madison, in this county, speaks of a remarkable cure of disease of the eye. He had been severely afflicted for six months or more, and the remedies applied benefited him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 10, 1855.

We learn that Dr. Lighthill, assisted by Dr. Pease, [illegible] an operation for the cure of [illegible] upon the eyes of Miss [illegible] of Truxton, Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties, [illegible] with this tender and useful organ, should be hailed with respect by those who are unfortunately liable to its injury, as it is with joy by those who have experienced its blessings. The Coming 4th of July.

Our citizens have stirred in this matter, as will be seen by the proceedings published in our paper to-day. It is greatly to be hoped that all our citizens will feel the kindling fires of '76, sufficiently that when the Finance Committee comes round that they will dive into their pockets liberally, and thus aid in this laudable effort to revive the latent springs of our Independence, and Revolutionary achievements freshly in the minds and hearts of our People.

We want an "*Old Fashioned Celebration*," and we can have it, if the unanimous voice of our Townsmen shall say it—and say it in the energy and zeal of the slumbering breath of the inherent spirit of our Ancestry, which proclaimed "*Liberty or Death!*"

The Weather.

The wind keeps constantly in a cold quarter—blowing from the North, or North-West; and its chilly blasts, perpetually keep our over coats in demand, and makes us all sensibly huddle around our stove fires, which seems as grateful as in February or March. To-day, the 10th of June, we have a damp, drizzling rain and snow from the North-west, and all heads are pinched with its icy grasp—The howling wind "lowers around our house," betokening a coming frost, which may finish up the dearth and the devastation it has already begun on the 6th inst. The sun has hid her warming and smiling countenance, and the mild zephyrs have ceased to blow, and the south winds have refused their warmth, in our latitude; and thus the very elements have declared war upon the toils of the husbandman, and the earth is becoming parched and steril, while the heavens present their cold and icy canopy over our heads, chilling the very last ray of hope of plants springing from the lap of Earth. The Earth and Heavens are at war, and the Nations are taking pattern. As Jack Frost bites and devours the tender herbage and the fruit, so the Allies are secretly springing upon each other; and thousands who are young and vigorous and budding with the glow of passion for usefulness, are mown down in the midst of thrift and rising hope,—and are, as if they never had been." Who can divine the signs of these times—and where shall we get our "bread and butter," if such inharmonies prevail throughout the growing year?

It is a singular fact that the curiosity of the "women folks," to get a glimpse of any condemned criminal, is always greater than with the men. The Chicago Democrat in noticing this lamentable fact says, in this city, also, the rush of ladies to see Jumpertz, convicted of a most diabolical murder upon a female was astonishing.—Among the prisoners in the jail, Jumpertz appears to be the favorite with the ladies who vie with each other in the privilege of conversing with him.

The Washington correspondent of the New-York Tribune states that it is the impression in diplomatic circles there, that England will offer her mediation after the first important battle shall have been fought. If it be accepted, Napoleon will return to Paris after securing conditions looking towards the amelioration of Italy. If refused, the indication is that the war will be general.

Mr. Dallas's letters announce Lord Napier's arrival at London. While the involvement of England in the war was regarded as not immediately probable, such a contingency was generally apprehended as likely to take place ultimately.

—Miss Harriet Lane, the Lady of the White House, with her suite, made a visit to West Point on Monday. The party came up in the United States steamer which bears the name of Miss Lane, and were received by the officers and cadets in a very flattering manner.

An Old Fashioned Fourth of July Celebration in Batavia.

A GOOD TIME EXPECTED!!

A large and enthusiastic meeting of our citizens was held at the Eagle Hotel on Tuesday evening, at which resolutions were adopted and committees appointed to make arrangements to celebrate our forthcoming Anniversary of our National Independence, in an "*old fashion*" manner.

Orange Allen was called to the Chair and Oscar C. Dibble was appointed Secretary.

In a few brief remarks several Gentlemen proceeded to state the object of the meeting, to make arrangements for the celebration of the forthcoming Fourth of July.

On motion, seven Gentlemen were chosen to act as Finance Committee, for the purpose of visiting the Citizens and inviting them to subscribe a suitable amount to defray the expense necessary to get up an "OLD FASHION CELEBRATION," the following named Gentlemen composed the Committee.

A. E. Warner, A. N. Weller, George Knowles, M. G. Soper, John Kinyon, A. Bowen, Henry Gast.

The following Gentlemen were chosen to serve on the different Committees:—John Kinyon, N. T. Smith and B. G. Tisdale, Committee to make arrangements with the Indians, to join in the Celebration.

M. F. Robertson, Geo. Bowen and O. B. Bolton, to obtain an Orator for the occasion.

N. T. Smith, H. McCormick, and E. L. Kinyon, Committee on Fire Works, and to see the Firemen.

A. J. McWain, Jas. Showerman, Robt. Pease, Ira Vaughn and Mr. Morse, Committee on Music.

Peter Bradt, E. H. Norton and Smith Frost, Committee on Dinner.

Jeremiah Hascall, L. S. Kirkham, D. D. Waite, M. L. Hickox and J. M. Willett, Committee on Printing.

Frederick Follett, S. A. Wilson, H. M. Warren, John Kinyon, Geo. H. Holden, Erastus Dodge, Wilber Smith and B. G. Tisdale, Committee on the arrangements of the Day, generally.

The Committee on Printing were particularly instructed to obtain the printing of 500 two-sheet Bills, where they could get them done the cheapest, (in Batavia.)

The Committee on Music were particularly instructed to hire the *Batavia Brass Band*, *Vaughn's Brass Band*, of Le Roy, the *Indian Brass Band*, of Tonawanda, and *Capt. Gardner's Martial Band*.

The Daily & Weekly Papers were requested to publish the proceedings of the meeting.

The meeting adjourned until Tuesday Evening, (June 14th,) at the same time and place.

The citizens of Batavia and the surrounding Towns are cordially invited to attend, and enjoy the festivities of the occasion. A great time may be expected.

Further particulars will be given in the village Papers and the Large Posters for the occasion.

ORANGE ALLEN, Pres.

Oscar C. Dibble, Sec'y.

The N. Y. *Journal of Commerce* says the largest mirror ever imported into this country has just been received from Paris, for the Fifth Avenue Hotel, now in process of completion in New York. Its dimensions are 66 by 129 inches, and its cost, exclusive of frame, about $1,500. No ship was large enough to admit it between decks, and so it was brought as part of a deck load. This glass is to be placed in the dining-room, opposite the entrance from the main corridor, where it can be displayed to the best advantage. The contract for looking-glass plates for this large hotel amounts to about $14,000; the cost of silvering and frames will increase the amount to near $30,000.

Not Much Idle Time.—Down on the "Eastern Shore" of Virginia there is an editor, who is also his own compositor and pressman, who makes occasional voyages along the coast to Norfolk as captain of the schooner Polly, who preaches on Sunday, teaches school on week days, and still finds time to take care of a wife and sixteen children.

Hon. Stephen A. Douglas.

This eminent Senator and distinguished citizen arrived in this city from the south, late on Monday evening. He took his old quarters at the Tremont House.

Yesterday morning, bright and early, he was up and out, and was called upon by many personal and political friends.—He never looked better, being in excellent health and spirits. He is full of life and of hope. His arduous labors during the winter at Washington, have not worn him in the least; nor has the opposition he has encountered,—which, however, is now pretty much broken,—worried him to any great extent or weakened his confidence in his own position and in the principles of the Democratic party. At the south—through which section of the country he has just passed—he was met uniformly with the same warm kindness and friendly cordiality that have ever been accorded to him by her true sons. There are not many men in any southern State, who ever pretended to be Democrats, who are willing to hazard the integrity and ascendancy of the Democratic party, and the peace of the Union, by violating the pledges made to the country in the Cincinnati platform.

It is Senator Douglas' intention to spend two or three weeks in Chicago, at the present time, and then he will be absent for a short period; after which, for the most part, he will be in Chicago and other parts of the State until about December.—*Chicago Times.*

The North Bridgewater (Mass.) Gazette reports that Mr. Henry Barrows, of North Easton, is suffering from an accident which may serve as a warning to all who are in the habit of picking their ear, with a pin. A few weeks ago he dropped a pin into his left ear, and physicians have labored in vain to reach and remove it; inflammation has taken place, and it is feared it will terminate his life.

The New York papers announce that a proposition has been made by responsible parties to lease the Erie road for a term of ten years. The offer is to pay the bondholders $1,000,000 the present year, and $1,800,000 the second year, $2,000, the third year, and $2,200,000 for the remainder of the term. The latter sum would be sufficient to pay the interest on the entire debt, and a dividend on the stock. The parties offer to give security to keep in proper repair and be subject once a year to the investigation of a committee under the instruction of the creditors of the company.

Garibaldi, the white-haired leader of the Italian volunteers in the army of Sardinia, was exiled from Italy in 1849, and found refuge in the United States. A western exchange says that he kept a coffee house in Cincinnati a few years ago, and retailed liquor by the dram. He is now a General in the Sardinian service, commanding fifteen thousand men, and to a great extent controlling the destinies of the States.

The Trenton (N. J.) American states that the trial of Harden, the wife poisoner will not take place till September. He has preached two or three Sabbaths in the jail where he is confined, and large numbers of ladies have flocked to hear him. Harden protests that he is entirely innocent, and pretends to be earnestly engaged in study, designing, when liberated to prosecute his ministerial work.

The remains of the late Alexander Hamilton, buried thirty-seven years ago in the New Haven Cemetery, were a day or two since exhumed for the purpose of being removed to Bridgeport, (where his son's remains have within a few years been deposited.) The coffin being of mahogany, was found to be almost perfectly sound—so much so, it was said, the sexton could, or did, stand upon it to test it. The skeleton appeared perfect.

—The workmen employed on the Baltimore City Railways were compelled to stop work on Thursday by a crowd of men who demanded work for themselves, but at a price beyond what they ordinarily have been receiving, and they declare that no further progress shall be made in the road unless they are furnished with work at their demand.

—The great and immortal Piccolomini was a little vulgar after all. Like many other foreign notabilities, she left the country without paying her board bill.—Wm. Fish, her agent, is in prison on account of her forgetfulness. The bill was due at the Everett House in New York, and the amount she forgot to settle was $1,200, for the boarding of seven persons four weeks.

—It is announced that Roger A. Pryor retires from the washington Union to practise his profession in Petersburg, Va. It is thought probable that Mr. Letcher will tender him some post in the new state administration.

—At Chicago, Monday, the Tremont house furnished its guests with bread made from new wheat, raised in Mississippi. It cost only $20 per barrel.

The way the body of the railroad conductor drowned in Shrewsbury, Vt., pond, some days ago, was found, was thus: Some quicksilver was put in a loaf of brown bread, and the latter placed in the water; immediately it started off like a live animal, against a strong current of wind and waves and went as fast as some men who followed it could row a boat, till it came to where the body was found, which was sixty feet under water, and there stopped!

BY TELEGRAPH.

Arrival of the Steamship Africa.

New-York, June 9.

The steamship Africa has arrived from Liverpool the 28th ult.

The Austrians profess satisfaction with the result.

Gyulia says his loss was 290 killed, 218 wounded, and 283 missing. He says the French numbered 40,000, but abstained from all pursuit.

Some French authorities still assert that not much over 4,000 French were engaged. Others estimate the number at 12,000.

It is reported via Turin that 5,000 Austrians attacked Garribaldi's corps at Varese, but were repulsed and pursued. The country around Varese was in insurrection.

Garribaldi was on his way to Como.— His force numbered 10,000, but he had no cavalry or artillery.

Popular risings in favor of Sardinia are making in some parts of Parma.

Vague rumors come in via Vienna that Gorchikoff, the Russian Foreign Minister, had resigned because the Emperor refused to carry out the engagements with France.

The Derby Ministers have issued a strong appeal to their parliamentary supporters for an early attendance to meet the opposition movements.

Further by the Africa.

A letter from Alessandria says that when the carriage containing the Austrian officers and other prisoners taken at Montebello, passed before a group of the French Imperial Guards, the men ranged themselves in a row, and took off their shackos.

A decree of the Empress-Regent enacts that in virtue of the law recently adopted and of a bull of the Pope, the Episcopal seal of Rennes shall be rised into an Archbishopric, and another decree signed by the Emperor and dated from the General Imperial head quarters at Alessandria, appoints the present Bishop of Rennes to be the new Archbishop.

The Vienna correspondent of the London Times furnishes a version of the battle to the effect that Count Stadion passed the Po on the 20th by the strongly fortified bridge at Vaccarizza with 25,000 men to ascertain the position of the French.

He found them in Casteggio, which he stormed.

He then came upon Baraguay d'Hillier's army near Montebello. He attacked it so as to make the enemy display his strength.

The French brought up fresh troops by rail during the battle.

The London Times Paris correspondent writes that letters entitled to some credit state positively that only 4,200 French troops were engaged at Montebello.

The Austrians are admitted to have fought admirably in line, but not as well in close quarters, or when the moment came to cross the bayonet.

Other accounts estimate the French forces in this action at fully 12,000.

It is said that Gen. Forey's coat was riddled with bullets.

Private accounts say that the real loss of the French was 1,000 to 1,100 men.

The London Times' Paris correspondent says that the Austrians admit that the French fought splendidly.

From the heights, the Austrians beheld the novelty of train after train of French troops arriving by rail from Voghera, disgorging them, and immediately hastening back for more.

The first Austrian corps de army, 40,000 strong was to be sent from Bohemia into Tyrol by way of Dresden and Munich.

The accumulation of troops in Munich was so great that 2,000 beds had been made up in the Crystal Palace.

The report that the central powers had protested against the occupation of Tuscany is contradicted, but it was believed that the English and Russian Ambassadors in Paris had made observations on the subject which were not very well received.

A dispatch from Trieste says that about 60 French men-of-war were in the Mediterranean, cruising between the Adriatic and the Levant.

A flotilla of gun boats was ready to sail from Toulon, and was shortly to be followed by a second.

It was supposed they were intended to act against Venice.

Five gun boats, which could be taken to pieces and remounted, have been sent to Genoa. They were intended for use in Lake Maggiore.

A letter from Toulon states that the enlistment of seamen from that port, if not abandoned, is at least suspended.

The French Envoys at the courts of Bavaria, Hanover and Wurtemburg, were in Paris, having been summoned to give a verbal account of the difficulties of their position in consequence of the war excitement in Germany.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from, or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the inestimable value of this Discovery—Consumption is no longer to be regarded as an incurable malady.

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever, but also
as Effectual a Preservative
as Vaccination in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"Out of seventy-two cases in the *third or last stage,* treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of *Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,*—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a facsimile signature.

☞ No other can be relied upon as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U.S., 49 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U.S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

WIT AND HUMOR.

One comfort to a person with a thick skull is that when once anything has been beaten into it, the very devil himself can hardly get it out again.

An editor, who, like one of our acquaintance, undertakes to prove everything by his own personal testimony, may certainly pass for an *Ipsiness.*

An old beau is advised—"if you find facts give up all thought of love-letters when you can no longer read them without spectacles.

Our modern cities, though bad enough, are certainly a great deal better than ancient Sodom; they have thousands of good folk.

"*I am certain,* wife, that I am right and that you are wrong; I'll bet my ears on it." "Indeed husband, you shouldn't carry betting to such extreme lengths."

The Catholic Mirror announces the conversion to Catholicity of Mrs. Blount of Georgetown, daughter of Mr. G. Key, author of the Star Spangled Banner, and father of Philip Barton Key. Mrs. Blount is a niece of Chief Justice Taney.

A BRAVE ACT WELL REWARDED.—The Boston Daily Atlas says: "A son of Edward Reed, of this city, fell from a wharf a few days since, and was about sinking under a ship, when a truckman, named Richard Dyer, jumped in and by the greatest exertion, succeeded in rescuing the boy. The father of the lad presented the truckman a suit of clothes worth $100.—A moment's delay on the part of Mr. Dyer would have cost the boy his life."

A dispatch from the Columbus Sun of 8th, June 8, says the Alabama and Fontaine Warehouse was burned on Tuesday together with 5,000 bales of cotton and a large amount of merchandise on storage. Loss $300,000. Amount of insurance unknown. The fire is supposed to have been the work of an incendiary.

The Rochester Democrat understands that the engineer of the accommodation train which left Monday evening from Suspension Bridge, relates that just this side of Pekin, while going about thirty miles an hour, a cow which was on the track was struck by the cow-catcher of the locomotive and thrown upon her back, in which position she was shoved along two or three rods, and then thrown off an embankment of considerable height. She alighted on her feet and quietly walked off, limping, it is true, but showing no signs of being seriously hurt! When the train reached the next station, it was found that the cow-catcher and bumping-beam were smeared with blood and hair.

ATTACK OF ROWDIES UPON A SUNDAY SCHOOL PARTY.—The latest exploit of the rowdies of Baltimore was an attack upon a large German Sunday School, the members of which were enjoying a pic nic. Some ten or a dozen ruffians intruded into the grounds where the five hundred children were collected, and proceeded to create a disturbance by knocking down a musician, flourishing their knives and revolvers, and creating an alarm and panic among the children, who fled away, screaming.—The male teachers finally turned upon the assailants and drove them from the place. On the return of the School by Railroad, another attack was made, which was resisted by the police.

PERSONAL.—It is rumored that Mrs. Daniel E. Sickles has taken rooms for the season at the Clifton Springs Hotel. We hear the report from a source that ought to be well informed, however improbable it may seem that Mrs. S. should appear at a fashionable watering place this season. If a rumor should reach us that she had entered a convent, we should be quite as likely to credit it.

On the 21st of May, a blind man, named Michael Kennedy, eloped from Saratoga with Catherine McDonough. His wife lost trace of the "gay couple" until last Tuesday, when she found him in the West Troy Police Court, under arrest for intoxication. She immediately entered a complaint against Catherine for stealing certain articles of wearing apparel, and the "spree" was [illegible]. The Justice disposed of the case by sending Michael to the Alms House, and Catherine to the Penitentiary for six months.

A youth of 18, of Otis, Mass., lost his reason through grief, for the loss of his mother, and shot himself through the head. Both mother and son were buried in one grave.

The Tribune's Washington correspondent states that the Herald's story of the loss of one million dollars annually by counterfeit and renewed postage stamps, is unfounded. There is no information here to that effect.

The Supreme Court of California, in a case between a citizen of this State and a Chinese Benevolent Company, has decided that idol-worship is not forbidden by the Constitution. The Celestials will probably soon begin to erect pagodas on American soil.

The Wayne Democrat states that Mr. Willis, the Repair Contractor on Section 10 of the Erie Canal, has abandoned his job. The Section falls under the charge of Nelson Drake of Palmyra, who has been appointed Superintendent in place of Mr. Ford.

AN INCIDENT OF THE WAR.—The Wheeling Times says Jacob Maile, a young German, who has for two or three years been living in that city, has started for his native land to join the service of his country now in the field. Every male child born in the country is registered and required to give, in times of peace, three years' service, and in time of war, six years to the King. If he leaves the country before arriving at 21 years, he has to give security for his return when he attains his majority. Hence young Maile had to go back or his father would have to pay $800 as a forfeit to the Government.

A PROPHECY.—A gentleman by the name of Barton, a Spiritual medium, came into our office a day or two since, and after relating some very curious things which had been predicted by him in the past, and had already been fulfilled, we asked him if he could foretell who would be the next President of the United States. "Well," said he, after pausing a moment, "it will be Douglas or Breckinridge. I can see," said he, "that both of those gentlemen have a great work to do, and one or the other will be the next President of the United States.—*Buff. Rep.*

HORRIBLE.—We are informed that a brakeman on the Railroad, boarding at a hotel in this city, last Sunday night violated the person of a little girl, only nine or ten years old, whom he caught up as she was playing in the hall and carried to his room, where the outrage was committed. We are also informed that parties are trying to hush up the matter. We trust that our information is incorrect in regard to the whole transaction, though all we could learn about it is given above.—*Buffalo Commercial.*

The Washington correspondent of the Herald says the French government have secret agents now employed purchasing and contracting for ships and munitions of war of various kinds. Some heavy contracts have already been made with leading establishments engaged in the manufacture of such material, to be delivered at the earliest practical moment.

The present panic about the crops having in many places been destroyed by frost, is all humbug. The harvesting of one half of the entire wheat crop of the country had been concluded when the frost came. In Virginia, Tennessee, and all the Southern wheat regions, it has been safely housed, in a few localities the wheat may be injured—but the great area of grain producing land is far north of the line of the late "cold spell."

The St John's News learns from reliable authority that orders have been received from England to dispatch the regiments of the line in Canada to England, and to break up the military stations at Montreal and Toronto. Quebec and Kingston are to be the only garrisoned cities, and the headquarters of the Royal Canadian Rifles are to fixed at St John.

Mr Buchanan received the degree of L. L. D., at the recent commencement at Chapel Hill, North Carolina. A correspondent of the Express says that "Mr. Buchanan won great credit for his affability, especially among the young ladies.—Those Pennsylvania girls certainly did not know how to manage 'such a nice old gentleman.' Our Carolina girls would have married him by storm long ago. As it is, the habitues of the White House need not be surprised to see the bewitching Miss A. there this Winter, carrying on the interesting flirtation so felicitously begun here.

FATAL ACCIDENT.—On the Niagara Falls train yesterday morning, a child was run over at the Junction by the morning train and instantly killed. The child was fairly torn to pieces by the wheels of the cars, and fragments of the poor little thing were found clinging to the truck, and scattered over the track.—*Buf. Post.*

THE CROPS.—A gentleman who returned to this city from Norfolk county yesterday, informs us that the wheat there is in full ear, that is seemed as if it would be ready for harvesting in about three weeks, and that there are no signs yet of any insect plague.—*Hamilton Spectator.*

—In Newburyport, Abraham Norris, for biting the nose off a woman, has been sentenced to five years imprisonment in the State Prison.

NEWS SUMMARY

—Edwin Forrest at a meeting of the Grand Lodge of Masons, on Tuesday night, presented the Lodge with a check of $5000 being the amount of the verdict recently awarded him in the libel case against N. P. Willis. The sum goes towards the fund for the relief of widows and orphans of Free Masons.

—BIG STRAWBERRY.—The editor of the Petersburgh *Chronicle* has eaten a strawberry six inches in circumference, and weighing 14 pennyweights.—*Ex.*

—The cost of the Utah army up to the end of the second quarter was over $3,000,000, and add to this the estimate for the fiscal year, ending June 1, and the expense of that army for one year will range between seven and nine millions.

—Lewis Co., during the past year, has convicted one person of petit larceny, one for burglary and larceny, two for assault and battery, and one for violating the excise law. Not a very large number, in comparison with other counties.

—A correspondent's rumor has been got up to the effect that Napoleon has paid a flying, but mysterious, visit to the Pope with whom he is represented as having had a midnight conference.

—A newspaper is about to be started under Canadian auspices, at Selkirk settlement, on the Red River of the North. The press and types are now on their way thither. Mr. Laurie, late of the Owen Sound (C. W.) Times, is to be the editor. Selkirk is some 450 miles North of St. Paul, and has about 7,000 inhabitants.

—The Washington correspondent of the Philadelphia Press says that there remains but $80,000 to be paid towards Mount Vernon to complete the purchase, but that it will need three or four times that amount to properly fit up the grounds which is to be done under the most skillful horticulturist, gardener &c.

—Mrs. Swisshelm, in her letters to young ladies, says that "every country girl knows how to color red with madder." This (says a witty exchange) we believe to be an ethnological fact, as we have always noticed that, with all girls, the madder they get the redder they are.

—Old Jerome Bonaparte, we learn by private letter, said in Paris the other day with a desponding countenance. "The days of 1815 are come again." "No, no, your highness" cried his companion. "You are not old enough sir," said the Prince "to know anything about it. I lived thro' it all. I saw it all. I felt it all. I tell you, sir, we see again 1815."

—Gov. Morgan has offered a reward of $1,000 to any person who will give such information and conviction of the persons guilty of the murder of Deputy Sheriff Robert Morrison, at West Troy, on the night of the 27th of May.

—Five Germans were drowned in a pond at Dayton, Ohio on Friday last, while their wives and daughters were standing on the shore. They ventured out in a rickety boat, and the bottom gave way.

—A Spanish proverb says that the Jews ruin themselves at their passover, the Moors at their marriage, and the Christians at their law suits.

—An English inventor claims to have produced a gun discharging sixty shots per minute, with precision, with but little report, and without smoke, by electric decomposition of water.

—A descendant of General Howard, an English nobleman, and heir to property amounting to $50,000, is said to be in the House of Refuge Cincinnati. Measures are being taken for his release.

—The first day of the dog hunt, on Monday, in New York brought four hundred and fifty dogs to the pound where, with the exception of five, they were all drowned at sunset.

—Yesterday, a young man, from Oswego, was in Syracuse, in search of his sister, who had taken up the life of a prostitute. He found her in a low house, and declared he would shoot her should she again visit such a place. She wept bitterly, and said she would do as she pleased. Her parents are wealthy and respectable.

—Troubles accumulate about Watkins the colored orator. On Monday, a woman was held to bail in Rochester for attempting to produce abortion on a colored girl at his instigation. Only a few days previous he was arrested for bastardy.

—An Italian, examining diamonds in Bigelow Brothers' jewelry store, Boston, on Friday, put three into his mouth to test them, and was detected in trying to substitute for one of the most valuable, a paste imitation with which he had provided himself.

Latest News.
BY TELEGRAPH.

NEW-YORK, June 10.

The object of the meeting of the various Rail road Presidents in Philadelphia is to effect an arrangement whereby the mails can be transported between New-York and New Orleans in four days.—The plan is to take them by railroad to Charleston, thence by Steamer to Fernandina Florida, thence by railroad to Cedar Keys, and thence by steamer to New Orleans. The Florida Railroad will be completed next month. The whole distance is about 1,600 miles.

The representatives of the Pennsylvania Railroad, one of them President Thomson, had a meeting today at the St. Nicholas with Messrs. Corning and Richmond, of the N. Y. Central, and Mr. Barlow, at which, after an amicable discussion, a satisfactory basis of settlement was agreed upon, which, late in the day, was submitted to Mr. Moran for his assent. The schedule, it is understood, puts passenger fares back to the old rates, and the freight tariff is on the basis of 11 2 cents per cwt. for first class to Cincinnati.

It is understood that the agreement will be concurred in by the Baltimore & Ohio R. R., although that company had no representative present. Mr. Moran made no response to the proposition yesterday, but another meeting was to be held at 10 o'clock to-morrow, when it is thought he will agree to the proposed arrangement.

CINCINNATI, June 10.

A fire broke out at eight o'clock last evening in John Piper's tin shop, on Front street, and communicated to Mr. Jones' carpenter shop, and French and Wilson's feed Store, all of which were destroyed.

At 2 o'clock this morning, the saw mill of R. Swift's on East Front St., was almost destroyed by fire. Loss $10,000. Partially insured.

Evening Report.

ALBANY, June 10.

The Secretary of State has settled the controversy in regard to the two editions of the Session Laws of 1859, by recognizing that of W. C. Little & Co. as the official edition. He has certified to none but the official edition.

The Milwaukee Light Guard arrived today. An afternoon parade and drill took place. The visitors were received by the Washington Continental Company B, and entertained by a fine banquet at Congress Hall. The Mayor, Recorder and State officers were present. Gov. Rufus King is with the company. They left tonight on the boat for New-York.

AUGUSTA, Ga., June 10.

The steamer John Lawton exploded near Savannah last night, killing the captain, pilot, asst. engineer and John S. McMullin, a passenger, and a man named Gory F. Barnwell. A number was scalded and bruised, some of them, it is feared, fatally. The number killed and missing is eight. The steamer is a total loss.

LANCASTER, Pa., June 10.

Wise, the aeronaut, leaves here for St. Louis via Chicago, on Wednesday next with his monster balloon to prepare there for an ascension. He expects to land between Philadelphia and New-York. He will make an ascension here on Tuesday next.

BETHLEHEM, Pa., June 10.

A NEW
CONFECTIONERY.
PAUL ZALA

HAS NOW RE-FITTED IN A VERY splendid manner the SALOON next door west of Mrs. Denslow's Millinery Store, where he will prosecute the above business in all its branches.

He will keep a general assortment of Table and Fancy work, and execute to order such confectional ornamental designs as is demanded for parties of pleasure and Festivals generally.

He flatters himself that his mechanical ingenuity, and long experience in his business will enable him to give to all general satisfaction—having been to much expense in getting his Establishment in condition, and making his place attractive he earnestly solicits a liberal patronage from the town and country.

He will also keep ice cream [illegible]

DR. COGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues Inflammatory Diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, [illegible] by producing an equilibrium of the fluids in the body, the want of which is the sole cause of Inflammation!

NATURE Rejuvenated! The following Diseases, which the [illegible] fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the New Medical Salt, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Chest, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Croup, [illegible], Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGSWELL'S NEW MEDICAL SALT exerts, like [illegible], an extraordinary influence over the pulse and arteries, resulting in a gradual decline of inflammation as indicated by the pulse, which soon resumes its natural state, as the heat, pain and fever disappear.

DR. COGSWELL'S NEW MEDICAL SALT does not [illegible] to [illegible] nature [illegible], but equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt.*

Ask your neighbors about the *New Medical Salt.* [illegible] remember the *New Medical Salt.*

DR. COGSWELL'S NEW MEDICAL SALT is for sale in Batavia by H. W. Fellows and by all respectable Druggists wherever the Herald is [illegible]. As it is not a Patent [illegible], but the [illegible] of an eminent Physician, no one [illegible] to try the New Medical Salt. [illegible] all enclosed [illegible] directions and circulars.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—renders all remaining doubt as to the inestimable value of this Discovery—Consumption is no longer to be regarded as an incurable disease.

Many hundreds of physicians have already adopted this treatment with almost unparalleled success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever, but also
as Effectual a Preservative
as Vaccination in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile* signature.

No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

Price, $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 41 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S. on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

HERB DISPENSARY!

OFFICE 95 MAIN STREET,
(3d door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevailing to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhea, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from married excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

DR. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for 2c a stamp or Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

WIT AND HUMOR.

Keep away from Muslin.—Boys, if you don't want to fall in love, keep away from muslin. You can no more play with those girls without losing your hearts, than you can play with gamblers without losing your money. The heart-strings of a woman, like the tendrils of a vine, are always reaching out for something to cling to. The consequence is, that before you are going you are "gone," like a lot at an auction.

Charles Sumner still lives. A correspondent of the N. Y. Evening Post writes from Paris on the 26th of May: "Mr. Sumner has arrived from Italy. He says he is well, and his looks correspond. He is now enjoying the strength gathered from a long vacation, and he hopes to retain enough of it to stand the fatigues of the coming session of Congress. During his stay in Italy he was received with special honor by Cardinal Antonelli, Count Cavour, and other leading men of the Peninsula."

NEW PUBLICATIONS.

The Ladies' Hand Book of Fancy and Ornamental Work,

Comprising directions and patterns for working in Applique, Bead-work, Braiding, Canvass-work, Knitting, Netting, Tatting, Worsted-work, Quilting, Patch-work, &c., &c. Illustrated with 262 new Engravings. Compiled from the best authorities, by Miss Florence Hartly. Published by G. G. Evans, 439 Chestnut Street Philadelphia, 1859.

This is the most complete and thorough work of its kind. By writing in a simple, straight-forward style, and rejecting all irrelevant topics, the author has been enabled to embody in this volume an immense amount of useful and valuable information, and by far the most extensive collections of elegant patterns that has ever been brought together in one book. These patterns are engraved by the best artists and printed on excellent paper and beautiful style. Of course such a volume is the rage with the ladies, who can appreciate tasteful patterns for adorning their persons and their dwellings. They know the value of "Hartley's Ladies' Hand-Book," and are ordering it with a perfect rush. It is an indispensible book for all who would be perfect in ornamental work.

Besides the subjects named on the title-page, we observe that the volume embraces descriptions and engravings of all the various kinds of stitches and descriptions with illustrated patterns, and a multitude of other matters incidental to the subject. The number of useful patterns for working in this book is greater than can be obtained in any other way, by paying ten times the price asked for "Hartley's Ladies' Hand-Book." This valuable book for the Ladies will be sent by mail, for the low price of one dollar. Evans will mail a copy and a handsome present to all persons remitting one dollar for the book and twenty-one cents for postage.

A new Classified Catalogue of Books and Gifts, with inducements to Agents, will be sent free,on application. Address,

Steps Toward Heaven, or Religion in Common Life.

Written by T. S. Arthur, the well-known author, of whom it has been truly said, "That dying, he has not written a word he would wish to erase." His graphic pen never tires, and in this new volume we perceive that he is still successfully laboring to benefit while he pleases, and while he enchains with master hand the attention of men, to make them better. This is more decidedly religious than his other works, though it is not doctrinal nor sectarian. It is a work well calculated to do good, and is designed to show that the beauties and endearments of christianity are to be developed amid the stern realities of every-day life, "and not to be put aside at the tranquil close of Sabbath evening."

Published by G. G. Evans, 439 Chestnut Street, Philadelphia. Price $1 00. Evans will send a copy and a handsome present to any person remitting one dollar for the book, and twenty cents for postage.

Elopement from Palmyra.

From the Rochester Democrat of Saturday.

Yesterday forenoon a man named Jacob Weisner, who keeps a boarding house and saloon in Palmyra, came to the city in pursuit of his wife whom he suspected to have eloped in company with one Michael Lotter a gas fitter, residing in the same place. The assistance of the police was invoked, and after a search of some hours the missing wife and her male companion were found at the rooms of an acquaintance in Bennet's Block, corner of Buffalo and Washington streets. The culprits were arrested and taken to the Police office, where an examination was held, which resulted in a disclosure of the following facts:

Lotter, who has a wife and two children in Palmyra, has for a considerable time past been quite intimate in the family of Weisner and improved his opportunities so well that he appears to have supplanted his friendship in Mrs. Weisner's affections to a very great extent, and was permitted by the lady to squire her about in a very imprudent manner to say the least of it—taking her out riding and so on, without the knowledge of her husband. Some slight suspicion seems to have entered the mind of Weisner at times, but it does not appear that he took any very decided steps in the matter, and the *liason* went on without serious interruption. Mrs. Weisner has a sister in Walworth it seems, whose husband died not long since, and it is supposed that the circumstance has been used in a measure to cover up the designs of the guilty parties. A few days ago Mrs. Weisner left home, where she as well as her paramour has two children, for the purpose of visiting this sister in her affliction. On Thursday morning without notifying her husband of her intention, she left her sister's and took the stage for Macedon, where she met a train from the east on which Lotter was a passenger.—Together they came on to this city, and took a room at Lawrence's Hotel, where Lotter registered their name as man and wife. In the evening they visited the theatre in company, and after the performance returned to the hotel. They occupied the same apartment during the night and in the morning Lotter represented his companion as his wife in giving an order to the porter. After breakfast they went out to call on the family in Bennett's Block, where they were found by the husband, who was accompanied by officer Wagner.

At the Police office the guilty parties appeared to be perfectly composed. The woman, who is young and quite good looking, was remarkably cool, and met her husband's eye without flinching. She did not deny coming to the city with Lotter, but wanted it believed that she did so merely to pay a visit. As to the occupation of the same room by herself and Lotter during Thursday night, her story was that he slept on a lounge and she on the bed. Lotter was not at all communicative on the subject, but was very anxious not to be exposed in the papers. We are informed that he is quite a lady's man, and has been in two or three scrapes of a similar character before. He is even now under bonds to appear at Court in Wayne Co., for an affair in which a woman is the complainant. Weisner, the unlucky husband, felt very badly indeed. We should judge him to be a simple minded, inoffensive man by his looks, and such is the character given him by his acquaintances.

The Police Justice was at some loss how to dispose of the case, but finally determined to hold both the runaways as disorderly persons. Lotter found an acquaintance who became his bail, but the woman being without friends,seemed likely enough at one time to get a taste of Penitentiary discipline, unless her husband would consent to take her back. This he was more than half disposed to do all the time, but she showed no such signs of repentance as would justify the most liberal minded man in taking such a course. She finally appealed to her paramour, and he induced the same friend who had signed his bond to interfere in her behalf.

After matters had progressed thus far, the indulgent husband concluded that since his wife would not make any overtures for a reconciliation, he would do so. He therefore signed her bail bond himself as one of the sureties. That matter being settled, he directed her to go to the depot and await his coming, which she did, and the two returned to Palmyra together on the next train.

The parties left on the 8:40 train but came near being left behind. Somehow they waited till the train was under way before they started to get on board, and just as the last car was going out of the east end of the depot, they hove in sight. They were obliged to run for it, and if ever petticoats fluttered, that was the occasion. The woman ran like a deer, the husband leading her a trifle, and finally both managed to catch up, greatly to the astonishment of the by-standers, all of whom supposed the last chance gone, when the happy pair started on the race.

—Ripe peaches have made their appearance in Savannah. They were raised in Burke county, Georgia.

The largest and oldest apple tree in Essex county, Mass., was lately blown down in a gale of wind. It measured over sixteen feet around its trunk, some three feet from the ground, and was sixty feet from one extreme to the other. It was supposed to be from two to three hundred years old.

The *Charevari* of Vienna published a caricature representing Louis Napoleon as the Barber Figaro, shaving Austria. Prussia on one side holds the towel, and England the soap. Russia who has just been shaved clean, stands behind, and pointing to England and Prussia, says; "Help him gentlemen! Your turn will come."

WASHINGTON, June 11—The Secretary of the Navy has named the recently purchased steamers respectively Mystic, Wyandott, Sumpter, Mohawk, Anacostia and Crusader.

The Mystic and Sumpter are to be added to the African Squadron, and the others to the Gulf.

Lieut. Maffit will command the Crusader and Lt. Craven one of the other Gulf vessels.

NEW ORLEANS, June 11

The steamship Jasper is below, from Minititlan the 8th inst, with California advices of May 20th, per mail steamer John L. Stevens, which left San Francisco on the 20th for Panama, with $1,800,000 in treasure and 400 passengers.

Business was good at San Francisco,and the accounts from the mines were favorable there being plenty of water.

Coffee had advanced six cents per pound.

The news from Fraser River is discouraging.

ST. LOUIS, June 11.

The Santa Fe mail of the 23d reached Independence this morning.

A mass meeting of the democracy of Santa Fe endorsed the administration, and also the delegate to Congress, Mr. Otero.

Great preparations were making to receive Hon. J. S. Phillips of Missouri, who has been invited by the Legislature to visit New Mexico.

The Stockton mail had arrived at Santa Fe regularly since the establishment of a military post at the crossing of the Colorado.

There had been no rain this year in New Mexico.

NEW YORK, June 11

The Railroad difficulty has been settled. Under the new arrangement passenger fare to Chicago goes up to $23, and freight on cattle 75c.

Felix Sanches has been sentenced to execution July 22d for the murder of his wife.

The new United States sloop-of-war, returned to-day from a trial trip. The ship works admirably under steam and sail.

NEWS SUMMARY

—There was born, in Lawrence, Mass., last week, a child with a well-developed body, perfect in all its proportions, and weighing ten pounds, but with a remarkable malformation, the head being formed in every particular precisely like the head of a cat. It lived but a moment after birth.

—Mr. Roberts, the great English Billiard player sent an agent over by the Asia, to make a match between Phelan and himself. The amount,if the match is made will be for $5,000 or $10,000 a side, and it will come off in New York next fall.

—A correspondent says Mr. Greeley was welcomed on his arrival at Lawrence, K. T., by several hundred men, every one of whom had a copy of the Tribune fastened on his hat like a soldier's plume.

—A Turin correspondent of the Nord says that the correspondent of the London Times had attempted to enter the French camp, and then went and established himself at Turin, from whence he wrote letters that occasioned much hilarity on their return, among those who knew the country and its geography.

—The Wolf River Pinery will furnish the Mississippi valley with 10,000,000 feet of pine lumber this season. One million goes from Weyauwega says the Herald.

—W. D. McDaniel, clerk of Stanislaus county, was shot by P. B. Nagler, one of the Board of Supervisors, in a difficulty about certain records. The wound is not mortal.

It is said that the late King of Naples has left a good deal of treasure behind him some portion of which is securely stowed away in Dutch ducats in the vaults of some of the royal palaces, either at Caserta or elsewhere, while the far larger portion is invested in the English stocks and securities, and in Russian, Danish or Dutch bonds.

Latest News.

BY TELEGRAPH.

LATER FROM EUROPE.

Arrival of the North Briton.

QUEBEC, June 11

The steamship North Briton passed Farther Point this morning with Liverpool dates to the 1st inst.

The news from the seat of war is unimportant.

An official Sardinian bulletin says that Sardinians passed the Sesia in the face of the Austrians, who were fortified at Palestrio, after a severe conflict, and carried the place, making many prisoners. The Sardinians were under the command of King Victor Emanuel.

Garibaldi was making some bold movements in Lombardy. On the 27th, after a furious fight of three hours, he entered Como. The Austrians retreated to Camerlata, where the combat was renewed, and the Austrians again retreated towards Milan. All the steamers on the lake were in the hands of the patriots.

It was reported, via Berne, that on the 20th Garibaldi was defeated by a superior force, and withdrew into the Canton Tessin, but this lacks confirmation, and Turin dispatches give the impression that he was making further progress.

The Emperor was about to remove his head quarters from Alessandria, and it was reported he would go to Casale.

The Austrians in considerable force had occupied Bobbia.

It was reported in Paris that as soon as the French entered Milan, England Prussia will make most strenuous efforts to end the war.

A fight had occurred at Florence between some English man-of-war's men and American sailors on account of the latter wearing tri-colored rosettes, but no details had been received.

The Emperor of Austria quitted Vienna on the 29th and arrived at Verona on the 31st of May, accompanied by his brother, the Arch Duke Charles, Gen. Hess and others.

LONDON June 1.

The Times announces that the address in reply to the Royal speech will be moved by the Hon. Algeron Egerton, M. P. from South Lancaster, and will be seconded by Sir James Elphinstone, M. P. Portsmouth.

Dr. Hibby, the medical Officer of Health for the city of London, reports that the Thames, within the last few days, notwithstanding the early period of the year, exhibited unmistakable symptoms of offensiveness, and more pungently than last summer.

Miss Florence Nightingale is in a precarious state of health, but the Advertiser contradicts the report of her having entered a convent.

The improvement established in the foreign exchanges, at a moment when gold is flowing in so freely from Russia, Turkey and the United States, independently of the remittances again becoming due from Australia, operated on the favorable side.

There were no bullion operations at the bank to-day.

The Daily Herald.

A case occurred last week out West, which proves that the "ruling passion" is as strong in a railroad smash-up, as in death itself. An excursion train went from Chicago to Cincinnati over the new route. One of the fair excursionists, a very pretty young Illinois wife, purchased a "love of a bonnet" at Cincinnati. On the the return trip, some fiends placed rails across the track, and the train was thrown off, the Engineer very badly injured, and several of the passengers smashed bruised. One of those taken out considerably crushed and almost stunned, was the young lady alluded to. On recovering her senses the *second* question she asked was "*Is my husband safe?*"—the *first* having been, "WHERE IS MY BONNET?"

DR. COGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGSWELL'S NEW MEDICAL SALT instead of its being a remedy for all ills, has entitled ever but one. It has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, wherever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the [illegible] loss of blood and strength, it effectually cures Inflammatory diseases, (in others) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of Inflammation!

NOTICE TO INVALIDS!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Bilious Fever, Headache, rush of blood to Head and Heart, Piles, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGSWELL'S NEW MEDICAL SALT exerts, like the factor motion, an extraordinary influence over the veins and arteries, resulting in a gradual decline of inflammation as indicated by the pulse, which soon resumes it natural state, as the heat, pain and fever disappear.

DR. COGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt*.

Ask your neighbors about the *New Medical Salt*. If sick, try: if not sick, remember the *New Medical Salt*.

DR. COGSWELL'S NEW MEDICAL SALT is for sale in Batavia by H. T. Fellows and by every [illegible] Druggist wherever the Herald [illegible]

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Now is the time to use the Great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *Wonderful*. They absolutely cure

- LIVER COMPLAINT,
- JAUNDICE,
- COSTIVENESS,
- HEADACHE,
- PILES,
- WEAKNESS,
- DYSPEPSIA,
- INDIGESTION,
- HUMORS,
- HEARTBURN,
- FLATULENCY,
- LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered stomach, or bad Blood.

If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly the best in the World. Try it once and you will be sure to do so again. The price is cheap—only 38 cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Roots and Herbs and drive them away. Sold by all Medicine Dealers every where.

MEDICINES.

Similia Similibus Curantur!

DO NOT make a Drug Shop of your Stomach any longer, but come and be convinced of the sublime realities of

Homœopathy,

by being relieved of all your bodily sufferings and ills.

J. F. BAKER, M. D.,

Would respectfully inform his friends and the public generally that he still continues the practice of HOMŒOPATHY at his old office, No. 2

Cobble Stone Block, up Stairs, Main Street, Batavia, where he can be consulted at all times when not Professionally engaged.

☞ Saturday of each week is set aside by him for the accommodation of patients at his office. Consultation Free. v-tf-225

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA.

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of *pulmonary disease* by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—remove all remaining doubt as to the inestimable value of this Discovery—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever, but also
as Effectual a Preservative
as Vaccination is Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"Out of twenty-two cases *in the third or last stage*, treated at my Dispensary, during the past year, *eight have completely recovered, eight have died*, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's *Genuine Preparation*

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile signature.*

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No Iron or other drug should be combined with them, or taken at the same time.

☞ Price, $2.00, or three bottles for $5.00, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single boxes in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 49 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

J. WINCHESTER,

DR. JOHNSON'S
HERB DISPENSARY!

OFFICE 96 MAIN STREET,
(Old stand, Up Stairs, Buffalo, N. Y.)
A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

The only real Hair Restorative

MCOMBER'S

HAIR RESTORATIVE AND

INVIGORATOR.

IS WARRANTED to grow hair on bald heads, stop its falling out, increase the growth of moustaches and whiskers to any desired extent; to cure dandruff and all diseases of the Scalp, even "scaled heads." It has a reputation of merit unknown to any other article, and those who buy a bottle are sure to purchase the second and third, as it never fails to give satisfaction, and to do all that it is claimed it will do. For TOILET USE it is also unsurpassed.

When the evidence of this kind is within the reach of every one, why will any one doubt? Get a circular and read the certificates of well known citizens, then buy a bottle for fifty cents, or a dollar bottle. It never has failed.

Each bottle has the following words impressed on its sides:—*McComber's Hair Restorative and Invigorator, Buffalo, N. Y.*

A NEW LAGER BIER SALOON!

BY PETER WORTH,

No. 2 Cary Block, Batavia.

"Pete" would inform his friends around
He's took the Stand—on Gardner's ground—
In No. 2 of Cary's Block,
Where Lager's sold, of purest stock!
He has re-modled this Saloon,
And made it now a Splendid Room.
It's a place of fine resort
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease retire,
And "Pete" will them, with Bier inspire—
Or sell them all a dinner, sure,
Or *Lunch,* that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though *often high* he looks, and *tall,*
He will respect, to Patrons pay,
Or treat them all in friendly way!
With sparkling Lager by your side,
This world of sin, you would deride
And in your lowest soul must say,
Bright Lager puts in healthy way!

WIT AND HUMOR.

You win a woman by appealing to her impulse—you win a man by appealing to his interests. It is all the difference between a compliment and a bribe.

A violent partisan editor complains bitterly that his opponents are scurrilous. As well might Satan, when the good angels as described by Milton, were hurling the hills and mountains upon him and his confederates, have cried out indignantly, "You are throwing dirt, gentlemen."

The idle levy a very heavy tax upon the industrious, when by frivolous visitations they rob them of their time. Such persons beg their daily happiness from door to door, as beggars their daily bread, and like them, sometimes meet with a rebuff.

DR. LIGHTHILL,

Oculist and Aurist

ROCHESTER, N. Y., (late of Syracuse, N. Y.,) can be consulted at the

Eagle Hotel, Batavia, May 23d.

Here he will remain 6 days, and will give his personal attention to the treatment of the various Diseases of the

EYE AND EAR

and Catarrhal affections of the

THROAT AND HEAD,

As this disease frequently gives rise to Deafness Dr. L. performs operations for Cataract, Cross Eyes, &c.

The following gentlemen are kindly permitted their names to be used as references, respecting Dr. L.'s qualifications, reputation, mode of treatment and success:

R. W. Pease, M. D., H. D. Didama, M. D., A. Mercer, M. D., D. A. Moore, M. D., S. G. Powers, M. D., James Fuller, M. D., C. F. Williston, Mayor of Syracuse; Geo. J. Gardner, Esq., Cashier of the Onondaga Bank; Judge G. R. Middleton, and A. R. Tinsky, Esq., T. B. Fitch, Esq., A. Benedict, Esq., President of the Onondaga Bank, all of Syracuse.

[From the Utica Morning Herald, Jan. 15, 1859.]

Benjamin F. Walker, of Madison, is the subject of a remarkable cure of disease of the eye. He had been seriously afflicted for six months or more, and the remedies applied benefited him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 16, 1857.]

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of cross-eyes upon the eyes of Miss Julia G. Hoskins, of Truxton, Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with respect by those who are momentarily liable to the injury, as it is with joy by those who have experienced salutary blessings. Be of Good Cheer.

We have had a plentiful rain—warm, and refreshing to the earth—which will be apt to stimulate and renew her energies in yielding to the husbandman what portion of the pinched and frost bitten products are not entirely killed. The grass already begins to revive, and the young corn, that has escaped the freezing fingers of Jack Frost, looks like giving promise of growing to maturity. Potatoes generally, will come to—though many fields are being planted over again; and so also of the corn.

The *fruit*, much of it, is cut off—but not so very generally as was first apprehended. There are quite a number of localities where the frost forgot to lay his deathly fingers on the young apples and infant cherries. Though in all conscience he was busy enough; and silently but surely laid his icy hands, with destroying intent, upon many of the "first born" heritage of the year, which were gladdening the hearts of many of our rural citizens, and filling their expectations with hopes and promises of a plenty of garden sauce, to deck their tables and make healthful and voluptuous their daily repasts. "But all is well that ends well," and this improvident dispensation, is only to rouse us all to *fresh and renewed* efforts, with our disappointments, as an experience guide, teaching us that earthly hopes will perish—and that "there is nothing sure but Heaven."

On Saturday evening a lady named Davis, while partaking of some refreshments in a saloon in William street, New York, in company with her husband, was shot in the back of her neck by a ballet from an air gun, fired from an upper story of the Globe Hotel by a man named Wilson, who was firing for amusement at the gas lamp in the street. The ball was successfully extracted from the neck of the lady, but so near was she to being killed by the ballet, that had it entered the neck half an inch farther to the right, death would have instantly occurred.

WOMAN LOST.—We learn from the Daily Niagara Falls Gazette, that a Miss Elesta M. Johnson went on to Goat Island on the 8th inst, but has not returned. Diligent search has been made, but no such person can be found. Another mystery.

The Lyons, Wayne county, Press states that Michael Okliffe, a lad aged fourteen years, died in that place on Sunday last, from the immediate effects of bathing.—Some few days since he stepped upon the point of a nail which penetrated his foot, and while bathing shortly after was attacked with cramp which terminated in lockjaw.

GERMAN SYMPATHY FOR AUSTRIA.—The Evening Post represents that German merchants of that city are in possession of private advices which render it certain that Prussia and all Germany will immediately join Austria in her struggle with France. These advices, it is asserted, are from persons in the confidence of the government, and are regarded as trustworthy. Perhaps it is largely due their traditional hatred of the Bonaparte, that the sympathy of the Germans in behalf of Austria seems to be general and cordial. As an instance, one of them, a young and wealthy merchant, has already made arrangements to go by the next steamer, and enlist in the service. He says his family were massacred by Napoleon I., and he will have his revenge upon his successor.

Mr. Dempster declined to pay a $10 license in Detroit the other day, for the privilege of giving a concert, and therefore gave a free concert, which was largely attended. A deputy marshal ordered Mr. Dempster to desist, when the audience sided with the vocalist, and the officer left the Hall. Some excitement was occasioned, and during the confusion the gentlemen in the room rushed up and bought an unlimited amount of Mr. Dempster's books, probably by way of remunerating him and showing their zeal in the cause. By unanimous request he then went on and finished the concert.

CONCORD, N. H., June 13.

A destructive fire occurred in this city last night, totally consuming the old Congregational Church, Norris' bakery and five dwelling houses. Several other buildings were damaged, including the Masonic Temple.

The church organ and bell were valued at $11,000. No insurance. Norris' loss $5,000—mostly insured. Total loss $20,000.

BOSTON, June 18

Six dwellings, occupied by Irish and colored people, and four stables on North Grove street, were destroyed by fire last night. They were all small buildings.

A fire in Lowell yesterday destroyed the steam saw mill of A. L. Brooks, on Western avenue, and the building adjoining owned by Horace Fletcher. Loss $10,000.

The frigate Constellation, at the Navy Yard, was put in commission to-day and her crew taken on board. Lieut. McDonough is acting commander.

The Emperor of Russia has presented to Mrs. Hudson, a diamond brooch valued at $5000, in acknowledgment of the courtesies extended by Capt. Hudson when in command of the Niagara to some Russian officials while he was laying the Atlantic cable.

ST. JOHNS, June 13

The exact amount of injury to the Edinburg, is yet unknown. A diving apparatus was only available to-day, and the report cannot be fully depended upon.—The ship cannot be repaired here and labor is scarce. The progress of the work will be slow.

The cargo will all be discharged, except that in the after hole, which will lighten the ship to twelve feet draught, when it is thought the injury can easily be got at. The repairs will probably take from three weeks to a month.

NEW YORK, June 13.

The Washington correspondent of the Commercial hints that Hon. John Slidell has been appointed Minister to France.

A Frog in the Stomach three Years.

A son of Mr. Charles Davis, residing in Gould's Court, leading from Montgomery, near Light street, has caused the family great uneasiness for three years past, in consequence of his being subject at times, for hours together, to spasms and terrible fits. Physicians were consulted, but all their investigations failed to reveal the causes that produced the malady. Yesterday afternoon, about three o'clock, when entering the house, the lad was seized with the symptoms of his malady, and in a fit of retching, threw up upon the floor a live frog, about two inches in length.—The frog hopped gaily about the floor until secured by the family. Instant relief was experienced by the lad. His name is William Davis, and he is about ten years of age. He has no recollection of the time the frog was taken into the stomach, but his father thinks it was swallowed with his drink, about three years ago, when he was first afflicted with fits.—*Baltimore Sun.*

A French Magistrate, noted for his love of the pleasure of the table, speaking one day to a friend, said: "We have just been eating a superb turkey; it was excellent, stuffed to the neck, tender delicate, and of a high flavor. We left only the bones." "How many of you were there?" said his friend. "Two," replied the Magistrate, "the turkey and myself."

The Buffalo Commercial says that on Thursday last a little boy, four years old, named Mahoney, while playing on the bank of the river, below White's pleasure grounds at the Falls, fell over a nearly perpendicular, height of one hundred feet. Strange to say his severe injury was a broken shoulder. The little fellow was able to get up and walk.

A case occurred last week out West which proves that the "ruling passion" is as strong in a railroad smash-up, as in death itself. An excursion train went from Chicago to Cincinnati and was thrown off the track. Among those taken from the wreck, was a young lady badly injured. On recovering her senses the second question she asked was "Is my husband safe?"—the first having been, "Where is my bonnet?"

A Boston paper states that of nine hundred and fifty-three clergymen attending the late anniversaries in that city, but seventy-three wore the professional badge, the white cravat. The growth of hair on the faces of many of the divines, was another sign that they are willing to stand as men among men, and to find their appropriate distinctions in something of more consequence than peculiarities of costume.

Under the late assessment for taxation in the State of Indiana, the valuations have risen from about $400,000,000 to between 6 and 700,000,000. This, under the present rates of taxation, will produce a large revenue. The assessments prior to this last were made seven years ago.—The increase has been much greater than was anticipated.

NEWS SUMMARY

—A bill is now before the New Hampshire Legislature to prohibit the change of text books in the public schools of that State, oftener than once in five years.

—In the columns of the N. Y. Evening Post is an advertisement from the Clerk of the Police Commissioners, offering stolen and uncalled for property at auction. Among other things is a horse, which was taken from the pocket of a man.

—A complimentary dinner was recently given by the Liverpool pilots to John F. Clark, a New York pilot, who took the Africa out on her last trip, and in consequence of a strong northeast gale could not be landed, but was obliged to proceed to England.

—The people of St. Joseph, Mo., having built two *theatres*, are now thinking of building a *church!*

—The editor of a leading German paper at St. Louis has gone to Europe, and the seat of the war, to report the campaign for his paper, which supports the side of Italy and France.

—The Emperor of the French, says a correspondent of the Salut Public of Lyons, has given King Victor Emanuel proof of his high esteem by confiding to his command a corps of the French army, which will form the left wing, the Emperor himself commanding the right.

—A man was found lying in one of the public streets in Norwalk, one day last week, with tombstones at his head and feet. It was discovered that he was dead drunk, and some wag had erected those monuments to the memory of departed manliness.

—The Charleston Courier learns that Alonzo J. White, Esq., has negotiated a loan for the State of Florida, of $200,000 on very favorable terms. This, the Courier remarks, will enable this growing young State to pay her "Seminole War" debt.

—Frances D. Murray, who had been recently divorced from a worthless husband, hung herself in Detroit Wednesday.

—The Legislature of Rhode Island adjourned on Monday last, after session of four days, and the passage of four public acts.

—A white woman, living with a negro some four miles north of Phenix, Fulton Co., has, within a few weeks back, been delivered of four children at one birth.

—Either the ladies of California are better behaved than their sisters elsewhere or they are more leniently treated by the authorities. Out of 615 convicts in the Prison, only two are women.

—Mons. Blondin has walked from the shore to Suspension Bridge at Niagara on one of the wires that stay the structure, and actually suspended himself by his feet. He proposes to cross the river on a tight rope. Mons. is a foolish acrobat.

—The Senate of Missouri met last Friday to try Albert Jackson, Judge of the Fifteenth Judicial Circuit, on articles of impeachment preferred against him by the other branch of the Legislature. This is the first case of the kind in the history of the State of Missouri.

—The Executive Committee of the American party in Georgia have issued an address, in which they declare the party without a national existence, and the uselessness of longer trying to maintain such an organization.

—One of the Boston Knight Templars, who went to Virginia, bought a negro man for $800 for a free colored woman in Boston, who furnished the money and is to marry him.

THE Washington correspondent of the New York Daily Times writes thus:—"Lord and Lady Napier are now in London. His lordship writes that the impression in London is that Germany will soon be involved in the war, and with Germany, all Europe. The German Government are opposed to interference, but the excitement among the people is so wild that it cannot be checked. An army will march to the Rhine, he thinks, at an early day. This necessarily involves England in the fight.

On the 2d inst, a severe thunder storm passed over Pottsville, Pa., and a vivid flash of lightning, accompanied with a crashing peal of thunder, so shocked Mrs. George W. Potts, who was standing in the doorway, that she fell back and died.

HORSE RAILROAD IN ST. LOUIS.—It is but only a few days since the project of a horse railroad was started in St. Louis, and, already, they have three chartered companies at work. One company running over five miles of the principal streets, are manufacturing the rails in that city, and will have sixteen cars running by the 4th of July. As yet not a tie has been laid. This will be doing things up with a rush. The cross ties and sills will be ready in ten days, as, also the blocks for paving. Five hundred men are to be put on the work in different sections and the road built in fifteen days!!

Mrs. McCulloch, a lady of Port Dalhousie, C. W., committed suicide one night last week after quarreling with her husband. She refused to sleep in the same bed with him, but insisted on going to bed with an unmarried daughter who lived with them in the house. During the night she got out of bed, entered her husband's bedroom, and said a few angry words to him. She then left his bed-room, as he supposed, to return to her daughter's apartment; but early in the morning she was found a corpse on the floor of another room, with a small vial at her side, which apparently contained some poisonous substance.

"A RARE CHANCE," INDEED.—There is a splendid "opening" over in Canada just now for some enterprising "States" men who have no scruples of conscience against using borrowed capital at as low a rate of interest as six per cent. The Hamilton Banner says the Town Council of Brantford, at a meeting on Monday, came to the unanimous but extraordinary conclusion, that they will "loan three companies who will start three good Factories in Brantford, the sum of £60,000 for 21 years—the said company to pay 6 per cent. per annum interest, and two per cent. sinking fund."

A young lady in Philadelphia recently stepped on a rusty nail, which ran through her shoe into her foot. The inflammation and pain were very great, and lock-jaw was apprehended. A friend recommended the application of a beet, pounded fine, to the wound. It was done and the effect was very beneficial. Soon the inflammation began to subside, and by keeping on the crushed beet and changing it for a fresh one as its virtue seemed to become impaired, a speedy cure was effected.

The New York Tribune says a new filibuster force has been organized for the conquest of "No. 6," which means the Island of Cuba. The new force is known as the K. G. C., "Knight of the Golden Circle." There are two legions—10,000 men in each. Head quarters, Baltimore. Each volunteer is to have 6,000 acres of land. For further particulars call at head quarters and see knight in command.

MRS. M. M. DENSLOW,

Having returned from New-York with her usual supply of New Millinery Goods, is now ready to offer to the Public an assortment that will vie with the very best *self-imported* Stock ever before brought into a Batavia market.— True Mrs. D. *did not go to Paris herself,* but buys her supply at Importing Houses in New York, who have been long in the Trade and who sell to their old customers, who pay, at very reasonable rates, and Mrs. D. being one of that class of customers, is enabled to give her patrons the full benefit of a superb Stock of Goods, purchased of those Houses, where Fashionable Goods are to be had at very small profits. The Public are invited to call and see, after seeking to be supplied elsewhere, among *Importers,* and she feels they will not be inclined to go empty away.— The cash trade is greatly desired—though responsible persons can have credit from four to six months.

She is fully prepared to execute all orders in this line of trade, and to prosecute with dispatch, and with all of the neatness, elegance and fashion, that her reputation has heretofore secured, any work trusted to her care. Her millinery prices are also made to suit the times and interests of the buyer. 2b5-4w.

Arrival of the Star of the West.

NEW YORK, June 12.

The steamer Star of the West arrived this morning from Aspinwall June 3d, via Key West. She brings upwards of $1,500,000 in treasure. The main points of her news have been anticipated.

The case in which the San Francisco Bulletin was charged with the publication of obscene libel, for publishing Mrs. Sickles' confession, has been decided against that journal.

The gold mines of Vancouver's were yielding so largely, that parties were leaving Victoria for that locality.

Dates from Valparaiso are of May 19th. A battle was fought on the 29th of April between government troops under Gen. Vidaurri and the troops under Gallo.— The latter were defeated and fled. Loss 2,000 killed.

This battle ended the revolution. The government had opened the northern ports and business was reviving.

Dates from Lima are to May 12th. A slight revolution at Arequipa. No particulars. Guyaquil was blockaded, but it was announced that the blockade would soon be raised.

It is rumored that a Bolivian force had invaded Peruvian territory and that the President had asked for a loan of $5,000,000 and an army of 30,000 when Congress refused.

ST. LOUIS, June 13.

The California Overland Mail to the 20th of May arrived last night. The proprietors of the Evening Bulletin were fined $107 each for publishing Mrs. Sickles' confession.

A party of Lieut. Beal's men had been attacked at Utah Springs by the Mohave Indians.

The Governor of Texas had called for the U. S. troops to proceed against the marauders, and three companies of Dragoons were on the way to Forts Washington and Belknap.

Major Van Horn had an encounter with the Apache Indians and killed 50 to 60, and took 30 prisoners.

A dispatch from Independence says a party of Soldiers had surprised eighty Indians near Pawnee Rock, and killed forty-five including twenty women.

Advices say that Douglas county elected seven Republican delegates to the Constitutional Convention. Bourbon and Lykins counties each five Republicans and one Democrat. Atchison and Riley have each small republican majorities.

A Back-handed Confession.—Little Lizzie, five years old, is a very good little thing; but one day she was provoked by an older sister's refusal to surrender a rocking chair to her and bit her, for which she was punished. Shortly afterwards she came to her father and looking up in his face, said:

"Pa I am sorry."

"Sorry for what my dear?" asked her parent, softened by the appeal of humility as he took it.

"Sorry Emma wouldn't give me the rocking chair," replied the child.

Papa's countenance took a sudden change at the "soft" appeal.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory disease, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS! ! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt* as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT enters, like the faster matter, an extraordinary influence over the veins and arteries, resulting in a gradual decline of inflammation as indicated by the pulse, which soon resumes its natural state, as the heat, pain and fever disappear.

DR. COGGSWELL'S NEW MEDICAL SALT dissipates what it claims to do—no more no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt.*

Ask your neighbors about the New Medical Salt. If sick, try; if not sick, remember the New Medical Salt.

DR. COGGSWELL'S New Medical Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is [illegible]. As it is not a Patent Medicine, but the [illegible] of an eminent Physician, we are [illegible] to try the New Medical Salt. [illegible] testimonials and directions see circular.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla.

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter, and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the [illegible] value of this Discovery.—Consumption is no longer to be regarded as an incurable disease.

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. [illegible]

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption as Quinine is in Intermittent Fever, but also as Effectual a Preservative as Vaccination in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"Out of twenty-two cases in the *third or last stage,* treated at my Dispensary, during the past year, *eight have completely recovered,* eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile* signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution, sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 49 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postages. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

DR. JOHNSON'S

HERB DISPENSARY!

OFFICE 38 MAIN STREET,

(2d door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies, with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter; and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for $1 a series of Health Rules and perfect chart of cure, which will be to them a true polar star through life.

Address DR. JOHNSON,

GREAT REDUCTION OF PRICES!

$10.000

WORTH OF

BOOTS & SHOES

To be sold in the next 2 months, at 20 per cent. less than Manufacturer's Prices.

THOMAS YATES,

Who, for the last 20 years has held forth in this Village, and has never yet been outdone, either in prices or quality, would respectfully announce to the inhabitants of Batavia and surrounding country, that he is still in the field, opposite G. E. Worthington & Co.'s Hardware Store and second door from the corner of Jackson-st, where may be found an extensive assortment of

BOOTS, SHOES, RUBBERS & GAITERS,

of the latest styles and most approved workmanship, which will be sold from 10 to 40 per cent. less than the usual prices. This is one of the best opportunities to obtain GREAT BARGAINS, ever offered to the people of Western New York, as it is desirable that the stock should be closed off by the first of December next.

Ladies' Black Fox Gaiters only 4s worth 7s; Ladie's Black Fox Fine Gaiters only 5s, worth 8s; Ladie's Black Fox very fine Gaiters, only 7s worth 10s; Ladie's Black Fox Heel Gaiters only 8s, worth 11s; Ladie's Black Fox Congress Gaiters only 10s, worth 13s; Ladie's Kid Congress Gaiters, thick and thin soles, less than cost to manufacture.

Boys' and Youth's Patent Leather, Calf, Kip and Double Sole Boots, Brogans and Gaiters, at low figures. Gent's Brogans 6s; Mens' Stoga Boots $1.50.

MEN'S KIP AND THICK

DOUBLE SOLE BOOTS,

Custom Made, worth $3,25. I shall sell for 18s and 20s. Children's Shoes, a large assortment, Fancy and Plain, Kid, Calf and Morocco, from 15 cents up. Ladie's Kid Buskins and Slippers, 2s, 4s, 5s and 6s.

My Stock is too numerous to mention. I have on hand more than all the Shoe Dealers in this Village combined, and can spare enough to fill all their small shops, and still have a large supply left. All will be sold at less than Rochester City Prices. You are all invited to call and examine the Goods, whether wishing to buy or not. All those who come hereafter without money, can have them "without money and without price." Goods warranted as represented.

WIT AND HUMOR.

When the celebrated Dunning, afterwards Lord Ashburton, was "stating law" to a jury in court, interrupted him by saying, "If that be law, I'll go home and burn my books."—"My Lord," replied Dunning, "you had better go home and read them."

Some men say, "If I choose to drink it is my own business." *If a man chooses to drink it is his own damnation, but it is somebody else's business!* It is the business of every man who has a son or a daughter; every man has an interest in that venture of society, in which the drinking man is the swindling partner.

Riches are indispensable to growth in society. Poverty and civilization never go together.

The long sought for principle of making Leather perfectly Water-proof, without injuring it, has at

LAST BEEN DISCOVERED!!!

A. BROWER'S

PATENT WATER-PROOF COMPOSITION, for Boots, Shoes, Boots, Harness, and Leather of every description: warranted to make them perfectly Water-proof single application. If the directions are strictly adhered to. At the same time, it softens the leather, makes it pliable, and thereby prevents its cracking; and it will polish with blacking even better than before the application. It is also a superior article for wagon tops.

☞ Patented July 27th, 1858.

and Catarrhal affections of the

THROAT AND HEAD,

Artificial Human Eyes[illegible] Dr. L. performs operations for Cataract, Cross Eyes, &c.

The following gentlemen are kindly permitted their names to be used as references, respecting Dr. L.'s qualifications, reputation, mode of treatment and success:

[illegible]

[From the Utica Evening Herald, Jan. 14, 1859.]

Benjamin F. Walker, of Madison, is the subject of a remarkable cure of disease of the eye. He had been seriously afflicted for six months or more, and the remedies applied benefited him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the inestimable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 14, 1858.]

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of cross-eyes upon the eyes of Miss Julia C. [illegible], of Truxton Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with respect by those who are unfortunately liable to the injury, as it is watched by those who have experienced such blessings. 1tf

The Health of the Town.

We are really inclined with the idea that Batavia is one of the healthiest towns in Western New York. We hear of but few cases of illness; and those are either the result of intemperance, high living or unnecessary exposure to the inclemency of the weather. And another sign is, the Dr.'s of the town keep the horses, and are only now and then seen riding about, and that at a very moderate pace; and another sign is, they as a class are usually seen in their slips at Church on Sundays, and seen very quietly all through service and sermon time; whereas had they much practice their slips must often be vacant, at least of themselves. We do not bring this argument, by any means, to have the Doctors stay at home when they can fill their places at church, just as well as not but to show our readers clearly that our town is healthy!

Sad Accident.

A serious accident occurred at the Buffalo Depot yesterday, to the Switchman on the N. Y. Central Road, on changing off the cars upon another track, the rope employed in the operation was extended or drawn across one of his arms by having caught upon one of the cars, in such a manner as to mutilate his arm in a very shocking manner; in which case amputation was indispensable. His name is Williams.

Fourth of July.

The adjourned meeting for celebrating the Fourth of July, met at the Eagle Hotel last evening. The report of the Finance Committee was read, from which it appears that One Hundred and Fifty Dollars has been subscribed by our citizens for the Celebration. Messrs Ira Backus and Hollis McCormick, were added to the Committee to solicit subscriptions, and the meeting adjourned to meet at the Eagle Hotel on Thursday evening next at 8 o'clock P. M.

GEO. D. KENYON, Sec'y pro. tem.

A niece of Prof. Bugden, of Lima N. Y. an inmate of his house, named Williams, became insane, as is supposed, on Sunday night, 12th inst., and wandered off, no one knows where and has not since been heard of.

The schools are adjourned, and hundreds of people are out in search of the lost one but so far without effect. The unfortunate girl went away in a calico dress, striped woollen shawl, cloth gaiters, and without bonnet; has light hair and eye-brows, is aged about twenty years, and may mistake the name of Frank often as she has done before when similarly afflicted.

Safe!—We published yesterday a paragraph stating upon the authority of the Niagara Falls Gazette that a Miss Johnson was lost on Goat Island last week, and could not be found. In common with most of the papers in this vicinity we were sold, as will be seen by the following explanation of the affair given by the Buffalo Republic: "She went to Goat Island with a young man by the name of Ferdinand. He returned to the Cataract Hotel without Miss Johnson, but in her place was accompanied by a lady, named Ferdinand. Miss J. has been lost and is now discoverable as Mrs. F. They were married on Goat Island."

Cut This Out!—Cut this out and Keep It.—A terrible case of hydrophobia in Cincinnati is reported, on good authority, to have been cured by administering a medicine known to botanic physicians as the Third Preparation, which is composed of capsicum and the tinctures of lobelia and myrrh—making it very strong of the [illegible], and giving sufficient doses to produce a thorough emesis. The patient threw from his stomach a large quantity of frothy mucus, and from that moment the spasms ceased.

NEWS SUMMARY

—During last Thursday night some malicious person cut down 250 peach trees in the orchard belonging to Mr. Harvey, constable in Symmes township, Ohio, and destroyed 250 graftings.

—Dr. Carter was shot dead Tuesday at Albany, Mo., by Mr. Evans, who had detected him in criminal relations with his wife. Mrs. Evans confessed her guilt.

—The Harrisburg Telegraph says a child seven years old, and weighing two hundred and fifty pounds, passed up the Cumberland Valley Railroad, the other day accompanied by his father and mother.

—The number of coffins taken up and burned, in the New York Potter's Field, is 27,000. What an idea of intensified misery the fact suggests. But it has passed.

—W. H. Burroughs who died on the 9th inst. was a partner in the house of Stewart & Co., New York. He was a Dublin boy. On the books of the concern was a credit to his account of $700,000. He was a bachelor; he died in the Catholic faith.

—We perceive by our Exchanges that in all the principal cities and towns thro'-out the Union, more than ordinary preparations are being made for celebrating our National Anniversary.

—Frank Helen Darrow, an adopted daughter of Policeman Darrow, aged 10, died very suddenly, in a school, in Syracuse, yesterday. Information was brought to the school, of the sudden death of a friend, and as soon as she heard it she was seized with a suffocating sensation, and died in the school.

—At the death of the Grand Duke John, whose decease has just occurred, and who is the reputed father of the young Emperor of Austria, the gossips again revive the old current belief, to the no small annoyance of the Arch Duchess Sophia and her friends, that the real father of Francis Joseph was the Duc de Reichstadt, whose remains are entombed at Vienna.

—The Davenport (Iowa) Democrat says that an official letter from Kossuth to a Hungarian exile at that place has been received, requesting him to take immediate steps towards embarking for Hungary.—From the tenor of the letter it would appear that Kossuth was engaged in raising an army.

—An Australian, from the number of murders committed in that southern region, thinks that Melbourne must be the place which Shakspeare spoke of when he says "that bourne from which no traveler returns."

—A young lady on being asked if she intended wearing that finger ring to church, said she did'nt intend to wear anything else. If she kept her word, she must have had a cold time of it.

R. A. Agard, in Hartford, Conn., was handling a bottle of beer when the cork flew out, striking him with great force in the eye. He is confined to his bed and it is feared that the brain is injured.

—The N. Y. Tribune reviews all its intelligence respecting the late frost, and concludes that great damage has been done, but that the loss is greater in labor than in grain. Where the wheat is killed other crops will be put in. Unless corn is very forward, it was not entirely killed.

—Mrs. Betts has grit. She disappeared from Naugatuck, Ct., some time since and the general opinion was that she had eloped with a fellow named Tomlinson.—She has returned, but declines explaining the cause of her absence. She says that she left home because she wanted to, and came back because she wanted to.

—Jacob White was at work in a field at Harrisons Corners, Grant Co., Wis., when, seeing a storm coming on, he started for his house, but before reaching it, he was felled to the earth, perfectly insensible. On his regaining sensibility, it was found that all his extremities were paralyzed. The Witness says she has partly recovered, but his case is considered rather hopeless.

—The Supreme Court of Michigan had affirmed the decision of an inferior court, that a woman has a perfect right to control in all respects all property acquired by her before or after marriage, that belongs to her, independent of her husband.

—A couple of officers from Buffalo have gone to Canada in search of a man named Hill, who was employed as a brakeman on the Central Road who is alleged have committed a rape upon a little girl 10 years old, at the Wadsworth House, Buffalo. Hill had a wife and child residing in Syracuse. It is said that the crime was committed last Sunday.

We are told of cannon that have deadly effect at five miles, and that a great number of light field-pieces are superseded by a few guns carrying heavy shot. The round ball has passed away before the conical one; and the names of Minie, Jacob, Colt, Sharp and Armstrong stand as shining lights amid the din of cannon and the smoke of powder.

Ice in Canada.—The St. Catharines Journal of Saturday, says that water in the Canal at Thorold, was frozen half an inch in thickness by the frost of the previous evening.

An Austrian merchantman is lying at Boston, not daring to proceed on the course to which he had been ordered, viz: St. Johns, N. B., to load a cargo for England. This explains what the French War steamer is waiting for, off Halifax, which has been two or three times seen and mistaken for an expected arrival from Europe.

Col. Loring has obtained permission from the Secretary of War, to repair to Europe to assist in the Italian struggle.—He will sail for Havre in the steamer of the 25th inst. The Colonel is down in the Army Register as head of the Regiment of Mounted Rifles which is distributed throughout the Department of New Mexico. He entered the service as Captain in 1846. He is not a graduate of West Point.

A man named William Pattison, who was discharged from custody by the Police Magistrate at Windsor, C. W., on Friday, for want of evidence to convict him of a charge of larceny from the person of a female passenger at the Great Western depot, the lady having gone on her way, was treated to a coat of tar on the same evening. He went into a saloon in the evening, when he was set upon by a number of persons who were present, and thoroughly debauched with tar. There being no feathers at hand the ornamental part of the operation was dispensed with. He was then taken to the wharf and placed in a small boat, an oarsman provided for him, and safely conducted to the American side of the river.

The day after the whirlwind in Morgan county, Ill., a half sheet of a letter written by a lady, Mrs. Route, to her husband, was found on the farm of Henry Morgan, in Richmond, Precinct, thirty-five miles from the place where it started—having been blown thither by the storm, which killed Mrs. Route, and demolished her house.

The Railroad difficulty has been settled. Under the new arrangement the passenger fare to Chicago goes up to $22 and freight on cattle to 75 cents.—Felix Sanchez has been sentenced to execution on the 22d of July, for the murder of his wife's father.

Important Item from the Seat of Fashion.—Tight plain bodies, with a round waist and a belt, have supplanted the basque. The basque is now only admitted with a breakfast toilette! The next important news is that at Paris tight sleeves and short dresses (short in front) have come into fashion, and to be admitted into the best society, a lady must cut short her front hair, and wear it frizzled. Bandeaux have been frowned down.

The French admit firing 25,000,000 cartridges in the Crimea, and yet they did not hit 25,000 men, or one in a thousand. This shows that the risk of being shot in a battle is but little greater than the chances of being killed by lightning. It also shows that "sharp shooting" in Europe does not mean what it does in Kentucky. At the battle of New Orleans nearly every bullet fired by the Americans cost John Bull a life. In the same time it took the English to wound 8 men the Americans killed 1,200 men.

This shows that "sharp shooting" is confined to this country and is but little better known in European armies than the American bowie knife.

A Portland (Oregon) correspondent writes that during a late visit to Corvallis he witnessed three marriages where white men were the grooms and Indian squaws the brides. The whites had enticed the squaws away from the Indian Reservation, and the Indian Agent sent some soldiers to bring the runaways back. The white lovers protested against being deprived of their sweethearts (!), but were told that the squaws must go back to the reservation, unless they should be married. The whites thereupon submitted themselves to the matrimonial noose, and the squaws were raised to the dignity of white men's wives.

Latest News.

BY TELEGRAPH.

Arrival of the Steamship Europa.

MORE FIGHTING!!

SACKVILLE, N. B., June 14.

The R. M. Steamship Europa, from Liverpool at 10:30 A. M. Saturday the 4th fired her first gun at Halifax at 20 minutes past 11 o'clock last night, and reached her dock at 1 o'clock.

Advices from the seat of war are quite important.

The Austrians had twice endeavored to take Palestro, but were on each occasion repulsed, after a sanguinary encounter.

The Sardinians were at one time outflanked on the right, when the Zouaves came to the rescue.

The King of Sardinia commanded his troops in person and exhibited great gallantry.

The Sardinian reports say that they took 1000 prisoners.

The Austrian version had not been received.

The Austrians had retreated from Robbio, and a special telegram to the London Daily News says they were in full retreat across the Ticino.

The French head-quarters were at Vercelli.

Gen. Garibaldi was driven into the mountains by the Austrian General, Urban, who retook Varese, but it was telegraphed via Turin, that Garibaldi had returned, surprised the Austrians, retaken Varese and re-entered Como.

Gen. Niel had occupied Novara.

Insurrection in Lombardy was spreading.

TURIN, May 31.

Fresh victory gained by our troops at 7 this morning. 25,000 Austrians endeavored to retake Palestro, the King commanding the 4th division in person, and Gen. Cialdini at head quarters of the regiment.

The Zouaves resisted the attack for a considerable time, and then having successfully assumed the offensive pursued the enemy, taking 1000 prisoners; captivating 8 cannons, 5 by the Zouaves. 500 Austrians were drowned in a canal during the fight.

Another fight at Confienza, in the presence of Somaline, in which the enemy were repulsed by division 40, after two hours' conflict.

Last night the picket of the enemy endeavored to pass the Po at Cervesina, but were repulsed by the inhabitants.

The Austrians evacuated Verese, in the province of Roffio.

On Tuesday the Austrians attacked the Sardinian Van Guard at [illegible] Calenvo. The fight lasted two hours. Our troops pursued the enemy across the Ticino.

A numerous Austrian corps had appeared before Varese.

Gen. Garibaldi ordered the National Guard not to resist, and fell back on Lago Maggiore.

An attack was attempted by our troops against Laveno on the Lake, but without result.

The details of the battle at Palestro, says that the Sardinians, one time outflanked by the Austrians, who threatened to bridge the boats across the Sesia, which Canrobert was to effect the junction, with the King. At this juncture the Zouaves came to the rescue and turned the tide. The Zouaves lost one officer two killed and 209 wounded, including ten officers.

DR. COGSWELL'S NEW MEDICAL SALT.

For Inflammatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, but one sin, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT.—Its peculiar excellence is, that without the serious loss of blood and strength, it effectually cures inflammatory diseases, [illegible] by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS!—The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as readily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Dyspepsia, Bronchitis, Pleurisy, Asthma, Cough, Dropsy, Piles, Venereal Diseases, Rheumatism, Gout, Erysipelas, and all itching and other cutaneous eruptions.

DR. COGSWELL'S NEW MEDICAL SALT enters into the fluids easily, an extraordinary influence over the veins and arteries, resulting in a gradual decline of inflammation as indicated by the pulse, which soon resumes its natural state as the heat, pain and fever disappear.

DR. COGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more—no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt.*

MYRON HALL.

Batavia, April 1, 1859.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the inestimable value of this Discovery—Consumption is no longer to be regarded as an incurable malady.

Many hundreds of physicians have already adopted this treatment with almost immediate success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever, but also
as Effectual a Preservative
as Vaccination in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"Out of twenty-two cases in the third or last stage treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *facsimile signature.*

No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

Price, $1.00, or three bottles for $2.00, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 49 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, the time is precious in so fatal a malady as consumption. Address,

DR. JOHNSON'S
HERB DISPENSARY!

OFFICE 98 MAIN STREET,

(Old corner, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST EFFECTUAL

MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption,

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus or consumptive wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs; great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eyesight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body, pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of old school Doctors.

DR. JOHNSON is now engaged in treating this class of disease, [illegible] with the most gratifying success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills will receive for $1 a course of Health Rules and perfect chart of cure, which will be to them a true polar-star through life.

A NEW LAGER BIER SALOON!

BY PETER WORTH,

No. 2 Cary Block, Batavia.

"Pete" would inform his friends around
He's took the Stand—on Gardner's ground—
In No. 2 of Cary's Block,
Where Lager's sold, of purest stock!
He has re-modeled this Saloon,
And made it now a Splendid Room.
It is a place of fine resort
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease retire;
And "Pete" will treat, with Bier inspire—
Or sell them all a dinner, sure,
Or Lunch, that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often high he looks and tall,
He will respect, to Patrons pay,
Or treat them all in friendly way!
With sparkling Lager by your side,
This world of sin, you would divide
And in your honest soul must say,
Bright Lager goes in healthy way!

WIT AND HUMOR.

"*Oh Dear*," exclaimed Henrietta, throwing herself into the rocking chair, "I'll never go to that post-office again to be looked out of countenance by all those men on the corner. It's so provoking. What can I do, Sarah Jane, to stop those awful men staring me in the face?" "Do as I do," replied Sarah Jane, with a sly look, "show your ankle."

An Ohio editor says: "What can be more captivating than to see a beautiful woman, say about four feet eleven inches high, eleven feet four inches in diameter, and thirty-four feet in circumference, passing along the aisle just as divine worship commences!"

What Shall be Done?

Let every man and woman, every child, every animal and every quadruped sustain their own dignity—and give to Nature its own fund of labor without stint—without [illegible], and without infringing upon the natural rights of either. "Let every dog have his day," nor allow infringement to take possession of the [illegible], while [illegible] rules the world. God, in Nature, [illegible] equality and unabridged [illegible]. [illegible] are one, and the world of humanity a unit; and the practice of [illegible] one to build up another is hostile to good breeding and the genius of our Republic. If Corporate bodies have power let them exercise it with reason, with that discretion that becomes our institutions, and in harmony with our advanced notions of Freedom—avoiding all advantage in the way of oppression, and unjust [illegible].

In executing our village improvements it seems laudable to facilitate them as fast as possible; but it also seems extremely unjust to coerce the poor beyond their limited means to make outlays which the authorities are now exacting. Some are too poor to meet the demands upon them [illegible], undoubtedly, [illegible] might arise, and be leveled against the "Powers that be," when justice was only the intent. And others have property that the improvements will greatly enhance the expense to the owner, to adjust to the grading of the streets and sidewalks, which is perhaps [illegible] source of [illegible] grievance; but in these cases the owners have plenty of the "one thing needful," and therefore do not suffer the same amount of [illegible] with those who have nothing but their hands to procure the fee the Corporation may demand of them. In all things we go for reason and equity, and hope justice will prevail, which we have no doubt will be meted out to all—through the wisdom and efficiency of our Corporation officials.

Mons. Blondin will Walk Across the Niagara River at the Falls.

We learn that Mons. B. will walk over the foaming cataract in a few days. The Daily Gazette of Tuesday says:—"We learn that Messrs. [illegible] & [illegible] have ordered the necessary amount of [illegible]—about one thousand feet of cable, and twenty-five thousand feet of smaller guy rope—which will probably be here from New York, by Wednesday or Thursday of this week. It is to be manufactured expressly for this purpose. The cable will be put across about half way between the Falls and Suspension Bridge—near "White's Pleasure Grounds." It will have guys extending to the banks in various places to keep it steady. The day has not yet been fixed for the performance of this wonderful feat, but will be announced as soon as determined. The [illegible] will eclipse anything ever performed in this region, except perhaps the famous leap of Sam Patch, and will no doubt attract an immense number of people. We should, in justice to our citizens, state that this performance is not of their [illegible], but is of Mons. Blondin's own getting-up. People abroad who are disposed to regard it as a shrewd business dodge of our business men, should bear this in mind."

An extra from the office of the [illegible], Keokuk Co., Iowa. Democrat, of the 9th inst, gives the following particulars of the [illegible] of all the criminals in the County Jail, by a mob of disguised [illegible]. It was an extraordinary proceeding.

Sheriff Long yesterday received information that a body of men contemplated breaking into the jail and disposing of the prisoners, who were quite numerous, and [illegible] here at an expense of from $10 to $15 per month. This has no doubt in the [illegible] of the outbreak. The Sheriff immediately went over, but found nothing to excite serious apprehension on his part, and, as he returned to his own home, but not being satisfied, returned.

At about 10 o'clock at night a force of about 100 men, disguised, appeared before the jail and demanded the keys of the jailer Miller. To this request Mr. Miller promptly refused. Sledge hammers were brought into requisition against the door—it yielded and the jail was entered. The prisoners, we learn, all made good their escape [illegible] Carpenter, guilty of arson. He it is said was spirited away, and his fate remains a mystery.

Some Billiards.

Frank Parker, a young man residing in Janesville, Wis., has made the largest run which has ever been accomplished by any player. The Janesville Daily Times says: "It was made while playing an ordinary full game, and the first seventy-two points were made, 'round the table,' after which the two red balls and the cue ball being about eighteen inches from the cushion, he played them so skillfully and carefully as to make one thousand seven hundred and sixteen consecutive caroms, making in all 5,170 points! The billiards were fairly made and the time occupied was about two hours, when Frank being fatigued, and doubtless somewhat nervous and excited, accidentally 'froze' them and thus was compelled to quit."

New York, June 15.

The barque Orion sailed 21st Jan. from this city and arrived at Shark's Point, Congo River, April 10th. Here she was seized by an English steamer, the Triton, and subsequently transferred to Commander Burton, of the Marion, who on examination became convinced that she was a slave trader. He accordingly put a prize crew on board and ordered her home. A few days before she sailed the barques Arden and Emma, [illegible] were also seized by commander Burton, and will probably be sent home.

The barque Orion, which seized on Congo River arrived here last evening. On the 23th May Capt. John E. Hanna, of the Orion, died, as is said, of a broken heart.

St. Louis, June 15

The Overland mail of the 23d has arrived.

The primary election in San Francisco for choosing delegates to the Democratic State Convention resulted in the choice of 13 of 15 who are understood to be in favor of John Nugent for Governor.

Fourteen convicts had escaped from the State prison by cutting a series of holes 15 by 22 inches in size through the partition walls and cells which are 2½ feet thick, and thence through the centre wall 3 feet thick.

New York, June 15.

The concluding exercises of the examination occurred at West Point yesterday.

A class of 22 graduated.

The Hon. John Kerr, N. C., delivered the address.

Gen. Scott was present but took no active part in the exercises.

Harrisburg, Pa., June 15

A train of the C. and P. road ran into a train of the Pittsburg, Fort Wayne and Chicago road, while standing here this afternoon taking in wood, injuring the following persons:

P. Kaufman, of Lancaster, and Mrs. T. B. McKean, seriously; Josiah Stewart, of Circleville, Pa.; C. E. Warner of Salem; Frank Grebe, of Sheboygan; W. A. Benton, of Clinton; T. H. D. Stake and Edward D. Porter, of Boston; D. M. Cook of Mansfield, slightly. A number of others also received bruises whose names are not known.

A strange attempt at suicide occurred in Philadelphia on Saturday night. A man named William Morrey filled a tobacco pipe with gunpowder and thrust a lighted cigar into it. The loss of a thumb was the only injury he experienced from this attempt. He then plunged the blade of a pocket knife into his heart, but still with no very serious effects. Determined not to be foiled, he procured a chisel, and inflicted a severe wound on his arm; but notwithstanding all these attempts, he was not dangerously wounded.

Mr. John Coats and wife, aged respectively 71 and 70 years, who are now living in good health, about two miles west of Winchester, Ind., had a family festival at their home on the 12th ult., at which were their children and grand children, numbering in all 144. All that were present were seated around one table, and from the account given by the Randolph Journal, those who were absent and deceased, if added to the group present, would have made the total number 171.

—The State Temperance League was in session at Syracuse on Tuesday, but the attendance was meagre. The subject of nominating a State Ticket was urged, but finally given up.

NEWS SUMMARY

—London papers of the 29th May, announce the arrival of Gov. Seward at Fenton's Hotel, London.

—Bishop Potter, of Pennsylvania, with his family, arrived at New York in the Fulton. The same vessel also brought back brave Scott General Totten of the United States army.

—We regret to state that Gov. Morgan met with quite a painful accident yesterday. In passing down State street he stepped upon a rough spot in the side walk and severely sprained his right ankle. This morning the limb was much swollen and considerably inflamed, rendering it very difficult for him to walk.—*Albany Advertiser, June 11th.*

—The Boston Post says Barnum's creditors don't appear to think that great failure of his was entirely total, so to speak, when they refused 75 per cent. on [illegible] paper to the amount of 20,000; or else they have pretty strong confidence in his future prospects. Perhaps Barnum's "failure" was the greatest "humbug" he ever perpetrated.

—The Hamilton Times in noticing the agitation now going on in the Upper Province for a dissolution of the Union says: "Abundant evidence reaches us from every quarter of the Province of Canada West that the agitation for a dissolution of the Union and for fundamental changes in the Constitution will be sustained by a very large and influential body of men."

—The admirers of Smith O'Brien in Cincinnati have procured a magnificent black walnut chair at a cost of $400 to present to that gentleman. The workmanship is said to be the perfection of mechanical ingenuity, and the trappings are of the most costly material. The ornaments consist of Irish and American emblems interwoven.

—Mr. John Hibbard, a planter, of Napoleon, Arkansas, while crossing the river at that place, in a skiff with one of his negroes, fell overboard, and, although a very good swimmer, was drowned through the awkwardness of the negro, who ran the skiff over him several times.

—Another Railroad War in Prospect.—It is intimated that the Lake Shore road from Buffalo to Cleveland, has reduced fare from five to four dollars.—This produces ill-feeling with some rival routes, and another war between the railroads may be the result.

—It is said that there are several young Americans in Paris—mere boys—who spend $100 per day in fast living.

—A fellow living near Evansville, Ind., killed himself a few days since, by drinking forty-five glasses of lager-beer in quick succession.

What a fool!

—Two conductors on New York city railroads have been arrested for passing bogus ten cent pieces. The manufacturer was also taken into custody. The proof against them is strong.

—A man who registered himself as Wm H Warren, Buffalo, cut his throat at Chicago Hotel on Saturday night. He was about 40 years of age.

Speculation in Railroad Tickets.—In Cleveland the Railroads sold but 10 low fare tickets. In Chicago the Herald says: "The rise in the price of Railroad tickets has caused quite a fluttering in the community. The beauty of the joke is that the speculators have got the biggest share in their hands, and agents have but few wherewith to supply travellers.—Speculators refuse to yield except at present rates and Agents are somewhat troubled."

With the prevailing fashion of wearing dresses in his mind, a newspaper writer says if Austria should be too much for France, and the invaders should reach Paris, the patriotic and despairing ladies of the empire, refusing to survive its fall, would not feel it necessary "to bare their bosoms to the weapons of the enemy," the milliners having saved them the trouble.

Latest News.
BY TELEGRAPH.

Further by the Europa.

HALIFAX, June 13.

At the fight at Palestro, the Sardinians are believed to have been terribly cut up, but their loss is not mentioned.

An Austrian general is reported to be killed.

Napoleon subsequently visited the battle field and congratulated the Sardinians on the result.

On the 2d it was telegraphed from Turin that Austrians had withdrawn to the eastern bank of the Po, and had abandoned Torre Beretti and the neighboring country.

In regard to the Zouaves, they say they performed wonders.

One dispatch says although unsupported and in front of the Austrian battery of eight guns, the Zouaves crossed a canal, ascended the heights—which were very steep—and charged the Austrians with bayonet. More than 400 Austrians were thrown into the canal and six pieces of cannon were taken by the Zouaves.

The loss of the French was inconsiderable.

The Emperor has conferred the Grand Cross of the Legion of Honor on General Forey.

The French troops were concentrating at Casale, Valenza and Vercelli.

The Austrian accounts of the Palestro affair were not published.

Gen. Neil entered Novara on the 1st, after a slight encounter with Austrian outposts, who shortly fled. The Emperor arrived there the same evening amid the acclamations of the people.

The Austrians endeavored to cross the Po at Bassignana, eight miles N. E. of Alessandria, but the inhabitants opposed them firing upon and destroying an Austrian barque.

The Valtelline was in insurrection, and the town of Sondrio, 24 miles N. E. of Bergamo, had proclaimed for Victor Emmanuel.

The Duke of Parma had arrived in Switzerland with a numerous suite.

The French officers of the Engineers had arrived at Intra, and were collecting vessels to cross the Lago Maggiore with 200 men.

FRANCE

The Moniteur publishes the official notification of the blockade of Venice.

The recall of the French soldiers on leave of absence had added 120,000 veteran soldiers to the French army.

Flat-bottomed boats were being constructed in France for the navigation of the Po, Ticino and other rivers.

The French Engineers are said to have recommended the fortification of Civita Vecchia.

The Paris Debats had a letter from Rome stating that Piedmont has recognized the neutrality of the Pontifical States on certain conditions.

TURKEY

The garrison of Belgrade has been reinforced, and it was reported that it would be trebeled.

It was also said that the Porte was about to send a strong naval force to the Adriatic.

The Herze Govina was reported to be in open revolt, and the latest intelligence says the whole of European Turkey was bordering on revolution.

GERMANY

The feeling in some of the States of Germany against the French is so strong, that a French manufacturer at Hesse Cassel, employing 700 workmen, has been compelled to quit the place on account of the excitement.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the inestimable value of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, *as speedily as possible*, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption as Quinine is in Intermittent Fever, but also as Effectual a Preservative as Vaccination in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"*Out of twenty-two cases in the third or last stage,* treated at my Dispensary, during the past year, *eight have completely recovered,* eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful [illegible] of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile signature.*

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to Physicians and the trade. The Dry Salts supplied to the profession. Single bottles [illegible] sent by mail when [illegible] Sold wholesale and retail at the Sole General Depot in the U. S., 49 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S. on receipt of twelve cents in stamps to cover [illegible] postage. Also, circulars and all requisite information without charge. Let no one [illegible] time is precious in so fatal a malady [illegible]. Address,

DR. JOHNSON'S

HERB DISPENSARY!

OFFICE 98 MAIN STREET,
(Front, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs; great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

DR. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills will receive for $1 a series of Health Rules, and perfect chart of cure, which will be to them a free pass through life.

"Pete" would inform his friends around
He's took the Stand—on Gardner's ground—
In No. 2 of Cary's Block,
Where Lager's sold, of purest stock!
He has re-modled this Saloon,
And made it now a Splendid Room.
It is a place of fine resort
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease retire,
And "Pete" will them, with Bier inspire—
Or sell them all a dinner, sure,
Or *Lunch*, that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often *high* he looks, and *tall*,
He will respect, to Patrons pay,
Or treat them all in friendly way!
With sparkling Lager by your side,
This world of sin, you would deride
And in your inmost soul must say,
Bright Lager puts in healthy way!

DR. LIGHTHILL,

As this disease frequently gives rise to Deafness Dr. L. performs operations for Cataract, Cross Eyes, &c.

The following gentlemen are kindly permitted their names to be used as reference, respecting Dr. L.'s qualification, reputation, mode of treatment and success:

[illegible] W. W. Pease, M. D., H. D. Didama, M. D., [illegible] Mercer, M. D., [illegible], E. C. Powers, M. D., James Tullye, M. D., C. P. Williston, Mayor of Syracuse; Hon. [illegible], Esq., [illegible] Esq., [illegible] Esq., President of the Onondaga Bank, all of Syracuse.

[From the Utica Morning Herald, Jan. 12, 1858.]

Benjamin N. Walker, of Madison, is the subject of a remarkable cure of disease of the eye. He had been seriously afflicted for six months or more, and the remedies applied benefitted almost not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 16, 1858.]

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of cross-eyes upon the eyes of Miss Julia C. Haskins, of Truxton, Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with respect by those who are momentarily liable to its injury, as it is with joy by those who have experienced salutary blessings. Trade and Traffic.

The business times of our place are idle in the comparison with other more prosperous times: and begin to show symptoms of disparagment, which characterizes all dull times. The late frost has thrown a pallor over the business prospects, and trade seems vacillating "between hay and frost," and it is pretty hard telling whether the busy world will keep on, or freeze up!

The farmer and the mechanic, have become suddenly stingy,and very cautious in their outlays, for decorating their bodies and adorning their persons; which is sensibly felt by our merchants, who are abundantly supplied for a continuous trade which upon the dawn of the warm season, they were stimulated to "lay in for." Our place is abundantly supplied with the merchandise of all kinds commonly sold in a rich county like our own, but the buyers, for a few days past, have been unusually scarce; and we should judge the receipts for goods sold had fallen off amazingly since the *frost*.

But all must eat and drink. All must have clothes to wear, and the merchants hopes must measurably be realized, ere the summer trade shall close, and the Fall trade sets in. The shambles of the place will necessarily be sustained, while the mechanic alone must be the greatest sufferer after all, and his toils go unrewarded, while the merchant and the farmer, can speculate upon his necessities.

But we shall hope for a full and ample provision for all, believing that He, who holds the destiny of the world "will not suffer the Righteous to go unrewarded,nor allow of "His seed begging bread."

The Atlas & Argus says that a man named McNutt, who for some months past has taught the public school on Green Island, was arrested in his bed on Saturday morning last, on a warrant held by a U. S. Deputy Marshal, charging him with counterfeiting coin. He was taken to Oneida county for examination. McNutt declares his innocence, and says his arrest is part of a conspiracy to discharge him. He writes to his family that he will be discharged soon. He has stood fair on the Island, and was a member of the Methodist Church. The school is discontinued for the present. He was arraigned day before yesterday, but the examination was postponed for a day or two, to enable certain witnesses to attend. He is a man about 35 years of age, and is altogether a good looking and intelligent appearing man. He has a wife and three children.

SAD CASE.—When Dan Rice's Circus was in this city last week, at one of the exhibitions, a boy named Greene was struck on the head with a club by an employee of the Circus, stationed outside the tent to prevent boys from creeping under the canvas. The next day the employee was brought into the Police Court, where the matter was settled by the man paying $5. It was not thought at that time that the injury was fatal, though the wound presented a bad appearance. It was near the temple and much swollen. The boy lingered along until yesterday morning, when he died.

We heard of his death, and were about to publish the facts of the case, when the Police requested a suspension, fearing that the person striking the blow would make his escape. The Circus was to exhibit to-day in Springfield, and the Chief of Police left in the early train with a requisition for the arrest of the man. He is probably in custody by this time.

P. S.—A despatch from Chief Police Johnson received in this city, states that the man was arrested to-day at 12 M. at Springfield, Mass. His name is Osborn.—*Alb. States.*

A negro man named Ned, over 60 years old, the sexton of the Cemetery at Fredericksburg, Va., has been sentenced to be hung there on the 5th of August, for violating the person of a white child aged nine and a colored child aged seven.—It will be the first execution that has taken place in Fredericksburgh for fifty years.

WASHINGTON, June 16.—The Levant, Wyoming and Lancaster, which are to compromise part of the Pacific squadron, will visit Chili, in view of our unsettled affairs with that country and the recent outrages on our citizens. It is known that instructions have already been forwarded to our Minister there, to demand reparation for the wrongs committed.

There is probability that the national force in the Mediterranean will be increased.

The Navy Department has received information of the death of Lieut. Duer, in Florida.

The Navy department is advised that, as no apprehensions were felt at Tampico touching our interest, the Saratoga left there for Vera Cruz on the 1st inst.

The views of the Administration as to the rights of naturalized citizens who may return to Europe, were yesterday promulgated by Gen. Cass in a letter from the State Department. The Secretary states that this government will not interfere in cases were individuals voluntarily return to countries to which they owe military services at the period of their departure for the United States.

The State Department has received advices from our Minister at Chili, giving all the facts relative to the seizure of the schooner Townsend Jones. The Administration has sent instructions to our Minister to demand reparation for the revocation of the exequatur of the American Consul at Valparaso, and a man of-war has also been ordered to that port.

NEW YORK, June 16.—By the arrival of the ship Parana at this port, we have papers from Buenos Ayres to April 29th.

War had not yet been commenced between Urquiza and Buenos Ayres, and the probabilities were that actual hostilities would be postponed for a while. Urquiza's appeals for assistance to Lopez of Paraguay, and Perreira of Montevideo had been unsuccessful. The government and people of Buenos Ayres appeared convinced that there would be no actual war for the present.

The season was too far advanced and winter was approaching. The Pampas were without grass for horses, and an army could not subsist on supplies from the provinces. The statement of Captain Norgrave, of the Ann Elizabeth, sent last evening, undoubtedly wrong. The firing was probably caused by the military exercises of the National Guards, who, we learn from the Tribune of April 29th, were to have a gala day that time. There were no Paraguayan forces anywhere near Buenos Ayres.

The Board of Education last evening passed by a vote of 25 to 16, the by-law to compel the reading of the Bible in all the public schools of the city.

The jury in the case of Henry Glass, tried as a party to the Elm street murder, rendered last evening a verdict of manslaughter in the 3d degree.

MILLEDGEVILLE, Ga., June 17.—The Democratic State Convention yesterday re-nominated Gov. Brown, by acclamation. The also adopted resolutions reaffirming the Cincinnati Platform expressing confidence in the ability and patriotism of President Buchanan, and an approval of the principles of his inaugural and annual messages on the subject of Slavery.

ST. CATHARINES, C. W., June 16.—The gates of lock number twenty-five, near Thorold, Welland Canal, were carried away by the schooner Quebec, this evening. The rush of water caused the embankment to give way and the country around was submerged to the depth of several feet. Great damage was done to the grain fields. The water is now shut off, and the water is gradually subsiding. A large force of men will commence to repair the break as soon as the water subsides sufficiently. It was expected to be repaired within a week.

The Chicago *Herald*, heretofore one of most rabid, red-mouthed opponents of genuine Democratic principles, in an article in relation to the next Presidency, says:—

"We stand pledged to sustain the platform and the nominees of the Charleston Convention even though it adopt the Squatter Sovereignty of Senator DOUGLAS, and nominate him for the Presidency. Believing that the assembled representatives of the party, in Convention, will, in their united wisdom, prove superior in judgment to any individual, we are prepared, in advance, to endorse their acts and sentiments, and to support the candidates they shall elect—WE GO FOR THE UNION, AND SUCCESS TO THE DEMOCRATIC PARTY IN 1860, uninfluenced by and desire to be revenged upon any man or men.

We stand pledged to support Mr. DOUGLAS, in 1860, should he be nominated at Charleston, and we desire to do so with all possible cordiality."

The London *Times* says, that so far from the present glut of money there, being an indication of confidence, it is the strongest proof that could be afforded to the contrary. The discount houses and Joint Stock Banks are flooded with money simply because the distrust future political possibilities and wish to deposit their resources so as to have them within call.

Fatal Accident—A Fall from a Window

Yesterday afternoon about 5 o'clock, Mr. David Y. Doane fell from one of the windows of the Athenæum Library room, Corinthian Hall building, to the flag stone side walk, twelve or fifteen feet beneath. He was immediately taken up and carried into the dining saloon of Mr. Cutts, near by, where Dr. Reid attended him. Shortly afterward a carriage was procured, and he was removed to his residence in Elizabeth street, where he expired at a quarter past seven o'clock. His death was attributed to concussion of the brain. Deceased was about forty-five years, and has been a resident of this city about ten years. He came from Newark, Wayne county, where he was formerly engaged in the mercantile business.—*Roch. Democrat.*

Geo. Walston was killed by the explosion of a soda fountain at Louisville on Saturday last. One end of the fountain, which had been filled, was leaking, and while the unfortunate man was repairing it, the pressure of the gas blew off the top which struck Walston on the chin and neck. He fell backwards, in a manner, dead, and did not breathe perceptibly for some minutes. He then made a few gasps and expired.

—The Troy Whig says that Coroner Burton, of that city, was, on Tuesday evening, called to hold an inquest on the body of a boy who came to his death under singular circumstances. He was directed to lead a cow to a certain place; he tied one end of the rope to his body; the cow became frightened and ran; the boy fell and was dragged until his brains were dashed out.

—Leave of absence has been granted by the War Department to Col. S. Thayer and Col. P. St. George Cook, of the United States Army. It is the intention of these officers to join a number of their comrades who are about to visit the seat of war in Europe.

—The Boston Traveler announces the accession of a man of "world-wide reputation" to its editorial force. The Commercial Bulletin says that the Hon. Caleb Cushing is the man. It is stated that he writes the articles on the war.

—The London Times publishes a letter from its New York correspondent, in which the adoption of the Two Years' Amendment by Massachusetts is denominated an "Awful Political Blunder."

—A check has been paid at the Bank of England from which all but the signature of the drawer was erased by a chemical process, and a larger sum substituted for the original amount.

The large foundry and ware houses attached, belonging to E. A. Lester & Co., at Fredonia, were consumed by fire yesterday afternoon. The ware houses were filled with various agricultural implements, all of which were consumed. The loss is estimated at $18,000, $8,250 only of which is covered by insurance in the Ætna Company at Hartford.

—O. H. Hewitt, a young man of New London, Ct., a son of E. J. Hewitt, was taken bleeding violently at the nose, Tuesday night, and all efforts to arrest it proving unavailing, he died, after having bled 16 hours.

—The idea that the Emperor Napoleon wore his regalia as a Son of Malta, to the war, is a mistake. He left it with the Empress, in good condition.

—There is said to be not less than 10,000 Chinamen now on their passage to California, where their presence will be likely to cause some trouble among the miners.

—A man by the name of Leberg, who resided in New Bremen, Lewis Co., was accidentally killed, one day last week, by the falling of a tree upon him while chopping. He leaves a wife and four children.

A light-fingered individual in Washington, on Friday last, succeeded in extracting a draft for $7,000 from the possession of the President's messenger, as that individual was taking it to the bank for deposit.

—General Scott was serenaded at his residence in Twelfth street, on the evening of the anniversary of his birth day, by the American Cornet Band of Milwaukee, now on a visit to New York.

LOCAL MATTERS.

Great Excitement.

Two beligerent parties in town, came to fist-cuffs last evening, in the vicinity of Esquire Kimberly's office; and one of the party, in the excitement of the affray, resorted to the Esquires for a Warrant for his beligerent and had him arrested, and defendant was having his Bail-bond made out for him, when the Complainant, by his second thought, withdrew his complainant, paying his own cost. Pitty all quarrels would not end in a similar manner.

At an adjourned meeting of the citizens of Batavia, on Thursday evening last, at the Eagle Hotel, in the matter of celebrating the Fourth of July,

John Kenyon, from the finance Committee, reported a subscription list amounting to $201 25.

B. G. Tisdale moved to accept so far as accomplished, the report of the Finance Committee, and that they retain the subscription lists, and circulate the same until the Fourth of July. He offered the following resolution, which was unanimously adopted:

Resolved, That we are determined to have a celebration after the Good Old Fashioned times.

The meeting then adjourned *sine die*.

ORANGE ALLEN, Ch'n,
DAVID E. E. MIX, Sec'y pro tem.

Thomas Barrett's Cotillion Party, comes off to-night at Ellicott Hall. Mr. B. is making every preparation the heart can wish, to make this Party what the guests could desire it to be. We have no doubt his laudable efforts will be rewarded with such merits. The lovers of Ball Room Frolic will all be there.

It is stated that the Democratic State Central Committee has resolved to hold the State Convention next month!

STRAWBERRIES.—Those wishing nice Strawberries would do well to call at Bronson Kress's Confectionery Store. He receives fresh ones every day, and sells them *very cheap*.

Peterson's Cheap Edition of Scott's Novels.

"The Antiquary" "Waverly" and "Old Mortality," three of Scott's celebrated Novels have just been received by us from T. B. Peterson & Bro., the enterprising publishers. The thanks of all lovers of works of fiction are due these gentlemen for undertaking to publish and furnish the whole edition for such a paltry sum. Specimen copies can be seen at this office. Remember the *whole series* can be obtained from T. B. Peterson & Bro., for *Five* Dollars.

Regulator.

We notice that MILES has received another *large and splendid* lot of *Summer Goods*, which are very cheap. Muslin Robes 12s; Plaid Silks 4s; French Prints 2s; Lawns 10c; Brilliants 1s; Parasols 50c; Gaiters 35c; also, Groceries cheaper than we ever saw them: Codfish 5c; Rice 4c; Nutmeg 6c; Saleratus 7c; Raisins 10c; Tea 2s; Sugar 7c; Coffee 11c, all of which are less than others are selling the same.

Closing Up.

S. H. RUSSELL offers his entire stock of Dry Goods and Groceries *at cost*. Being desirous to close the concern, he offers great goods at this immense sacrifice. Every one should improve the chance, and let the crowd rush to RUSSELL's and obtain *Goods that are Goods*. See adv.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflammatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no others) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are actually subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT acts like the Galvanic battery, an extraordinary influence over the veins and arteries, resulting in a gradual decline of inflammation as indicated by the pulse, which soon resumes its natural state, as the heat, pain and fever disappear.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more. It equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. See a Circular. Ask any Druggist about the *New Medical Salt*.

Ask your neighbors about the *New Medical Salt*. If sick, try; if not sick, remember the *New Medical Salt*.

DR. COGGSWELL'S NEW MEDICAL SALT is for sale in Batavia by [illegible] W. Fellows and by all respectable druggists wherever the Herald is [illegible]. As it is not a Patent [illegible], but the prescription of an eminent Physician, no one [illegible] to try the New Medical Salt. [illegible] and Directions are circular.

Dr. Coggswell's Antiphlogistic Salt. [illegible] Packages, $1.00; [illegible] $2.50. Sent by mail, free of expense on receipt of price.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter, and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of *pulmonary disease* by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the *inestimable value* of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost *invariable success*. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"*I am anxious* that the HYPOPHOSPHITES should be brought, *as speedily as possible*, into universal use, as I KNOW that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever, but also
as Effectual a Preservative
as Vaccination in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"*Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on *deficient* vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile* signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No Iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 49 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

HERB DISPENSARY!

OFFICE 96 MAIN STREET,

(Corner, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhea, Nervous Debility; Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Uremia, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eyesight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body, pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without exposure, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for $1 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

A NEW LAGER BIER

SALOON!

BY PETER WORTH,
No. 2 Cary Block, Batavia.

"Pete" would inform his friends around
He's took the Stand—in Gardner's ground—
In No. 2 of Cary's Block,
Where Lager's sold, of purest stock!
He has re-modled this Saloon,
And made it now a splendid Room.
It is a place of fine resort
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease recline,
And "Pete" will them, with Bier inspire—
Or sell them all a dinner, sure,
Or Lunch, that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often high he loom, and tall,
He will respect, he Patrons pay,
Or treat them all in friendly way!
With sparkling Lager by your side,
This world of sin, you would deride
And in your inmost soul must say,
Bright Lager pave in healthy way!

THROAT AND HEAD,

As this disease frequently gives rise to Deafness Dr. L. performs operations for Cataract, Cross Eyes, &c.

The following gentlemen are kindly permitted their names to be used as references, respecting Dr. L.'s qualification, reputation, mode of treatment and success:

R. W. Pease, M. D. H. D. Didama, M. D. A. Mercer, M. D., D. A. Moore, M. [illegible] N. C. Powers, M. D., James Foley, M. D., C. F. Williston, Mayor of Syracuse; Geo. J. Gardner, Esq., Cashier of the Onondaga Bank; Judges S. H. Middleton, and A. K. Tinker, Esq., T. D. Davis, Esq., A Benedict, Esq., President of the Onondaga Bank; all of Syracuse.

[From the Utica Morning Herald, Jan. 12, 1858.]

Benjamin F. Walker, of Madison, is the subject of a remarkable cure of disease of the eye. He had been seriously afflicted for six months or more, and the remedies applied benefited him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgement.

[From the Syracuse Journal, Sept. 13, 1858.]

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of cross-eyes upon the eyes of Miss Julia C. Haskins, of Truxton Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with respect by those who are momentarily liable to its injury, as it is with joy by those who have experienced salutary blessings. "To the Pure all things are Pure."

This may be true in point of fact, in the scale of the great whole. But in point of experience, with our relative conditions, it is not true any more than "whatever is, is right," when compared with our *notions* of what is right, and what is wrong. We are aware that what is right in one Religion may be wrong in another Religion. What is Truth in one country may not be considered so in another. All seem to judge from different standpoints. And judgments differ like our tastes.—One has a preference for one color, and another person for a different one. One has a love for the voluptuous, and opes the fondest caresses in nature by an outflow of such passion. While another is passing sanguine, and flegmatic, and exhibits no such outpourings of his Nature, but treats all about alike, and is as sublime on one subject as on another.

Such is the diversity of talent, taste, notions, or whims, of the masses, that it is pretty difficult, now-a-days, of telling—unless we arrantly assume what is pure, what is just, or what is right!

We, in our quiet mood, in our sanctum, giving vent to our thoughts, as they teem forth one after the other, cannot assume at this age of the world, that we know it all; that our notions of purity, are exactly plenary, or complete; but our natural charity seems to *feel* out, and look over our exchanges to recognize something better, different, purer, and more to the great wants of the general reader, as well as ourself. We, however, too often find ourself lost in the labyrinth of the mass before us. The ten thousand phases of thought, which looms up before us,—all presenting their claims upon our credulity, our confidence, and our adoption, as so many mentors, and teachers, that we shrink before their vast variety of claims, sometimes feeling a disposition to level our condemnation against them all, and stand head and front above every aspiration that we see springing up from every other source, concluding, of course, that our own purity, our own tastes, and our own assumptions may be as good *authority*, as perhaps, the next man's.

And again, when we come to tastes—our olfactories, our predilections, and the demands of our stomach, revolts at the fumes that too frequently beset our nostrils, which others are forever luxurating in, and quaff, as we would the scent of the June rose; and who pour into their stomachs daily such ungenerous articles of diet, as would forever dethrone our digestive functions, and destroy our appetite, for any food, however wholesome. And the teeming predilections of every variety show themselves so constantly, and so efficiently, that our humble "*selfishness*," seems knocked in the head, and we are induced by our natural modesty to keep cool.

A serious trouble has arisen in Newark, N. J., between the authorities of the Trinity Church (Episcopal) and the citizens.—Permission has been granted to the Church by the Common Council to build an addition to their church edifice on the public Park. The citizens object to any such disposition of the property, and under the lead of several of the most prominent among them, Wednesday evening cut down a fence which had been erected by the church preparatory to commencing to build. A squad of Police was called out, but did not arrive on the ground until after the demolization had been accomplished. Much excitement exists and more serious trouble is anticipated.

When the express recently arrived at one of the stations on Lower Trinity with a blooming widow in charge, the Justice's court, then in session, was adjourned for ten minutes, to give the attorneys and jury a sight at crinoline.

A steamer for Pike's Peak has been invented by a Chicago editor, which "can run anywhere after a heavy dew." In the absence of dew, it is probable that she will carry a street-sprinkler at her bow, which worked by steam, will sufficiently moisten the prairie for her passage.

BURLINGTON, June 16

The Democratic State Convention assembled here to-day, and was quite largely attended. The following State nominations were made:

For Governor—John G. Saxe.

For delegates to the National Convention at Charleston, the following were chosen:

John S. Robinson, of Bennington, Henry Keep, of Newbury; Jasper Rand, Berkshire; E. M. Brown, of Woodstock.

Mr. Saxe, being present, made a brief speech, accepting the nomination.

Resolutions were adopted in favor of non-intervention; in favor of the compromise of 1850; in favor of a strict adherence to the doctrine of "popular sovereignty;" endorsing the administration of James Buchanan; favoring the acquisition of Cuba, and hoping that the complication of European politics will aid the acquisition of that Island without the sacrifice of the National honor.

The resolutions further favor foreign emigration and express an abiding confidence in the principles of the Democratic party. Both factions were fully represented, but the Douglas men were largely in the majority, and quite jubilant at the result.

WASHINGTON, June 16

New Orleans papers of Saturday last are to hand, from which we extract the following intelligence:

General Sam Houston has accepted the nomination of Governor of Texas tendered him by the Independent Convention.

The charge of Judge Campbell to the Grand Jury of the United States District Court for the Northern District of Alabama, was very strong against the re-opening of the slave trade.

NEW YORK, June 17

The first heat in the great trot yesterday was made in 7:54.

The inhabitants of Fayal are again in a starving condition. A meeting was held in boston last night, at which $1,000 was subscribed for their relief, and a committee appointed to solicit subscriptions.

At a Democratic meeting last evening in the 15th ward the Hon. John C. Mather discussed at considerable lenght the various political questions of the day as affecting City, State, and Nation.

ALBANY, June 17

The Democratic State Committee officially deny that there is any foundation for the report in the New York Daily News, respecting a meeting of committee. No meeting has yet been held, and ample notice will be given of the time of holding the State Convention, which probably will be called for September.

AN AFFRAY IN CANADA WEST.—The Durham Standard gives an account of an affray between the Sheriff and some magistrates of Huron county, and some debtors who resisted the seizure of a span of horses. The debtors fortified themselves in a tavern and threatened destruction to any one who dared to enter. The building was then set on fire by order of the Sheriff, and invested on all sides to prevent escape. When the place became too hot, those inside rushed forth in a body, and those guarding them broke on all sides.—Nearly one hundred shots were fired after them, but only one of the men were wounded, not, however, sufficient to prevent him making his escape. The tavern was burnt to ashes. The father and mother of some of the parties, and the wife of another, were arrested as accessories. At the last accounts nearly five hundred persons were under arms, to arrest five men.

On Wednesday afternoon, a number of the lady guests at the Mansion House, Ravenswood, L. I., ventured to bathe in the East River, opposite the grounds.—Two of the number, who were young ladies, were almost immediately carried by the swift current beyond their depth, where they must have perished, had it not been for the courageous conduct of three young lads, who at once plunged to their rescue. By almost superhuman efforts, and at the risk of their own lives, they succeeded in reaching the drowning ladies, and drew them in a state of insensibility to the shore. The last one rescued was just sinking for the last time, when she fortunately raised her clasped hands as if in prayer. This act enabled the lads to grasp her, and draw her from the current. The names of these brave boys are Alexander Shaw, Edwin and David Dusenberry.—The young ladies were finally restored to consciousness. A matrimonial alliance should follow such a romantic rescue, of course.

The Independance says that England is on the point of obtaining the abdication of the Grand Duke of Tuscany in favor of his son. Austria and Bavaria have protested at Berne against the passage of the French troops through the neutral territory of Savoy.

The gas consumers of Janesville are in trouble. Two different set of men claim payment for the gas, one being the receiver of the company and the other the lessee of the works. Each side threatens that if consumers don't pay them, they will shut down the gas.

NEWS SUMMARY

—Widow Young of Flat Rock, Mich., had her pocket robbed of $50 in gold, between Suspension Bridge and Rochester Wednesday night. So she thinks.

—A dispatch to the St. Louis Republican states that the Grand Jury of the U. S. Court for the District of Keokuk, have found a true bill against the Rock Island Bridge as a nuisance.

—Hon. James R. Doolittle U. S. Senator from Wisconsin, is to deliver the Address at the Hobart College (Geneva) commencement on the 29th inst.

—The City Council of Memphis have voted $550 00 to the Sons of Malta of that city, to help them bear the expenses they incurred in extending relief to the sufferers by the explosion of the steamer St. Nicholas.

—We learn that Mons. Blondin succeeded yesterday in stretching a small rope across the Niagara River, by which the large cable on which he is to walk from bank to bank will be drawn over.—The cable itself was expected to arrive from New York last evening.

—The Car-tender's Guide, a complete cyclopedia for making drinks, is announced as in press in New York. It will contain plain and reliable direction for making all the fancy drinks in the United States, together with the most popular British, French, German and Spanish recipes.

—A curious law suit, brought by a lady against a dentist, was tried a few days since at East Corinth, Me. Dr. Phiops pulled the wrong tooth, relieved Mrs. Eliza Butler of a sound molar, instead of a decayed one, and she sued him for $20 damages. Defendant won.

—Several small lots of peaches have already arrived in New York, from Charleston and Savannah.

—The Monmouth *Inquirer* says that nearly *two hundred thousand* baskets of strawberries were carried from that county by the steamer Keyport on Friday.

—A young man in Sussex county, Va., on Wednesday last, broke his neck while diving, at a mill dam, by striking his head upon an unseen stick of timber beneath the surface of the water.

MARRY.—JEREMY TAYLOR says, if you are for pleasure, marry; if you prize rosy health, marry. A good wife is Heaven's last best gift to man—his angel of many minister of graces innumerable—his gem of many virtues—his casket of jewels—her voice, his sweetest music—her smiles, his brightest day—her kiss, the guardian of his innocence—her arms, the pale of his safety, the balm of his health, the balsam of his life—her industry, his surest wealth—her economy, his safest steward—her lips, his faithful counsellors—her bosom, the softest pillow of his cares—and her prayers, the ablest advocate of Heaven's blessings on his head.

The National Era pitches into Horace Greeley for his speech at Osawatomie, in favor of the Union of the Opposition. It charges the Tribune with holding the Republican party in check—not giving it room according to its strength. In answer to the names suggested by H. G., the Era says, "No Botts, nor Bates, nor Bell, can lead the hosts of the North to victory." We will make a small venture, notwithstanding the anathemas of the Era, that the Philosopher is nearest right.

OPPOSITION.—We understand that arrangements have been entered into between the owners of the steamers McDonald and Alida, to form a daily line from New York to Poughkeepsie, and the intermediate landings. The fare has been fixed at 25 cents.—*Knickerbocker.*

This "opposition" is put on to pay off the Hudson River Road for carrying flour from Albany to New York for four cents a barrell. The fight will be an interesting one, and will cost both sides $10 every time they earn one.—*Albany Statesman.*

POSSIBLE CHANGE IN THE CABINET.—The Secretary of War has returned from Virginia, and is seriously ill. His health has been declining for several months, and unless an improvement soon takes place, his retirement from the Cabinet will become necessary. In that event, it is expected that Charles J. Faulkner, of Va., will be appointed to the vacancy.

Latest News.
BY TELEGRAPH.

NEW YORK, June 17.

The steamer City of Washington will take out for Liverpool $5 600 to be forwarded to Cavour, being the first installment of the American fund to aid Italy in obtaining her independance.

Paul Morphy visited the rooms of the Brooklyn Chess Club last night, and played two games with Mr. H. H. Knout, and one with Mr. Moraske. In each game Morphy gave the odds of a Queen's Knight, and was the victor in all.

Next week Mr. M. proceeds to Philadelphia, on a visit to the Atheneum Club when he will start for New Orleans via Cincinnati, St Louis and other cities.

The preliminary examination was commenced to-day, in the case of the slaver Orion, and the testimony of Lieuts. Dallas and Campbell was taken.

Lieut. D. stated that Capt. Hanna admitted to him that he (Hanna) was employed to take the Orion to the coast of Africa, where he was to transfer the charge of the vessel, which was thereafter to be employed in the slave trade.

The persons under examination are D. Morgan, 1st mate, and 12 of the crew.

The evidence as to the character of the vessel was very minute, but the Commissioner held that the evidence was insufficient, and the prisoners were accordingly discharged.

ST. CATHARINES, C. W. June 17.

The embankments between locks 22, 23, and 24, of the Welland Canal were washed away yesterday, by the overwhelming force of the water suddenly precipitated upon them by the breaking of the lock at Thorold. It is feared that ten or twelve days will be required to repair the breaks. Some 20 vessels are detained in the canal, including the propeller Ogdensburg, above and Buck Eye below the break.

WASHINGTON, June 17.

The ordering of a more efficient naval force to the African coast was not in consequence of any late complaints by the British government; it was long ago contemplated, but until recently there were no vessels which could be used for that purpose.

So far as our government is aware no new orders have been issued since 1842 by the British in connection to the treaty stipulating for the suppression of the slave trade on the coast of Africa. There is nothing in recently received letters to distinguish gentlemen in Washington which affords any ground for belief that England will become involved in the present war in Europe.

It is understood that the Cabinet to-day finally acted on the document they had for several weeks had under consideration expressive of the views of the Administration of neutral rights. It will probably be transmitted to Mr. Dallas by the next steamer.

BOSTON, June 17.

The celebration of the anniversary of the battle of Bunker Hill is now progressing in Charlestown.

All the public buildings and numerous private dwellings in that city are gaily decorated and the military and firemen are parading, but the drizzling rain storm interferes somewhat with the programme, and the streets are less crowded than is usual on this occasion. In this city the Custom House, most of the offices, the banks, and many stores are closed in honor of the occasion.

ST. LOUIS, June 17.

Geo. H. Smith, who drowned his wife in the Mississippi in December, 1857, expiated his crime upon the gallows in the jail yard in this city at 20 minutes past 1 o'clock this P. M.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only.

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has started over but one [illegible], has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (as others,) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS! ! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt*.

Ask your neighbors about the *New Medical Salt*. If sick, try; if not sick, remember the *New Medical Salt*.

DR. COGGSWELL'S NEW MEDICAL Salt is for sale in Batavia by H. W. Fellows and by all respectable druggists wherever the Herald is [illegible]. It is not a Patent [illegible] medicine, but the [illegible] of an eminent Physician, as any Professional man [illegible] the New Medical Salt. [illegible]

Dr. Coggswell's Antiphlogistic Salt. ACUTE PACKAGES, $1.00; CHRONIC $2.00. Sent by mail, free of expense on receipt of price.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, *and of* SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of *pulmonary disease* by Dr. Churchill's *new Treatment*—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the *inestimable value* of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost *invariable* success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as *speedily as possible*, into universal use, as I *know* that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever but also
as Effectual a Preservative
as Vaccination in Small Pox.

"In no instance have I found the remedy *fail to produce everything that could reasonably be expected from it.*

"Out of twenty-two cases in *the third or last stage*, treated at my Dispensary, during the past year, *eight have completely recovered*, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is *the most powerful generator of blood known*, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *facsimile signature.*

☞ No others can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $3.00, with full directions for use. A liberal discount to physicians and the trade. The Dry salts furnished to the profession. Single bottles in concentrated solution, sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot [illegible] John Street. Let [illegible] the dealer [illegible] but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

HERB DISPENSARY!

OFFICE 95 MAIN STREET,

(2d door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eyesight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhœa, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid ailment and chronic Inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive the 1st number of Health Rules and perform [illegible] of cure, which will be [illegible] by [illegible] after [illegible].

THE Faithful Lifelike Miniature, which equals the form, features, and expression of some absent friend, is a treasure, to the value of which millions can now attest.

The subscriber has made arrangements by which he offers extra inducements to his numerous patrons, both as to quality and price of work.

OLD DAGUERREOTYPES, which are fading or likely to fade, faithfully copied into the Ambrotype plate, and thus made imperishable.

The subscriber also announces that he has the Agency for the sale of the

The only real Hair Restorative

MCOMBER'S

HAIR RESTORATIVE AND INVIGORATOR.

IS WARRANTED to cause hair on bald heads, stop its falling out, increase the growth of mustaches and whiskers in any desired extent; to cure dandruff and all diseases of the Scalp, even "scaled heads." It has a reputation of merit unknown to any other article, and those who buy a bottle are sure to purchase the second and third, as it never fails to give satisfaction, and to do all that it is claimed to do. For TOILET USE it is also unsurpassed.

When an article of this kind is within the reach of every one why will any one doubt? Get a circular and read the certificates of well known citizens, then buy a bottle for fifty cents, or a dollar bottle. It never has failed.

Each bottle has the following words impressed on the glass—*McComber's Hair Restorative and Invigorator, Buffalo, N. Y.*

A NEW LAGER BIER

SALOON!

BY PETER WORTH,

No. 2 Cary Block, Batavia.

"Pete" would inform his friends around
He's took the Stand—on Gardner's ground—
In No. 2 of Cary's Block,
Where Lager's sold, of purest stock!
He has re-modled this Saloon,
And made it now a Splendid Room.
It is a place of fine resort,
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease retire,
And "Pete" will them, with Bier inspire—
Or sell them all a dinner, sure,
Or Lunch, that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often kept he lowers, and tall,
He will respect to Patrons pay,
Or treat them all in friendly way!
With sparkling Lager by your side,
This world of ah, you would decide
And in your upmost soon must say,
Bright Lager pots in healthy way!

WIT AND HUMOR.

Rocky thinks it provoking for a woman who has been working all day mending her husband's old coat, to find a love letter from another woman in the pocket.—This is perfect nonsense. There is not a woman on earth but would find the letter before she began to mend the coat.

"*If* you don't want your bricks broke keep 'em off dis child's head," might have been the exclamation of a negro girl in Louisville, Ky., who fell a distance of twenty-five feet, striking her head on a brick pavement, and after lying senseless a short time, arose and resumed her usual avocations.

As this disease frequently gives rise to Deafness Dr. L. performs operations for Cataract, Cross Eyes, &c.

The following gentlemen are kindly permitted their names to be used as references, respecting Dr. L's qualification, successful mode of treatment and success:

R. W. Pease, M. D. W. D. Dobson, M. D., A. Mosser, M. D., D. A. Moore, M. D., T. C. Powers, M. D., James Fuller, M. D., C. T. Williams, Mayor of Syracuse, Geo. J. Gardner, Esq., Cashier of the Onondaga Bank, John G. H. Middleton, and A. B. Tinley, Esq., T. D. Davis, Esq., S. Bradley, Esq., President of the Onondaga Bank, all of Syracuse.

[From the Utica Morning Herald, Jan. 12, 1859.]

Bernhardt F. Walker, of Madison, is the subject of a remarkable cure of disease of the eye. He had been seriously afflicted for six months or more, and the common applied benefited him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to express to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 14, 1858.

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of cataract upon the eyes of Miss Julia C. Harkins, of Truxton, Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with respect by those who are unfortunately liable to its injury, as well as with joy by those who have experienced [illegible] blessings. 2285

Cleansing the Town.

We learn that our efficient President of the Corporation has or is instituting an efficient Committee, or establishing a Board of health, accompanied by a Physician, whose general analytical and chemical experience, will enable him to furnish the Board with such data as will enable them to decide upon what are nuisances in certain localities or places, or not.

Such a move as this, at this season of the year, is very commendable; and the result, we trust, will be a ridance to many sink holes of filth, and sources of disease which we as a community have long been suffering from.

The cleansing of sewers, outhouses and other dangerous miasmatic sources we have no doubt will now soon be set in motion, till our town will be renovated, and purified from all such pestiferous effluvia, that endangers the general health of our community.

We hear of several of these nuisances which have been kept under the immediate noses of near neighbors, to their great annoyance for some years, and which are becoming intolerable; and which has at length resulted in a declaration of war, inducing our President to establish a regulation which will be *sweeping* in its effects.

LOCAL NEWSPAPERS.—The following just remarks we clip from the correspondence of an exchange, says the Buffalo Express: "The local newspaper should be encouraged by every member of the community where it is printed. All should aim to strengthen and improve it by their contributions in cash and ideas, local items &c. We earnestly invite a revival in the minds of our citizens, of the interest thus hinted at. Bring in your names, take every occasion to furnish for our columns such items of local news as you think would be acceptable, and find your reward in your own improved interests, which are always to a greater or less extent, connected with a healthy and well conducted local newspaper."

A great battle has at last been fought between the French and Austrians. It appears, by telegraph, that the French claim the victory. Nearly three hundred thousand men were engaged in this, the first battle of importance. This of course is but the beginning of a series of conflicts which will only end, when the Austrians give way and return to their own.

Forty thousand men are reported to have been slain, this most likely is very much exaggerated, although thousands were without doubt placed "*hors de combat.*"

NO VOTERS IN MICHIGAN.—The Detroit Free Press has made the discovery that there are now no voters in Michigan.—This happens from a blunder of the Legislature in drafting the registry bill passed at its last session. The law provides that no person shall be allowed to vote unless his name shall be duly registered, but makes no provision for registering until October NEXT. As the law was to take effect immediately upon its passage, it follows that all voters are disfranchised until October.

The recent tragedy in Kentucky which resulted in the death of Lowe, is likely to cause more difficulty. The Owensboro' (Ky.) American has the following:

We understand that the old man Lowe, the father of T. S. Lowe, visited the town of Hodgenville, in Larue county, during the session of the Circuit Court in that county, for the purpose, he stated, of killing Mr. Maxwell and Judge Stewart.—The citizens of the town finding out the object of his visit, caused him to be removed from the community.

The Democratic State convention of Massachusetts has been called at Worcester, Sept. 7. It will appoint delegates to the National Convention as well as nominate a State ticket.

A Washington correspondent of the Boston Journal thinks Mr. Corwin, of O., will be the next Speaker of the House of Representatives. Col. Schouler, Col. Forney, and one or two others are spoken of for Clerk.

Hon. Alexander Davidson, a prominent and honored Albany merchant, died on Thursday evening. He was a member of the Assembly a few years since, and discharged his duties with ability.

Mr. Elisha Howland, of Mechanicsville, N. Y., a man of 37 years, on Friday of last week, while playing with his cat, was bitten slightly on the back of his hand.—On Sunday night his head and arm began to swell and continued to do so in such a manner as to alarm his physician. Mortification set in, and on Wednesday morning at one o'clock he died.

A TERRIBLE AND FATAL FALL.—At Albany yesterday morning, a young man about eighteen years of age, named Lawrence Murphy, a carpenter by trade, fell from the southwest steeple of St. Joseph's Church, and was killed. He was at work upon a scaffold, engaged in fitting a wooden window frame in one of the openings, when he was precipitated to the ground, a distance of one hundred feet. He clung to the frame he was adjusting, and both came down together. Both of his hands were broken off at the wrist, and the bones protruded through the flesh. He received very serious internal injuries, and expired in about fifteen minutes after the accident. He was unconscious when picked up, and remained so till he breathed his last. It is somewhat singular that two of the family should have fallen from the same building. The Journal says it was only last summer that an elder brother, Thomas Murphy, fell from a scaffold in the inside of a building, and escaped with a broken arm.

ONE HUNDRED DOLLARS REWARD.—Miss Williams, a young lady about 20 years of age, and a member of Prof. Bragdon's family, left her home in Lima, on Sunday evening, the 12th inst., and notwithstanding a most diligent search, conducted by several hundred citizens and students, has not been found. Without doubt she has wandered away in a fit of insanity. She left without a bonnet, but wearing a striped calico dress, brioche shawl, and cloth gaiters.

She is of medium height, and very light complexion, hair and eyes. She may have gone to a distance of many miles—but in what direction it is impossible to determine.

Any person giving information to the undersigned that shall lead to her recovery, will receive the above reward.

JAS. L. ALVERSON,

A. NASH,
Committee of Citizens.

There is a young woman employed in the Harmony Mills, who during a period of years that she has been employed in that establishment, has saved from her regular wages, and from earning by doing ornamental needle work, over twenty-five hundred dollars. Yet she has found time to study and master French, as well as the higher branches of English. She is about 22 years of age, really good looking, a vivacious companion, and one who is not ashamed to have it known that she "works for a living." We will warrant her for a good wife to some happy young man.—*Alb. Statesman.*

Thomas Donaldson was arrested on Wednesday, in New-York, on suspicion of causing the death of a man named Barney. The latter is said to have entered Donaldson's bedroom, and attempted to take improper liberties with his wife, when her husband, whom he awoke by mistake, struck him over the eye with a bottle.—Barney then left, saying that he was going for a policeman. Donaldson followed for the same purpose, but returned in a short time remarking, "I guess he won't trouble us any more."

ANOTHER RUNAWAY HUSBAND CAUGHT.—Yesterday a man named Edwards becoming disgusted with Buffalo, or tired of the burden of a family, or both, started for the East, leaving his wife and children without any means of support or promise of return. His wife applied to Chief Best immediately after her husband's departure and through his efforts the runaway was stopped at Lancaster. An officer was sent down for him, and he is probably back home again before this, where the law will have him bound to the family whom he is under obligations to support.—*Buf. Express.*

The Auburn Advertiser announces that "the eloquent Douglas of Rochester" will attend the Dress Reform Convention in that city on Wednesday and Thursday the 22d and 23d inst.

NEWS SUMMARY

—A lad of thirteen years named Jesse Trader, shot himself on the 7th inst, in Hiland county, O., in imitation of many older self murderers.

—"Dublin Tricks," the pugilist, is training at Louisville for a prize fight with Coley of Cincinnati, to come off shortly, for two hundred dollars.

—Joseph Charles, whose recent death by violence in St. Louis so much excited the community, had insurance on his life in different offices to the amount of $22,500. He left no will.

—A young man named John Patterson, employed in Oriskany Woolen Mills, hung himself to the limb of a tree a few days since, and was found dead.

—The managers of the South Boston Insane Asylum have introduced billiard tables into that institution for the gratification of some of the inmates, one of whom it is thought, would be no mean match for Phelan himself.

—On Tuesday night in New York, a man named Charles Butler, by trade a jeweller, being almost out of money and having no work to do, purchased and drank four ounces of laudanum.

—Mrs. Euretta Dempsey, living in West Turin, about one mile south of Constableville, gave birth on Wednesday evening, to three children, weighing together 16 pounds. The mother and daughters, at latest accounts, were doing well, if not better.

—The London (C. W.) Free Press says that on Friday last parts of a balloon were found near the village of Delaware. They were composed of striped silk, one twelve and the other seventy feet square.

—Samuel P. Rock was hung yesterday morning at Bellville, C. W., for the murder of R. D. Dickie. He made a speech of half an hour, confessed the crime, and closed by asking the crowd to join him in the Lord's Prayer, which he repeated.

—The Connecticut Senate last week took a vote on a proposed amendment to the Constitution, imposing upon foreigners for one year, a disability similar to that recently incorporated into the Constitution of Massachusetts. It was rejected by 17 nays to 4 ayes.

—They are having very different weather in the East from what we are experiencing. Conductor Fellows, of the New York Central Railroad, was prostrated from the effects of the sun while attending a funeral at Amsterdam on Wednesday.

—Yesterday, in the Synagogue, an Irish woman, a Catholic, was converted to the faith of the Hebrew. The ceremony was performed by some of the exalted officers of the congregation. She had become attached to a German Jew and the twain resolved on matrimony.

—Ex-President Van Buren was in Albany yesterday, looking, the Journal says, as youthful as he did twenty years ago.

—Mr. Fay, our Minister to Switzerland, will soon be recalled. He has not been within the limits of the U. S. for thirty years.

—Rev. Henry A. Wise, Jr., son of the distinguished Virginia Governor, preached in Philadelphia on Sunday, and the North American pronounces him "one of the most eloquent pupil orators we have ever listened to."

—Nathaniel R. Greene, the last surviving son of Major-General Greene of the Revolution, died at his residence in Middletown, last Saturday. He was 79 years of age. The only surviving child of General Greene is Mrs. Littlefield, who now resides in Mississippi.

—The Philadelphia markets are watched over very closely by officers appointed for the purpose. Last week a Jerseyman had 119 balls of butter confiscated, because they weighed only fifteen ounces instead of a pound. The former pleaded shrinkage, but the officer did not understand this.

HORRIBLE TRAGEDY.—A despatch from Dunkirk says: This morning, the bodies of Martin Sauter, his wife and children, were discovered in an upper chamber of their house, all with their throats cut and dead. The deed is supposed to have been committed by Sauter himself, who had not lived happily with his wife. Sauter kept an emigrant boarding-house.

ALL ENGAGED.—We understand that all the bands within a hundred miles of New-York city have been engaged for the firemens' parade which comes off sometime in the month of October. The bands are so scarce in New-York city, that the members of some of the fire companies have offered to pay a premium on bands. *Albany Statesman.*

A man named Bryant Bowen, was killed in Kentucky, opposite Caledonia, Ill., on Monday night. He visited a boat in the river on which were a widow and her three children, one a boy aged 13 years. He insulted the mother, when the son attacked him with a knife and pistol, shooting him through the breast and killing him almost instantly.

MRS. M. M. DENSLOW,

Having returned from New-York with her usual supply of New Millinery Goods, is now ready to offer to the Public an assortment that will vie with the very best *self-imported* Stock ever before brought into a Batavia market—True Mrs. D. *did not go to Paris herself*, but bo't her supply at Importing Houses in New York, who have been long in the Trade and who sell to their old customers, who pay, at very reasonable rates, and Mrs. D. being one of that class of customers, is enabled to give her patrons the full benefit of a superb Stock of Goods, purchased at those Houses, where Fashionable Goods are to be had, at very small profits. The Public are invited to call and see, after seeking to be supplied elsewhere, among *Importers*, and she feels they will not be inclined to go empty away.—The cash trade is greatly desired—though responsible persons can have credit from four to six months.

She is fully prepared to execute all orders in this line of trade, and to prosecute with dispatch, and with all of the neatness, elegance and fashion, that her reputation has heretofore won her, any work trusted to her care. Her uniform prices are also made to suit the times and in wants of the buyer. [illegible]

Latest News.

BY TELEGRAPH.

LATER FROM EUROPE.

ARRIVAL OF THE ANGLO SAXON.

Terrific Battle!

NEW-YORK, June 18.

The steamship Anglo-Saxon passed Farther Point at 9 A. M.

Her advices did not reach the telegraph station until after 11 o'clock. From a hasty glance they seem to be of the highest importance.

The steamship Adelaide from New-York, arrived at Galway on the morning of the 8th.

A great battle is reported to have occurred near Milan, in which the French claim a decisive victory, giving the loss of the Austrians at 20,000 hors du combat.

The French loss is reported as high as 12,000 men!

The Austrians had evacuated Milan!

The Queen of England had delivered her speech to Parliament. The document possesses no important point.

A motion of want of confidence in the Ministry was pending in the House of Commons.

FURTHER.

NEW-YORK, June 18.

The latest news of the Europa reporting the Austrians in retreat across the Ticino, is fully confirmed.

The French crossed the Ticino at Buffalora and Turbigo.

There was considerable fighting at both places.

On the 4th a great battle took place at Magenta, twelve miles from Milan.

Napoleon's dispatches claim a decided victory, and Paris was illuminated. He says that they took 700 Austrian prisoners, and placed 12,000 more hors du combat, besides capturing three cannon and two standards.

The French loss is stated by the Emperor at 3000 men.

The Austrians took one cannon.

The French General Espinasse was killed, and Marshal Canrobert was mortally wounded.

Five French Marshals and Generals were wounded.

Gen. McMahon, was made a Marshal of France, and Duke of Magenta.

Gen. Baraguay de Hilliers had been superseded in his command by General Forey.

Milan was insurgent and had declared in favor of the King of Sardinia.

The Austrians had retired from Milan, but the French had not occupied it.

Rumors prevalent in Paris represent the French loss at Magenta as 9,000 to 12,000.

The forces engaged are reported at 120,000 to 180,000 Austrians, and 100,000 to 150,000 French.

The Austrian accounts speak of a series of battles with varying success, but still up to the night of the 6th, with great losses on both sides.

The Austrians admit that they had four Generals and five staff officers wounded.

It was reported that Gen. Hess commanded the French, and also that the Emperor Napoleon partially commanded the forces.

The latest rumor discredited from the alleged French victory.

It was believed that proposals for peace would be made if the French entered Milan.

DR. COGSWELL'S NEW MEDICAL SALT

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, [illegible] cures but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the sudden loss of blood and strength, it effectually cures inflammatory diseases, [illegible] by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

"NOTICE TO INVALIDS!" The following forms [illegible] which the unbalanced fluids assume, and many not here mentioned, that bleed more or less fever or pain, are as easily vanquished by the New Medical Salt, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to head and heart, Fits, Inflamed Eyes, ears, nose, [illegible] and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Croup, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGSWELL'S NEW MEDICAL SALT [illegible] what it claims to do—no more. [illegible] equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which [illegible] from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the inestimable value of this Discovery. Consumption is no longer to be regarded as an incurable malady.

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. Whither [illegible]

Dr. Churchill says:

I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove [illegible]

[illegible]

"In no instance have I found the remedy [illegible] anything that could reasonably be expected from it."

[illegible]

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhœa, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhœa or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, where the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $1 a series of Health Rules, and perfect chart of cure, which will be to them a lone polar star through life.

A NEW LAGER BIER

SALOON!

BY PETER WORTH,

No. 2 Cary Block, Batavia.

"Pete" would inform his friends around
He's took the Stand—on Gardner's ground—
In No. 2 of Cary's Block,
Where Lager's sold, of purest stock!
He has re-modled this Saloon,
And made it now a Splendid Room.
It is a place of fine resort
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease retire,
And "Pete" will them, with Bier inspire—
Or sell them all a dinner, warm,
Or Lunch, that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often high he looks, and tall,
He will respect, in Patrons pay,
He treat them all in friendly way!
With sparkling Lager by your side,
This world of sin, you would deride
And in your honest soul, must say,
Bright Lager puts in healthy way!

DR. LIGHTHILL,

Oculist and Aurist

(ROCHESTER, N. Y., (late of Syracuse, N. Y.) can be consulted at the

Eagle Hotel, Batavia, May 23d.

Here he will remain 6 days, and will give his personal attention to the treatment of the various Diseases of the

and Catarrhal affections of the

THROAT AND HEAD,

As this disease frequently gives rise to Deafness Dr. L. performs operations for Cataract, Cross Eyes, &c.

The following gentlemen are kindly permitted their names to be used as references, respecting Dr. L.'s qualification, reputation, skill, [illegible] and success:

[illegible] W. Pease, M. D., [illegible] Dibble, [illegible] Moyer, M. D., D. A. Moore, M. D., [illegible] [illegible], M. D., James Fuller M. D., C. F. Williston, Mayor of Syracuse; Geo. J. Gardner, Esq., Cashier of the Onondaga Bank; Judge [illegible] Matthews, and J. H. Tracy, Esq., [illegible] Esq., A. Benedict, Esq., President of the Onondaga Bank, all of Syracuse.

[From the Utica Morning Herald, Jan. 11, 1858.]

Benjamin F. Walker, of Madison, is the subject of a remarkable case of disease of the eye. He had been seriously afflicted for six months or more, and the remedies applied benefited him not at all. He called on Dr. Lighthill, of this city who effected a complete cure by a single prescription. Mr. Walker appreciates this remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 15, 1858.]

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of cataracts upon the eyes of Miss [illegible] Haskins, of Truxton Cortland county, with perfect success. Truly, the knowledge in that science which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with rapture by those who are unfortunately liable to its injury, as it is with joy by those who have experienced similar blessings. The Cheerless and Hopeless.

Without hope, we should, "of all men be most miserable"—without cheer—without intent and without reason; with not a ray in all the sounds of beauty, and the glow of Nature, which every where surrounds us, to perpetrate our ambition, and impart strength to our undertakings. The world would be sad and cheerless—would be a charnel-house, full of bereavements and rottenness, that would devour our being, and annul every enduring tie.

The cheerless spirit is a clod in the midst of plenty—devoid of ambition or Hope but in its own lost interest, and like an ice-berg in the great sea of life, upon which it sheds its damps and frosts upon the breezes of its surroundings, it stands as a stumbling block, a sure wrecking pedestal, for other, and gala barques to perpetually flounder upon.

Hopelessness is a worm that gnaws, a canker worm that eats upon the life currents of all life, and spreads consternation upon the very breath of Time. It clogs the wheels of Progress, and damps the energies of perpetual unfoldment. Reason has lost its sway and truth has no bearings, while the winds of fate, by the sure breath of her design, control even the winds and the elements to spread consternation thro' her entire circuit, where hopelessness has become a triumph.

To perpetrate this state, this condition of human Nature, combines all the elements of its surroundings, which makes its sure work upon the human mind and heart, and it each yields to the strong motive that bear it down, and veils perpetually the expanding gem which is forever shooting upward and grasping its proportions and thus fitting itself for endless progression.

Mrs. Mary Travis, a widow aged eighty nine years, who resided with her son-in-law, Mr. Samuel Horton, near Red Mills, Putnam county, hung herself on Friday, in a fit of melancholy. She attached one end of a silk handkerchief to the top of a bedpost, and tied the other around her neck, and by throwing herself downward effected her purpose.

The Washington correspondent of the N. Y. Herald says that "letters were received Friday morning, brought by the Europa, from Mr. Dallas. The aspect of affairs in Europe, he says, gives little hope of an early peace. Active operations will continue in the territories of the belligerents and States not involved in the war. It is thought that the vexed questions of neutral rights will paralyze the commercial interests of the Old World, while we must in almost any event be benefited. He says also that it is the opinion of the leading statesmen, that should the war be long protracted it will be difficult for England to preserve her neutrality. The Derby Ministry, it is thought, is short lived."

The La Crescent Banner says the Mississippi at this point is now about as high as it was ever known to be. Steamers have a wide channel, and can run almost anywhere over the bottom lands. Our general road has been seriously damaged, one of the bridges having been swept away. At Winona the water is running through the principal streets, and some of the inhabitants have ingress and egress to their dwellings through the upper windows only. The "city" is approachable on either side by skiffs only.

There is a great strife going on between the Douglas and Buchanan factions in Iowa. Each one trying to control the approaching State Convention, and each threatening to bolt if the other succeeds. At Dubuque, the Douglasites have beaten their rivals badly having elected their delegates. It is very probable, also, that the Douglas Democracy will control the State Convention, and have the ordering of things generally, so far as the party is concerned.

What a Calamity.—A young lady of Brandon, Vermont, who had been undergoing all the the advantages of a high-toned seminary education, has eloped with a Rutland tinker and "fled to parts unknown."—*N. Y. Paper.*

Suppose she did, ain't a tinker just as good as any body? We'll venture to say this young mechanic is far superior in intellect, genius and every qualification that adorns a man to one-half the "high toned" young bucks you meet in first society, who pass for "bricks" and hain't got means enough to pay their tailor's bill—just so!

There is a letter in one of the Chicago papers from the Hudson Bay Company's domains. It is cold in those parts. The writer mentions a walk of five miles on the ice from an island in Lake Superior to the main land. The snow in the woods is several feet deep, and Dog Lake is still frozen hard.

The Paris correspondent of the New York Express says: "Three Senators of the United States Congress are now here; Mr. Seward, of Massachusetts, the latter apparently in restored health, and just from Turin. Governor Fish goes home with his family in July."

A young woman calling herself Alice Cary and representing herself as the poetess of that name, has been creating a sensation at Portage, Wis. She was rather good looking, and by her "poetical address" captivated the good citizens of that place. Her sudden departure, however, without paying her hotel bill, materially diminishes the enthusiasm in her behalf.

We learn that the missing young lady who disappeared from Lima a few days since, has been found, dead, in Hemlock Lake.

Great Excitement!—Knowles Ahead

Now is the day. Hurrah!—Just received this morning Barrels upon Barrels of fresh Vegetables and Fruits. Green Peas, Radishes, Pie Plant, Onions, Asparagus, Pine Apples, Cocoa Nuts, Oranges, Lemons, &c., &c. Call immediately for Knowles & Burt always make the Vegetables fly. Remember Knowles' head quarters, opposite of the Eagle.

Mr. John Howard, a very respectable citizen of Minneapolis Minnesota, some time last month returned home and found a man named Snell in his bedroom, &c. A scuffle ensued, Howard attacking Snell with a knife, but the woman interfering in some manner permitted Snell to escape unharmed. Howard immediately ordered his guilty wife to pack up her effects, and sent her home to her father's house in Chautauque county, New-York. In the meantime Howard publicly gave notice to Snell and his friends that he should slay him at sight. Snell very prudently kept out of the way, until Tuesday morning last, when Howard caught sight of him at the corner of Washington Avenue and Helen street, and immediately commenced firing at him. Snell ran into a store, pursued by Howard, who put three balls into him before he gained the security of the cellar where he ensconced himself. Howard ran from door to door of the store to get a chance for another shot, but Snell not appearing, he was taken away by his friends. The balls were extracted and Snell was at last accounts wavering between life and death. The parties had been friends and lived on the most intimate terms.

A Queer Genius.—This morning a man whose name is Jamie Ellison, called at the Mechanics and Farmers Bank. He said his name was "Jesus" and wanted $10,000. He said that he came from England and brought an armed force along with him to get his right. He was asked what $10,000 he had reference to. He replied the $10,000 that he had buried under Niagara Falls and which the Banks of this city had taken up and appropriated to their own use—that they had the use of it long enough and as he now was about building a house, he wanted the money for that purpose. The officers of the bank discovered that he was of deranged mind and sent for policemen who came and took Ellison in charge. He was subsequently sent to the Alms House Hospital.—*Alb. Stat.*

At Gaffny race-course, South Carolina, a tree under which several persons were standing was suddenly struck by lightning, although a few moments before the sky was cloudless. Six or eight were prostrated, several stunned. One man was killed almost instantly. On his person was a singular instance of the photographic power of electricity. On the front surface of the thigh was indelibly impressed the perfect branch of a tree, leaves and all; and this not withstanding the part was protected by his pantaloons and drawers.

NEWS SUMMARY

—Rev. Mr. Stewart stated recently that there are now eight ships of the American navy on each of which a daily prayer meeting is held.

—A German "merchant in Wheeling, Va., was married on Tuesday, after being a widower only one week.

—The Livingston (La.) Reporter states that a negro boy belonging to Capt. J. P. Harvey of that place, recently blew off the top of his head by accidentally discharging a gun he held in his hand.

—Noadiah, of Champion, the first actual settler of Jefferson Co., and father of Judge F. W. Hubbard, of Washington, died on Sunday last at the advanced age of 95.

—Monday, a poor Jew at Richmond, received a letter from Europe, informing him that a large amount was his by inheritance. The excitement was too great—he fell from his chair and died immediately.

—The great Marble Palace Hotel on Fifth Avenue, opposite Madison Square New York, is nearly done, at a cost of $1,144,000! and will be opened August 1st. The building cost $400,000; ground $350,000; furniture $200,000; steam, plumbing and gas fixtures $55,000; mirrors $30,000. In splendor, extent and convenience, it surpasses all other hotels in the world.

The Sauquoit Disaster.—Mr. Tarks, the Kentucky gentleman who was injured at the Railroad accident at Sauquoit Creek left this city yesterday for the West, having been awarded $1500 for the injuries received. He left with $1000, his lawyer as reported, having retained $500 for his services.—*Utica Tel.*

We learn from the Falls that Mons. Blondin don't go across the chasm on his rope on Thursday, as heretofore announced. There is some delay in shipping his rope from New York. Our informant says—"It is impossible at this time to say when he will walk, but as soon as I can I will let you know by Telegraph." We wait patiently the announcement.—*Buf. Ex.*

The Rev. Henry Highland Garnet, of New York, has communicated to Frederick Douglass a challenge to discuss the merits of the African Civilization Society, in New York, Geneva, Rochester, Boston or Newport, on the 5th of July. This challenge is subject to acceptance by either Mr. Douglass or Dr. James McCune Smith, both of whom have taken ground against the Society, of which Mr. Garnet is President.

Three Italians were drowned at Richmond, Va., a few days since. They went fishing in a company of five, and the wind capsized the boat. Two escaped and three were lost. One of the drowned had gone through the entire Siege of Sebastopol in the Allied army. They were all under 28 years of age, and very worthy, industrious men.

William Sanborn, James Christian and David L. Garrett, election judges of the 1st Ward, Cleveland, at the last city election, have been sued in the Common Pleas Court by Freeman H. Morris, tailor, who is slightly tinged with negro blood, for having refused to let him vote at that election. The damages are laid at $1,000.

Another Prize Fight in Prospect.—The New York Sun says George King, a boxer of renown lately arrived from England, last week issued cartel of defiance to the equally celebrated Ed. Price, of Boston, so says Porter's Spirit of the Times. Mr. Price is a fighting man, every inch of him, and has not been slow in picking up the gauntlet. A friend of his has deposited in our hands a draft for two hundred dollars, with which to bind a match, at King's earliest convenience, for a battle to come off in Canada. Price wants to make the thing a thousand dollars a side, and has no objection to double that amount at the shortest possible notice. He means business; wants to give King a good square chance, and the only favor he asks is for the other party to hurry up. The two hundred (or one hundred if it will suit King better) waits to be covered.

They "do" an elopement in New Hampshire after this style: One Warren, at Goffstown, felt that he had an affinity to the wife of Wm. Nute, and finding that Mrs. N. reciprocated it, he had a talk with the husband about it, in the course of which Mr. Nute remarked sarcastically to Warren that if he had any better right to his wife than he himself had, he had better take her. Warren replied that he had the right of doing so, and a few minutes after said to Mrs. Nute, "Come Sis, make haste, we have a long ways to go," and they prepared to start. Finding them determined to go, Mr. Nute gave his wife some wholesome advice, presented her seventy-five cents to buy a fan, (to cool off and Warren, with Nute's wife started off on foot, with no luggage or clothing, except what they had on, for Manchester.

BY TELEGRAPH.

NEW-YORK, June 20.

The Tribune understands from good authority that Gen. Walker has organized a new filibuster expedition to invade Nicaragua, and that it will sail from this port to-morrow or next day. Active recruiting has been going on for some time, and a very respectable force as to numbers has been engaged.

A despatch from Washington says the recent story about counterfeit postage stamps, originated with parties who wanted to impose the new envelopes on the Department. Investigation proves that no counterfeits have ever been detected.

A despatch from Washington states on probable authority, that Mr. McLane has negotiated a treaty with Juarez, ceding to the United States the States of Sonora and Chihuahua, and a part of the Tamaulipas, the United States engaging to assist the Liberal party and to pay the claims within a limited amount, to be ascertained by a Mexican Commissioner.—The treaty is expected here within a month.

WASHINGTON, June 20.

The Collector of Baltimore has applied to the Secretary of State for information as to the nature and extent of the protection which may be afforded by the United States to a foreign built vessel, purchased by an American citizen. It is evident at that our government entertains the views held by the last administration, viz: That if an American citizen buys, in good faith, a vessel from a belligerent or neutral power, with whom we are at peace, it becomes American property, and is entitled to protection, like any other American property. The vessel, however, cannot get a register unless by the act of Congress.

A Black-hearted Confession.—Little Lizzie, five years old, is a very good little thing; but one day she was provoked by an older sister's refusal to surrender a rocking chair to her and bit her, for which she was punished. Shortly afterwards she came to her father and looking up in his face, said:

"Pa I am sorry."

"Sorry for what my dear?" asked her parent, softened by the appeal of humility as he took it.

"Sorry Emma wouldn't give me the rocking chair," replied the child.

Papa's countenance took a sudden change at the "soft" appeal.

DR. COGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has [illegible] but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, [illegible] by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE To the public! The following forms which the inflammatory fluids assume, and [illegible] that have more or less fever [illegible], are as easily subdued by the New Medical Salt, as fire is extinguished by water, to wit: Yellow Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, [illegible], and all itching and other cutaneous eruptions.

DR. COGSWELL'S NEW MEDICAL SALT [illegible] equalizes the fluids by removing from the system all arterial and venous obstructions. [illegible] circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGSWELL'S NEW MEDICAL SALT. Get a circular. Ask any Druggist about the New Medical Salt.

Ask your neighbors about the New Medical Salt. [illegible]; if not sick, remember the New Medical Salt.

DR. COGSWELL'S NEW MEDICAL SALT is for sale in Batavia by H. W. Fellows and by all [illegible] druggists wherever the [illegible]. [illegible] is not a Patent [illegible], but the [illegible] of an eminent Physician, [illegible] Forbidden to try the New Medical Salt. [illegible] all testimonial and directions are circular.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—remove all remaining doubt as to the inestimable value of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption as Quinine is in Intermittent Fever, but also as Effectual a Preservative as Vaccination in Small Pox.

"*In no instance have I found the remedy fail* [illegible] *passed from it.*

"Out of twenty-two cases in the *third or last stage*, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—in whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile* signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $2.00, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution, sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 49 John Street. Let no one deceive you, but purchase and use only Winchester's Preparation.

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents to prepay the expense of postage. Also, circulars and all necessary information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or wasting [illegible] and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid [illegible] and chronic inflammation—a state of morbid irritability, hence the want of success on the part of old school Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men, suffering from these disorders, will receive for [illegible] a series of Health Rules and perfect charts of cure, which will be of [illegible] [illegible] through life.

AHEAD!

GREAT REDUCTION OF PRICES!

$10.000 WORTH OF

BOOTS & SHOES

To be sold in the next 2 months, at 20 per cent. less than Manufacturer's Prices.

THOMAS YATES,

Who, for the last 20 years has held forth in this Village, and has never yet been outdone, either in prices or quality, would respectfully announce to the inhabitants of Batavia and surrounding country, that he is still in the field, opposite G. B. Worthington & Co.'s Hardware Store and second door from the corner of Jackson st. where may be found an extensive assortment of

BOOTS, SHOES, RUBBERS & GAITERS,

of the latest styles and most approved workmanship, which will be sold from 50 to 50 per cent. less than the usual prices. This is one of the best opportunities to obtain GREAT BARGAINS, ever offered to the people of Western New York, as it is desirable that the stock should be closed off by the first of December next.

Ladies' Black Fox Gaiters only 4s worth 7s; Ladie's Black Fox Fine Gaiters only 5s worth 8s; Ladie's Black Fox very fine Gaiters, only 7s worth 10s; Ladie's Black Fox Heel Gaiters only 9s, worth 14s; Ladie's Black Fox Congress Gaiters only 10s, worth 16s; Ladie's Kid Congress Gaiters, thick and thin soles, less than cost to manufacture.

Boys' and Youth's Patent Leather, Calf, Kip and Double Sole Boots, Brogans and Gaiters, at low figures. Gent's Brogans 9s; Mens' Stoga Boots $2.00.

MEN'S KIP AND THICK

DOUBLE SOLE BOOTS,

Custom Made, worth $3,25. I shall sell for 18s and 20s. Children's Shoes, a large assortment, Fancy and Plain, Kid, Calf and Morocco, from 15 cents up. Ladie's Kid Buskins and Slippers, 2s, 4s, 5s and 6s.

My Stock is too numerous to mention. I have on hand more than all the Shoe Dealers in this Village combined, and can spare enough to fill all their small shops, and still have a large supply left. All will be sold at less than Rochester City Prices. You are all invited to call and examine the Goods, whether wishing to buy or not. All those who come barefoot without money, can have them "without money and without price." *Goods warranted as represented.*

MCOMBER'S HAIR RESTORATIVE AND INVIGORATOR.

IS WARRANTED to grow hair on bald heads stop its falling out, increase the growth of mustaches and whiskers to any desired extent; to cure dandruff and all diseases of the Scalp, even "scaled heads." It has a reputation of merits unknown to any other article, and those who buy a bottle are sure to purchase the second and third, as it never fails to give satisfaction, and to do all that it is claimed it will do. For TOILET USE it is also unsurpassed.

When the evidence of this kind is within the reach of every one why will any one doubt? Get a circular and read the certificates of well known citizens, then buy a bottle for fifty cents, or a dollar bottle. It never has failed.

A NEW LAGER BIER SALOON!

BY PETER WORTH,

No. 2 Cary Block, Batavia.

"Pete" would inform his friends around
He's took the Stand—on Gardner's ground—
In No. 2 of Cary's Block,
Where Lager's sold, of purest stock!
He has re-modled this Saloon,
And made it now a Splendid Room.
It is a place of due resort
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease retire,
And "Pete" will them, with Bier inspire—
Or sell them all a dinner, sure,
Or *Lunch,* that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often *high* he looks, and *tall,*
He will respect, in Patrons pay,
Or treat them all in friendly way!
With sparkling Lager by your side,
This world of sin, you would deride
And in your inmost soul *must say,*
Bright Lager puts in healthy way!

WIT AND HUMOR.

He who promises himself anything, but what may properly arise from his own property or labors, and goes beyond the desire of possessing above two parts of three, even in that, lays up for himself an increasing heap of afflictions disappointments.

Susan was desirous of purchasing a watch. The maker showed her, among others, a beatiful one, remarking that it went thirty six hours.

"What, in one day!" asked poor Susan.

[From the Utica Morning Herald, Jan. 12, 18[illegible]

Benjamin F. Walker, of Madison, is the subject of a remarkable cure of disease of the [illegible] He had been seriously afflicted for six months or more, and the remedies applied benefited him not at all. He called on Dr. Lighthill of this city who effected a complete cure by a single prescription. Mr. Walker appreciates a remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 10, 1[illegible]

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of cross-eyes upon the eyes of Miss Julia Haskins, of Truxton Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ should be hailed with respect by those who are unfortunately liable to its injury, as it is [illegible] joy by those who have experienced its blessings.

The Weather and the Crops.

We have now and then a sunny day. Winter with her northern blasts, seems to shoot back upon us, and the cold damps of the west winds chills our frames in a manner to demand the crackling fire in all of our stoves; and overcoats, this morning —June 22d,—are still in demand. The sky over head is lowery with portentious drissel of cold rain. The western breeze makes the clouds scud with rapidity—thus holding out the hope that their lowering threatenings will be driven away to the east, to damp the raging spirit of war, so prevalent in that clime. Their chilling presence have froze to death the devouring weavel that has heretofore blasted the hope of the Farmer, and we could hope their mission were accomplished in full, to our fair country.

The weather has been such that the grass refuses to grow. The young Corn looks yellow and pinches the Tomatoes and Herbage of the fields and gardens have become stinted and dwarfed by the cold mantle our atmosphere perpetually wraps around them. The Spring and the winter wheat; the Rye and the Barley, however, with but few exceptions, are in a flourishing condition, and hold out the promise of a fair crop and a generous yield.

The Farmers are now busy cultivating their crops, and replanting where the frost and the coldness of the season, have disappointed them in their first efforts; and hope seems to cheer them to perpetual effort, while now and then the King of day sends forth her genial rays to gladden their prospects, in imparting his warmth to the earth, and making her pregnant with life, and a plentious yield.

THE ALLIES VICTORIOUS.—The Persia, which arrived at New-York last evening, fully confirms the reported success of the allies, and shows the Austrians are steadily retreating. The fact that the Emperor of Austria has called upon the Tyrolese to protect the frontiers, is a concession of defeat, and betrays his weakness for the future.

The Rock Island correspondent of the Chicago Press and Tribune says the Mississippi bridge at Rock Island was seriously injured on Saturday night by the crossing of a heavy train. The pier on the Iowa side draw was cracked from top to bottom, and two of the beams that support the bridge were broken. No trains have crossed since the accident.

It is now expected that the iron will be laid on the Mississippi and Wabash road from Warsaw to Carthage, Hancock Co., by the 4th of July next. It is already completed to within three miles of the latter place.

It is hinted that the New-York police have obtained knowledge of the existence in that city of an organized band of Thugs, who entrap the unwary into certain street dens, and there murder them for the booty on their persons, and afterwards endeavor to conceal their crime, by putting the bodies in the river. The alarming prevalence of dead bodies in the North and East Rivers is attributed to the doings of these villians.

MASONIC.—Utica Encampment No. 3, has, through Major Priest, received an invitation from Erie Commandery Knights Templars, to join them in an excursion to start from Buffalo, Thursday evening, at 7 o'clock, for the purpose of attending a grand celebration of St. John the Baptist's day at Cleveland, on Friday of this week, the (24th.) We understand the Major, and probably others, will attend from this city.

FEED of all kinds for sale by W. H. STORY.

On Friday Mayor Swan of Baltimore received a despatch from Norfolk, stating that B. F. Flannigan, of Princess Anne county, Va., had been brutally murdered, and that Walter S. Land, of the same place, charged with being the murderer, had left Norfolk on Saturday evening for Baltimore, in company with his wife.—The parties are all highly respectable.—Land was arrested and expressed a ready willingness to go back and meet the charge.

It is expected that the trial trip of the Great Eastern, which has been dragging along for several years towards competition, which will take place in July, sailing from Weymouth, England, to the middle of the ocean and back again, to test her qualities under all possible conditions of sail and steam. Hundreds of workmen are now engaged.

Gov. James C. Jones, of Tennessee, declared in a letter published in the Memphis Bulletin, his position in regard to the Presidential Election in 1860. He says: "I speak for myself—*I am for Stephen A. Douglas for President of the United States in* 1860.

Meyer Goldsall was taken to New York city day before yesterday from St. Louis where he had been doing business, on a charge of false pretenses preferred against him by merchants in that city whom he is alleged to have defrauded by first obtaining several thousand dollars worth of goods on his own notes, and then pretending to fail, with a view to defraud his creditors. He was committed to the Tombs for examination before Justice Welsh.

The Syracuse Journal says the Democracy of Onondaga are about to establish a Democratic paper in that city.

BOLD OUTRAGE.—Last night, as three gentlemen were standing in front of Lovejoy's Hotel, they were accosted by an elderly man who asked to be directed to the Fourth-avenue cars, stating that he had on his person $700 in money and a gold watch, and that he was pursued by a party of ruffians who intended to rob him. Mr. John W. Martin, residing at No. 324 Ninth street, one of those accosted, advanced towards the cars with the old gentleman, when he immediately found himself assaulted by seven or eight desperate scoundrels, who knocked him down and otherwise maltreated him, while the old gentleman was carried off bodily. Mr. Martin called for the police, but only succeeded in finding one of them after going as far as the corner of Nassau-street and Maiden-lane. On returning to the spot where the assault was made, nothing was to be seen of the villains. What become of the old gentleman Mr. Martin was unable to surmise.—*N. Y. Times.*

A cold-blooded murder was committed in Bell County, Texas, on the 20th ult. Mr. Ashles, who had married a daughter of Murrell, the land pirate, killed a brother-in-law, McCormick, and wounded another man, who was standing near, then fled, and ended his own life by taking strychnine. He was a native of Kentucky; had left his home under unfavorable circumstances; and a short time ago wrote an autobiography, in which he involved some of the best and most respected citizens of Bell County.

THE RAILROAD WAR RE-OPENED.—The Cincinnati Commercial states that an informal meeting of the Representatives of the Cleveland and Toledo, Cleveland and Erie, Buffalo and State Line, and the Great Western Road of Canada, held at Cleveland on Monday, it was resolved to reduce the fare by all roads from Buffalo to St. Louis to $20, and to other Western ports in proportion. The present rate is a little more than $23. The officers of the Little Miami Road have protested against this reduction, and the final action of the Lake Shore Companies has not transpired. If the action as reported of the North and South Shore lines is adhered to, it will have a powerful influence against the permanence of the peace patched up in New York last week between the Atlantic Roads.—*Rochester Democrat.*

—The Pope is said to look most placidly on the present war. Cardinal Wiseman recently related a little speech of his Holiness, which is worth preserving. Here it is: "Whether in Rome or in exile, whether free or in prison, I am the same; shall still be the Vicar of Christ and the head of the Church."

—One thousand hogs have died within two weeks in the pens connected with the distillery of Samuel Billings & Co., in Trumansburgh, Cayuga county. They are attacked suddenly and die in a short time. A post mortem examination shows the [illegible] intestines in good condi- [illegible] destroyed.

NEWS SUMMARY

—An attempt was made night before last, by a party of citizens on the 7th Avenue, New-York City, to hang a man named William Jardan, who had committed an infamous outrage on a little girl six years old. The gallows was erected, and a rope prepared, when the police interfered just in time to save his life. He is now in the custody, under the protection of the police, as the excitement against him is intense.

—By a vote of nearly two to one the Market St. Baptist Church of Zanesville, Ohio, has ex-communicated Mr. E. T. Cox, father of Congressman Cox and U. S. Marshal, because he obeyed the Fugitive Slave law.

—Sunday amusements are becoming popular in Chicago. The Daily Times says the German population, to the number of 6,000, assembled last Sunday at Cottage Grove and had a fine time, and estimates that on the same day not less than 3,000 persons of native birth attended the various amusements, in that city including the theatres.

—Going into battle by rail, is one of the peculiarities of the present war. At the battle of Montebello the allied supporters came into the field under the lead of locomotives, rapidly moving trains each bringing up a brigade. The scream of the engine whistle must have mingled oddly with the rattle of musketry and the roar of cannon.

—The Fennimore Cooper Monument, proposed to be erected on the grounds of the Lake Wood Cemetery, will cost about $3,000, and $700 remains to be subscribed. The monument is to be Italian marble, 25 feet in height, with a granite base, surrounded by a statuette of Leatherstocking and appropriate devices upon its sides.

—A gentleman of Newburyport, Mass., has something like 100 toads, which he keeps in his garden to destroy insects. He has a house built for them, keeping them as he would chickens, and they are so tame that they will come at his call.

Arrival of the Steamships Persia and Kangaroo.

LATER FROM EUROPE.

NEW YORK, June 21.

The steamship Kangaroo, from Liverpool 8th, via Queenstown the 9th, has arrived here.

The steamship Persia arrived at her dock in this city at 9 o'clock.

HEAD QUARTERS, BIGIOGNO.

The Austrians have lost in killed and wounded 4,000 to 5,000 men. The loss of the enemy is at least half as much.

Reports prove the heroic power of the Austrians to withstand the attack of the enemy.

A combat has taken place in Bosnia between the Turkish troops and the Insurgents, near Holecnick, and Trebigne Gasse has, it is said, been destroyed by Dervish Pacha.

The Minister did not resign on Saturday. The commons adjourned till Friday.

It is reported that the Prussian army is to be mobilized, and Prussia soon to take a part in the conflict.

It is said negotiations for the passage of troops through Germany have been made.

The Austrians are at Lodi. The allies are advancing.

Garibaldi has beaten an Austrian force at Brescia.

Five hundred Zouaves were killed and wounded at Mangusn.

The Austrian loss 1,500, and 1,200 men made prisoners. The battle lasted for nine hours.

The armies were preparing for another general engagement.

Official Austrian correspondence of the 10th, states that the Austrian army was continuing its retreat beyond the Adda, and its head quarters were at Cavat-tignosi, before Cremona.

It turns out that Canrobert was not wounded at Magenta.

All accounts give the great glory of the day to McMahon. He had no orders to proceed to Magenta, but heard the roar of battle, marched on and saved the army.

The Paris Moniteur of the 10th contains the following details: The concentration of our troops on the Po, deceived the enemy into the belief that we intend to cross the river. On the morning of the 4th 125,000 Austrians were in a position opposite the Emperor, and a Grenadier division of the Imperial Guard was obliged to fight this disproportionate odds. All of our Generals displayed great energy.—Espinasse and Macdhert, commanders of Grenadiers, are killed.

The bulletin thus describes the operations of McMahon: We lost 1,500 men, put 10,000 Austrians hors du combat, and made 5,000 prisoners. The Austrians had on their side four corps de armee.

The defeat of the Austrians at Magenta it is said produced immense sensation in Germany.

The correspondent of the Daily News gives the following details:

In less than two hours the allied monarchs had deployed 60,000 men against the Austrians whose force was 80,000, with a powerful artillery. They were compelled to move on a disadvantageous ground, as their left was turned by Canrobert's corps, supported by Fanta division.

The Austrians were obliged to fall on the centre at Abbiate Grasso. The Austrians centre thus swelled by routed columns, their left wing was soon in disorder, and thousands fell crushed by French artillery. McMahon had now reached the scene, and seeing the moment had come to break this disordered centre of the Austrians, charged with an impetuosity seldom witnessed. He was supported by Durah's division, which stood in reserve, which moved slowly beside him. The dead and wounded were falling by thousands. The Austrians were routed and victory won.

The writer says 20 Austrian guns were taken.

The Zouaves had 700 killed and wounded. Canrobert's corps was almost destroyed in the last charge.

The Emperor and King were always in the thickest of the fight.

Benedek commanded the Austrians, 1,200 of whom were taken prisoners.

D'Urban is said to have effected a retreat by Camano.

The Austrians evacuated Saveno, abandoning materials of war, and taking shelter in vessels in Swiss waters.

The King issued a proclamation to Lombardy, saying, independence having been secured, a regiment, both liberal and durable will be established. He eulogizes Napoleon and calls on the Lombards to join them on the battle field.

The Post's Paris correspondent says over 4000 of the prisoners are Italians, who took the earliest opportunity to give themselves up. They were always placed in front and threatened by the Croats in the rear if they did not fight well. Many [illegible] Allies, but have not

The Swiss Government ordered the immediate fortification of the Austrian frontiers.

Three Austrian armed transports, with vessels in tow, stopped in Swiss waters and surrendered.

The Emperor of Austria issued a proclamation to his subjects in Tyrol and Voralberg, calling them to arms, to defend the most righteous cause for which sword was ever drawn. He confides to them the task of defending the frontiers against the enemy, who made himself the ally of revolt against the legitimate dominion established by God.

The Duchess of Parma quitted the Duchy, leaving the Government to the municipality, and releasing the troops from the oath of allegiance. The municipality despatched a deputation to the King of Sardinia, requesting him to accept the Government.

The Hungarian Legion is organizing at Turin.

The British sloop of war, Heron, capsized in a tornado on the African coast, and 107 lives were lost. The Captain and 26 were saved.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other,) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what is claimed to do—no more no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt.*

Ask your neighbors about the *New Medical Salt.* If sick, try; if not sick, remember the *New Medical Salt.*

DR. COGGSWELL'S NEW MEDICAL Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is [illegible]. As it is not a Patent Medicine, but the [illegible] of an eminent Physician, no one [illegible] to try the New Medical Salt. [illegible] directions see circular.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. *No organ is free from its attacks, nor is there one which it may not destroy.* The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

☞ The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the inestimable value of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost incredible success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I KNOW that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever but also
as Efficacious a Preservative
as Vaccination in Small Pox.

"*In no instance have I known the remedy fail to produce everything that could reasonably be expected from it.*

"Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia, or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda.—J. Winchester, New York." Each bottle has also a *facsimile signature.*

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., at John Street. DR. JOHNSON'S

HERB DISPENSARY!

OFFICE 95 MAIN STREET,

(Corner, Up Stairs) Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Carasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgy pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for 25 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

GREAT REDUCTION OF PRICES!

$10.000 WORTH OF

BOOTS & SHOES

To be sold in the next 2 months, at 20 per cent. less than Manufacturer's Prices.

THOMAS YATES,

Who, for the last 20 years has held forth in this Village, and has never yet been outdone, either in prices or quality, &c. I respectfully announce to the inhabitants of Batavia and surrounding country, that he is still in the field, opposite G. B. Worthington & Co's Hardware Store and second door from the corner of Jackson-st. where may be found an extensive assortment of

BOOTS, SHOES, RUBBERS & GAITERS,

of the latest styles and most approved workmanship, which will be sold from 20 to 25 per cent. less than the usual prices. This is one of the best opportunities to obtain GREAT BARGAINS, ever offered to the people of Western New York, as it is desirable that the stock should be closed off by the first of December next.

Ladies' Black Fox Gaiters only 4s worth 7s; Ladie's Black Fox Fine Gaiters only 5s, worth 8s; Ladie's Black Fox very fine Gaiters, only 7s worth 10s; Ladie's Black Fox Heel Gaiters only 9s worth 14s; Ladie's Black Fox Congress Gaiters only 10s, worth 16s; Ladie's Kid Congress Gaiters, thick and thin soles, less than cost to manufacturer.

A NEW LAGER BIER

SALOON!

BY PETER WORTH,

No. 2 Cary Block, Batavia.

"Pete" would inform his friends around
He's took the Stand—on Gardner's ground—
In No. 2 of Cary's Block,
Where Lager's sold, of purest stock!
He has re-modled this Saloon,
And made it now a Splendid Room.
It is a place of fine resort
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease retire,
And "Pete" will them, with Bier inspire—
Or sell them all a dinner, sure,
Or Lunch, that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often kept he looks, and dull,
He will respond, to Patrons pay,
Or treat them all in friendly way!
With sparkling Lager by your side,
This world of sin, you would deride
And in your inmost soul must say,
Bright Lager puts to healthy way!

WIT AND HUMOR.

We have good authority for knowing that the daughter of Enoch was 580 years old when she was married. If this ought not to be balm to the drooping spirits of sweet 23, then we have no more to say.

A friend asked a dutchman what kind of a winter he thought we should have.—The Dutchman drawing himself up with an air of philosophic equanimity, and an oracular snap of the eye, said: "I think she will be werry cold dis winter or werry hot—one of the both."

Kinder is the looking-glass than the wine glass; for the former reveals our defects to ourselves only—the latter to our friends.

The long sought for principle of making Leather perfectly Water-proof, without injuring it, has at

LAST BEEN DISCOVERED!!!

A. BROWER'S

PATENT WATER PROOF COMPOSItion, for Boots, Shoes, Boat, Harness, and Leather of every description; warranted to make them perfectly Water proof single application, if the directions are strictly adhered to. At the same time, it softens the leather; makes it pliable, and thereby prevents its cracking; and it will polish with blacking even better than before the application. It is also a superior article for wagon axles.

Patented July 27th, 1858.

For sale, wholesale and retail, by A. BROWER & CO., No. 3 [illegible] street, N. Y., between Broadway and Centre streets. And by all the principle Boot and Shoe, Hardware, Druggist, Yankee Notions and Groceries. [illegible]

DR. LIGHTHILL,

Oculist and Aurist

ROCHESTER, N. Y. (late of Syracuse, N. Y.) can be consulted at the

Eagle Hotel, Batavia, May 23d.

Here he will remain [illegible] days, and will give his personal attention to the treatment of the various Diseases of the

EYE AND EAR

and Catarrhal affections of the

THROAT AND HEAD,

As this disease frequently gives rise to Deafness. Dr. L. performs operations for Cataract, Cross Eyes, &c.

The following gentlemen are kindly permitted their names to be used as references, respecting Dr. L.'s qualification, reputation, mode of treatment and success:

E. W. Pease, M. D. S. D. Sidman, M. D. [illegible] Murray, M. D. D. S. Moore, M. D. N. C. Powers, M. D. James Fuller, M. D. C. F. Williston, Mayor of Syracuse; Geo. J. Gardner, Esq., Cashier of the Onondaga Bank; Judge G. W. Middleton, and A. E. [illegible], Esq. T. D. [illegible], Esq. A. Benedict, Esq., President of the Onondaga Bank, all of Syracuse.

[From the Utica Morning Herald, Jan. 15, 1858.]

Benjamin F. Walker, of Madison, is the subject of a remarkable cure of disease of the eyes. He had been seriously afflicted for six months or more, and the remedies applied benefited him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgement.

[From the Syracuse Journal, Sept. 18, 1858.]

We learn that Dr. Lighthill, assisted by Prof. Pease, has performed an operation for the cure of cross-eyes upon the eyes of Miss Julia C. Haskins, of Truxton Cortland county, with perfect success. Truly, the knowledge of that delicate which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with acclamation by those who are momentarily liable to the injury, as it is with joy by those who have experienced salutary blessings. Fourth of July.

The arrangements are now fully completed by the Committee of arrangements to celebrate this memorable day in honor of our glorious Independence in Batavia and the large show-bills got up in colors, are now posted in every public place. This is as it should be. And it should rouse the slumbering energies of all who love Freedom, and all should turn out clad with the fires of '76, inherited from the Father's of those times, and do honor with a union of hearts, in making gala the day that is memorable throughout our fair Union, and reverted to with veneration in every land.

The Programme for the occasion is simple, yet very appropriate; and we have no doubt will be enjoyed by our citizens generally and will afford us a pass-time that we shall long remember with pleasing satisfaction. The Oration by Mr. Fithian Esq., of Buffalo, alone will call an immense concourse of People. And it is hoped the masses will all be on hand, with Patriotic hearts to swell the throng and march to the sound of the Bugle and the beat of the Drum, amid the roar of the Fire arms, which will be loudly roaring and smoking every where on that glorious day, while the festive and jubilant spirit shall possess every true American.

Metropolitan Theatre of Buffalo.—We had the pleasure of seeing Mr. and Miss Richings play *"The Daughter of the Regiment"* last evening at this favorite and popular place of amusement. Mr. and Miss R. play their parts in this celebrated piece better than any one else we have ever seen, and those who miss seeing this beautiful and accomplished actress and hearing her voice in some of musics sweetest strains, miss a treat that is rarely and very seldom enjoyed. Great credit is due Manager Carr for the paines he manifests in presenting to the people of Buffalo the best and most celebrated Star performers in the country as well as a choice and excellent stock company.

The Governor and Suit.—The Buffalo Express says Gov. Morgan is accompanied by his lady; E. D. Morgan, Jr., and lady, Miss Dwight; Geo. Bliss, Esq., his private secretary, and lady; Geo. F. Nesbitt, Engineer in Chief; Geo. F. Sherman, inspector General, and Benj. Welch, Jr., Commissionary General. It may be proper to state, in this connection, that His Excellency made a short stop at Tonawanda, where the people paid their respects to him, as they did also at Lower and upper Black Rock. The ladies manifested their appreciation in a fine floral presentation at Black Rock. The engine and cars in which the Governor and suite came to the city were beautifull. decorated, as any one might known they would be if Job Collamer had anything to do with it.

The steamer Morning Star, which had been laid up at Bissell's Point about four miles above the city of St. Louis was destroyed by fire on the night of the 20th. Loss $24,000; insured $2,000.

A despatch from Washington to New York states that the entire amount necessary for the purchase of Mt. Vernon has already been subscribed, but the association will not close the subscription list until a sufficient sum will be in their hands to improve the property now in a most neglected condition.

Senator Douglas.—The Cincinnati Enquirer says, "Hon. Stephen A. Douglas arrived at this city Saturday evening on his way to Washington, where his family are. He is looking in excellent health. We are told that he was received along the road between Chicago and here with hearty impromptu greetings at every station."

Batavia, June 22d, 1859

Mr. Editor—*Dear Sir*:—

Agreeably to an article published in your paper of June 20th, that it is the duty of the citizens of every community to support and maintain any paper conducted with ability and talent in the same locality and to communicate by correspondence to said paper any generous and laudable purpose that may transpire within its domain.

With such flattering encouragements before me I could not restrain the impulse of my feelings, so I therefore hasten to lay before you the few following remarks.

The subject of my sketch is not one who has figured conspicuously in the political strife of the day nor one who has added to the beauty and grandure of our beautiful village by the immense outlay of money in the improvement of his mansion and public gardens. Oh, no, mine is of a far different mould, and it is no other than the silent benefactress of the poor—the accomplished and generous lady of Mr. Dean Richmond of this place.

Early this spring Mr. Richmond purchased a large quantity of flour to distribute among the poor, and what led me to make those remarks are, I saw a poor Irishman a few weeks since taking home a barrel of flour from the residence of Mr. Richmond. His joy was depicted in his very countenance and his care worn features wore that heartfelt gratitude so natural to an Irishman, and his admiration of the lady gradually rising, he gave vent to the following exclamation:

'Oh," he says, "may the Lord bless her. Bedad but she is the fine lady intirely and may she never want for a bit or a sup will be the constant prayer of poor Patrick."

Where is the person who would not envy the position of that lady, when night approaches she can look back at the past day with gratifying results and retire perfectly conscious she has obeyed the commands of her Creator in relieving the suffering wants of his poor children, and those grateful beings, she has relieved by her charity, imploring the throne of mercy and goodness to shower down his choicest blessings upon the head of their noble benefactress and when her final dissolution draws nigh she can descend the stream of life into eternity without a murmur to ruffle the placid current that bears her along, and I hope obtain that reward which her merit, and charity entile her to.

AN IRISHMAN.

The Philadelphia Ledger says that the U. S. Shipping officer in that city has been crowded for more than a week past with men and boys anxious to enlist in the naval service as seamen, ordinary seamen, landsmen and boys.

The Davenport Boys were arrested last week in Phoenix, Oswego Co., on a charge of exhibiting jugglery without a license. They were tried before a Justice there, convicted and fined ten dollars and costs.—The friends of the boys offered to pay the fine. This the boys objected to, and maintained that they were falsely accused, refused to pay the fine, being determined to defend themselves in another way thro' legal process. They therefore permitted themselves to be taken to Oswego, and incarcerated in jail, where they now are and have been several days.

Russian Circular on the War.—The Independence of Brussels publishes an analysis of an important circular which Prince Gortchakoff, Foreign Minister of Russia, has addressed to the diplomatic representatives of the Emperor at the several Courts of Germany. The Prince strongly recommends a policy of non-intervention as to this Italian war; and in very explicit terms denies the right of the Germanic Confederation to interfere in the war which Austria has commenced respecting one of her non-Germanic possessions.

Gov. Morgan arrived in Buffalo by a special train from Niagara Falls this P. M. He was received at the depot by the Military and escorted to the Mansion House, and welcomed by the Mayor in a speech, to which he responded. Gov. M. will remain in Buffalo for several days as the guest of the city.

The Chess Match.—The final game between Mr. Morphy and Mr. Thompson, was played on Monday, at the New-York Club Rooms. At the termination, the whole score was: Morphy, 5; Thompson, 3; drawn, 1. This is considered one of Morphy's greatest victories, as he gave Mr. Thompson, one of the best players in the world, the odds of a knight.

NEWS SUMMARY

—Jenny Lind recently gave a charity concert in London, which was not advertised, and only the aristocracy were admitted by special invitation. The receipts were $6,000. She was in full health, and sang with her old power.

—Prof. Lynn attempted a balloon ascension from Columbus, Tuesday. When about twenty feet up, the balloon burst and came down on a house.

—The wounded Austrians, picked up after the battle of Montebello, had such a terror of the French, that they could only be induced to accept drink from the Sisters of Charity.

—Night before last, H. Van Dyck, Jr., aged 21 years, only son of Hon. Henry H. Van Dyck, Superintendent of Public Instruction, was thrown from a wagon while on his way home in Albany from a visit in the country, and probably fatally injured. His skull was fractured, and he has remained in a state of insensibility since the accident.

—Walter S. Sand, charged with the murder in Princess Anne's county, Va., mentioned yesterday, says that he and the deceased married sisters; that both were farmers in Princess Anne's, and that the deed was in self-defence.

—The News says one day last week a mad dog left Milwaukee and trotted off through the towns of Oak Creek, Franklin, Caledonia and Raymond county, biting every thing that came in his way. One man in Franklin had over a thousand dollars worth of stock bitten, and one child was also severely wounded.

—John Cochran, M. C. will deliver an address before the Sigma Phi Fraternity, at Geneva N. Y., on Wednesday, the 29th inst.

—A Peoples' reading and Coffee Room is about to be opened in the midst of the dens and hells of the 4th ward, New York with a view of reforming the inhabitants. "Awful" Gardner, the reformed pugilist is to have charge.

—The Anglo Saxon brings a report that Sir E. Grogan, one of the members for the city of Dublin, is to supersede Sir Edmund Head. The Canadians will rejoice at this change, as Sir Edmund is decidedly unpopular with the opposition.

—A Postmaster in Canada has been sued for $165. the amount of money in a letter which was stolen by his clerk. The Jury gave a verdict against him.

—A violent fall of hail took place in the neighborhood of Auburn day before yesterday, continuing half an hour, and extending over a space of about a mile in width. The hail stones were as large as marbles, and congealed into large cakes of ice almost as soon as they fell. Windows were broken, and flowers &c., cut to pieces.

The St. Clairsville (Illinois) Gazette says that a vein of antimony, two feet thick, and almost solid, has been discovered within two miles of St. Clairsville,—Antimony is one of the ingredients of type metal—worth about forty cents a pound—and it has been supposed was only to be found in Germany.

In one of the counties of Wisconsin, it is said, there are three candidates for the Legislature: J. M. Root, Democrat, Rob. Hogg, Free Soil, and T. H. Dye, Whig. The electors can sing the song of "Root, Hog or Dye," and take their choice.

It is said that the Secretary of War has refused to permit any more officers on leave to depart for Europe. It is feared they might join some of the armies, and in the event of being taken prisoners would lead to serious complications, which our government desires to avoid.

Ex-Gov. Seymour arrived in this city last evening, and took lodgings at the Clarendon. He is on his way to northern Iowa, to spend a month in business and recreation. His trip, however, is mostly on account of his health. He will remain in town until to-morrow morning.—*Buff. Republic.*

CONFECTIONERY.

PAUL ZALA

HAS NOW RE-FITTED IN A VERY splendid manner the SALOON next door east of Mrs. Denslow's Millinery Store, where he will prosecute the above business in all its branches.

He will keep a general assortment of Toilet and Fancy work, and execute to order such candies and ornamental designs as is demanded for parties of pleasure and Festivals generally.

He flatters himself that his mechanical ingenuity, and long experience in his business will enable him to give to all general satisfaction.—Having been to much expense in getting his Establishment in readiness, and making his place attractive—he earnestly solicits a liberal patronage from the town and country.

He will also keep Ice Cream flavored to the taste of the most delicate epicures—and hold himself in readiness to entertain his customers with the luxuries of his Saloon; and to make his place a fashionable resort to all who desire delectables.

BY TELEGRAPH.

LEAVENWORTH, June 21.

The overland express arrived here Sunday night, eight days from Denver city, bringing a large mail and $2,500 in gold dust. The previous extraordinary reports of discoveries in Gregory, Jackson, and other mining camps are fully confirmed.

Mr. Horace Greeley arrived out in less than seven days. He had visited Gregory's diggins, and signed a public communication endorsing the richness of the claims. Thousands are pouring into the new places. Forty sluices will soon be in operation at Gregory's camp.

The result of the operations of a company of thirteen given in Greeley's published letter show the highest day's yield $510. A company from the South Bend of Indiana has taken out 3,000 penny weights of gold dust with a sluice within three weeks. Gregory's two claims were sold for $21,000. Other details are in the same vein.

Other returned emigrants are departing from Leavenworth daily, bound to go through at all hazards. The excitement is becoming intense. Messrs. Jones and Russell contemplate enlarging their facilities in view of the increased demand for the transportation of emigrants.

Emigrants are charged not to start without four or six months supplies, as snows set in on the mountains in October, and adequate provisions should be made by all persons leaving this season for wintering in the mining region; this is to prevent a recurrence of the suffering and privations of the previous hegira.

WASHINGTON, June 22.

Private letters from El Paso and Arizona the 7th of June, state that the late attempt to revolutionize Chihuahua by Jose Maria Zuloaga, brother of the late President of Mexico, has been entirely suppressed Zuloaga surrendering without a battle and being pardoned.

Hon. John S. Phelps, of Mo., and Lieut. Mowry, of Arizona are the guests of Judge Hart of El Paso. Extensive preparations are making to give Mr. Phelps a grand reception in New Mexico.

The people of New Mexico adhere to their determination to take no part in the New Mexican election, on the ground heretofore stated in their memorial to Congress, of having no fair representation or vote. No U. S. Court is held at Mesilla this year. Arizona will send her own delegate to Congress, and if Lieut. Mowry consents to run again, he will be re-elected by acclamation. Hon. M. S. Otero will be returned to Congress as delegate from New Mexico without serious opposition.—Horace Greely is expected from El Paso in July. Some reforms in the present system of advertising and delivery of letters being necessary, the government will speedily adopt such a one as may seem practicable and efficient, and will hold its officers to a strict accountability for their own mistakes.

ST. LOUIS, June 22.

The overland mail arrived here last evening, bringing dates from California as late as to the 30th ult.

The papers are almost entirely barren of news. Business at San Francisco was dull, with no prospect of a very speedy revival, owing to the large stock of merchandise on hand.

Advices from Oregon state that the Legislature met at Salem on the 16th of May.

Gov. Douglas had issued a decree providing for the naturalization of aliens, after a three years' residence in the territory.

BOSTON, June 22.

U. S. Marshal Freeman received a telegraph despatch this morning purporting to come from the President, respiting Plummer, the ring-leader of the mutineers of the whale ship Junior.

Plummer was to be hung on Friday.—The Marshal has telegraphed back for a written order which will probably reach here to-morrow.

MILWAUKEE, June 22.

A fire broke out an early hour this morning in Young's Block, adjoining the Custom House. The block was entirely consumed. It was occupied by some 20 business firms, among whom the heaviest losers are Dennis & Raymond, Grocers; Norton & Fowler, druggists; Tunis & Co., booksellers. Loss on the building $60,000; insured $30,000. The Custom House is damaged to the extent of $15,000. Loss in merchandise not yet ascertained.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered, and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the invaluable value of this discovery—Consumption is no longer to be regarded as an incurable malady.

Many hundreds of physicians have already adopted this treatment with almost uniform success. Let no Consumptive delay a moment to try it. Infallible and hope!

Dr. Churchill says:

"I am sanguine that the HYPOPHOSPHITES should be brought, as specific as possible, into [illegible] [illegible] prove [illegible] only.

As Sulphur is a Remedy in Consumption
as Quinine is in Intermittent Fever, and also
as Mercury in Constitution
as Vaccination in Small Pox.

"In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.

"Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the period, eight have completely recovered, eight have died, and six are still under treatment. Such a result is altogether unparalleled in the annals of Medicine."

This Remedy is the most powerful promoter of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a fac-simile signature.

No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

Price $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The [illegible] supplied to the profession. Single bottles in concentrated solution, sent by mail, when specially ordered. Sold wholesale and retail at the sole General Depot in the U. S., 49 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for there is [illegible] fatal a malady as consumption. Address

Selfishness in Corporation Officers.

Selfishness seems to arise upon the surface of almost all things, even in our corporation affairs. True, improvements cannot always be made where and when they are demanded—yet, when we see Cross walks thrown up and paved and flaged in localities where the general interest of all our citizens do not desire them—and where they are only to accommodate a few families living adjacent to them, we cannot help but feel that personal interest is only consulted, in our public works and improvements; that such interest is accomplished at the expense of the Poor Tax payers of the village; and it seems almost a crying evil, and calls for a general expression against such outlays. Cross walks for private Families would be very desirable most any where in the village, if individuals alone are to be consulted; but it is to be expected of the authorities that they will apportion those improvements at those points where the Public most constantly use them; and construct as many of them as the means and the voice of the community demand; yet we find them built up where there is but little public demand for them and they will not be used more than three or four times a week, and that too by citizens who live and pass from their vicinity, while such places as Court St., opposite of Ellicott Hall, are left for the want of means to build it.

We would suggest now, seeing that certain private citizens, have been thus accommodated, that they donate to the Corporation enough to build good Cross walks opposite Ellicott Hall, and on Evans St., opposite Gast's. So that in the event we have public Lectures there, the coming Fall, that our families can attend them dry shod.

Sabbath School Excursion.

The excursion day before yesterday to Niagara Falls by the members of the Attica Sabbath School, was a brilliant affair, and terminated in a manner satisfactory and pleasing to all, without the slightest accident occurring to mar the pleasure of the party.

The train started early in the morning from the Central Rail Road Depot, with five coaches literally crowded, the whole party numbering about 350, arrived at the Falls about 10 o'clock, and after feasting their eyes and imagination, in gazing at the roaring cataract of Niagara, that stupendous work of nature, the visible impress of an omnipotent Deity, discernible in every object, the myriads of vapery clouds ascending from the waters before they strike the river below, is truly grand, and strikes the beholder with awe. In short, the mighty Niagara, immortalized by poet and tourist, after seeing all this, and more, they left the Falls to return at 3 o'clock, and arrived in Batavia at half past 4, all evidently well pleased with so amusing a recreation.

One circumstance tended to highten the hilarity of the occasion, as it was almost a free ride, the Central Company taking them from Attica to the Falls and return, for half a dollar, and also running an extra train for their accommodation. On the arrival of the train at Attica, a vote of thanks was tendered by the excursionists to Mr. TYRRELL, Conductor of the train, for his gentlemanly conduct and courteous deportment to them, during their pleasant trip.

In fine, it was a ride pleasing and joyful to all, and I doubt not, will long be remembered with pleasure by the members of the Attica Sabbath School. *

Last evening, in Washington street, Brooklyn, a boy six years old, named Thos. Mackey, killed his brother Charley, aged 10 years. The boys were quarreling at the time about the possession of a Sunday School Excursion ticket, when Thomas suddenly stepped back and drawing a penknife threw it at his brother. The blade penetrated between the ribs, causing his death in 15 minutes.

Letter from Senator Douglas on the Presidency.

The friends of Judge Douglas, here, are in possession of the following letter, explaining his position on the subject of the Presidency, and of which they have permitted a copy to be taken for publication:

WASHINGTON, June 22, 1857.

MY DEAR SIR:—I have received your letter enquiring whether my friends are at liberty to present my name to the Charleston Convention for the Presidential nomination. Before the question can be finally determined, it will be necessary to understand distinctly upon what issues the canvass is to be conducted. If, as I have full faith they will, the Democratic party shall determine in the Presidential election of 1860, to adhere to the principles embodied in the Compromise measures of 1850, and ratified by the people in the Presidential election of 1852, and reaffirmed in the Kansas Nebraska act of 1854, and incorporated in the Cincinnati Platform of 1856, as expounded by Mr. Buchanan in his letter accepting the nomination, and approved by the people, in that event, my friends will be at liberty to present my name to the Convention, if they see proper to do so. If, on the contrary, it shall become the policy of the democracy, but which I cannot anticipate, to repudiate these, their true principles, by which we have achieved so many patriotic triumphs, and in lieu of them the Convention shall interpolate into the creed of the party such new issues as the revival of the African Slave Trade or a Congressional Slave Code for the Territories, or the doctrine that the Constitution of the United States either establishes or prohibits Slavery in the Territories beyond the power of the people legally to control it as other property, it is due to candor to say, that in such an event I could not accept the nomination if tendered to me.

Trusting that this answer will be deemed sufficiently explicit, I am very respectfully your friend,

S. A. DOUGLAS.

Masonic—Law and Usage.

In all masonic trials the prosecutor may give testimony and sit in judgement as any other brother. The ordinary rules of law have no application to masonry in matters of this sort. Pursuing any other theory we should arrive at the absurdity of challenging the votes of all members of the lodge who had formed a judgement in the case!

A brother committing a serious crime while in a state of suspension must be dealt with, and if fairly convicted expelled. This may be done by restoring him first to membership, then bringing charges.—If, upon the motion to restore, a brother objects, and thus a unanimous vote cannot be had, you can only leave the case till the Grand Lodge assembles. (That body restores by a bare majority of votes.) The same rule prevails in relation to a member who has been suspended for a minor offence, and against whom charges of serious misconduct committed prior to his suspension are made.

The wife of Francis W. Everson, of East Abington, Mass., recently left him on account of ill treatment, and went to reside with her brother, Austin Brown, Jr. Everson was determined to regain possession of his wife, and proceeded to Mr. Brown's house on Wednesday night, where he succeeded in gaining an entrance thro' a window. He then went to a chamber occupied by his wife, and approaching her bedside, applied a sponge filled with some stupifying mixture to her face, and dragging her from the bed, started for the stairs; but her screams aroused the family, when Everson fled from the house and drove off in a carriage. The next day he was traced to Brighton, where he was arrested and placed in a lock up, form which he tried to escape by breaking a hole in the register over the door, but in pressing through he got fastened, and could not move either way. When found, he was nearly exhausted, and would have died in a short time as he hung by his abdomen. He was taken to Abington on Friday, and being brought before Justice Hersey, was required to give bail in the sum of $1,000 for his appearance, at the next term of the Common Pleas Court, which he gave, and is now at liberty.

Maine Going for Douglas.

The Boston *Traveller*, noticing the appointment of Douglas delegates to Charleston, from Vermont, says:

The indication from Maine are that Douglas delegates will be sent from that State, and we should no be surprised if he obtained the vote of all the delegates from the New England States."

"The Paris correspondent of the N. Y. Evening Post writes: "*Apropos* of the relations of France with Russia and the new government of Naples, permit me to direct your attention to the fact that the sister of the Emperor of Russia has been a guest of the Empress Eugene here ever since the Emperor's departure for Italy, and also to the fact that the Neapolitan Minister was the only member of the diplomatic corps who officially witnessed the services at Notre Dame on Monday in honor of the recent victory."

NEWS SUMMARY

—The Cork Examiner repeats its assertion that Florence Nightingale has entered the Convent at Gorey, in Wexford, as a postulant.

—The number of dogs put to death in the pound the present season, up to last night, was 2,000, besides 138 puppies.—The amount paid by the city for this canine slaughter is $1,034 50.—*N. Y. Evening Post.*

—Stephen A. Douglas, Millard Fillmore, Thomas Ewing, Thomas Corwin and George F. Pugh were all guests at the same hotel in Cincinnati last Sunday.

—John A. Washington, the seller of Mount Vernon, in company with a gentleman from Virginia, have just made purchases of real estate in Chicago and vicinity, amounting to $134,000. This is about threefourths of the price asked for Mt. Vernon.

—An English paper states that "a sheep gave birth to a lamb in Cambridge, lately, belonging to a widow lady with *six legs and fine wool all over her head.*" The English paper called the lamb a *lusus naturæ*, but we should thing it was the lady that best deserved the title.

—The New Haven, New London and Stonington Railroad Company announces that they will give to any whom they may know to be clergymen, by introduction or otherwise, a pass over their road for one year, *for half price.*

—A machine to manufacture paper bags, such as are used by grocers, has recently been put in operation in Cincinnati, and turns out from 60,000 to 75,000 bags per day.

—The pursuit in which we cannot ask God's protection must be criminal; the pleasure for which we dare not thank Him, cannot be innocent.

—There is a lamb in Bloomfield which runs about on its front feet with perfect ease—the hind ones having been frozen off. He is fat and his body is so thrown forward as to balance.

—Correspondence has taken place relative to the disposition of Sardinia to receive American physicians into the Sardinian army. The answer is, that the Government thanks the Americans for their sympathy, but cannot avail itself of the offer.

—The Coroner's inquest into the death of Mrs. Cole, in Sussex, N. J., has resulted in verdict of wilful murder against Dr. Wickham and her husband, Sorenson Cole. Wickham has not yet been arrested.

—It is stated that Mr. and Mrs. Chas. Kean have received an offer of £10,000 to make a theatrical tour in the United States, to commence in the ensuing autumn.

—The "cigar steamship," built by the Messrs. Winans in Baltimore as an experiment, sunk at her wharf in consequence of one of her supply pipes being left open accidentally. She will probably be afloat again to-day.

—Gov. General Head of Canada is now on a visit at Montreal. He contemplates visiting the States this summer, making a trip to New-York, Boston and the White Mountains.

—Herr Driesbach, the famous liontamer, notwithstanding the reports that he had been killed on a railroad, is in the enjoyment of the best of health, and says that he has purchased a fine farm in Grant county, Wisconsin, in which he finds more happiness than in a lion's mouth.

—They steal by wholesale at Syracuse. First a canal boat is stolen—then a two story frame house—now a flock of sheep is missing, and last Sunday a Sabbath school was taken! Some years ago the Salt Pointers threatened to steal the State Capitol.

—A woman, not young, having heard of the success of Miss Carstang at St. Louis in recovering $100,000 from her lover, determined to proceed against a suitor of her own. She accordingly consulted a lawyer in Richmond, submitting, as the main evidence of his attachment, the following billet-doux that accompanied a bouquet of flowers:

"Deer———, i send u bi a boy a buckett of floers. They is like my love for u. The nite shaid keep dark. The dog fenil menes i am ure slaive. Rosis red and posis pail.—My love for u shal never fale."

THE BLOOMER WOMEN IN COUNCIL.—Our sisters of the short-petticoat persuasion assembled in solemn conclave at Auburn yesterday. It was our intention to send a reporter to sketch matters and things, but the battle of Magenta and other little trifles so absorbed attention that the time for the meeting of the Bloomers slippled by unnoticed. The Auburn Advertiser says the attendance was fair, embracing all sexes, colors, costumes and conditions in life. The preliminary business only had been gone through with up to the close of the report.—*Rochester Union.*

POST OFFICE ROBBERY.—The Post Office at Clifton Springs, was robbed on Monday night, by burglars who entered the store where the Post Office is kept.—Goods to the value of $200 were stolen from the store, and $60 worth of Post Office stamps. A woman who lived near by, saw two men putting goods into a buggy in the night from the store.

The Emperor of Austria is one of the best linguists in the empire. It is said that he speaks thirteen languages perfectly, and that he is in the Imperial Council the only man who understands all the languages of his vast domain.—*N. Y. Eve. Post.*

He seems to be sadly deficient in *French* however; but it is quite certain that his present able master will put him through a rapid course and turn him out *finished.*

"WHERE DID YOU GET IT"

At Pierson's Mill.

Where can I get the best flour?

At Pierson's Mill.

Does he warrant his flour?

Yes, at Pierson's Mill.

Well, my husband is always changing from one place to another, and I tell him to keep going to the "Mill," for "I have no trouble with "Pierson's best" flour."

At Pierson's Mill.

You will find good and cheap flour. It ain't but a little way down there, and Pierson will deliver flour anywhere on the Corporation. Come Mrs. G. Walk with me

LOCAL MATTERS.

Evans Gift Book Store.

Two of our friends ordered through us two books from D. W. Evans & Co., gift book Store, New-York, one costing $1,25, the other $1; and with the costing $1,25 received an elegant gold pen, valued at $3,00, and with the other, three gold studs valued at $2,50. They were in luck. We are constantly ordering books through this house, and will do so at the solicitation of any persons desiring, without charge.

Fire Meeting.

Batavia, June 23d.

There will be a special meeting of Rescue Engine Co. No. 1, at their Engine Room, on Saturday evening, June 25th.

A full attendance is requested.

MRS. M. M. DENSLOW,

Having returned from New-York with her usual supply of New Millinery Goods, is now ready to offer to the Public an assortment that will vie with the very best ever imported Stock ever before brought into a Batavia market.—True Mrs. D. did not go to *Paris herself*, but bo't her supply at Importing Houses in New York, who have been long in the Trade and who sell to their old customers, who pay, at very reasonable rates, and Mrs. D. being one of that class of customers, is enabled to give her patrons the full benefit of a superb Stock of Goods, purchased at those Houses, where Fashionable Goods are to be had, at very small profits. The Public are invited to call and see, after seeking to be supplied elsewhere, among Importers, and she feels they will not be inclined to go empty away.—

The cash trade is greatly desired—though responsible persons can have credit from four to six months.

She is fully prepared to execute all orders in the line of trade, and to promise [illegible] and with all of the neatness, elegance and fashion, that her reputation has heretofore won her, any work trusted to her care. BY TELEGRAPH.

Washington, June 23.

The opinion among gentlemen connected with the diplomatic corps is, that, although the governments of Europe not engaged the present hostilities are desirous of, and hope for peace, the complications are so great that there is almost an impossibility of preventing a general war. In such an event there is no doubt that Russia will array herself with France.

The sum of $175,000 has been subscribed by the merchants of this city for the purpose of establishing a Southern steamship line. A meeting will soon take place for the permanent organization of the company.

New Orleans, June 23.

The Isthmus was healthy, while the rivers were full and the Transit Route in excellent order.

The ruins of a city have been discovered in Huatulo county. They cover four miles, and embrace stone fortifications and bastions, extending to the sea. Curious and rich antiquities were found including vases and silverings.

Gen. Cobos was at Jalapa with 1,000 men, and it was rumored that he was about invading Tehuantepec by a mountain road to the city of Tehuantepec and Inchitan.

The Puebla had massacred a large party of Indian companies.

Boston, June 23.

The special messenger from Washington, arrived in this city to-day, bringing from the National Executive a document postponing the execution of Cyrus Plummer, the mutineer of the Junior, from Friday June 24 to Friday July 8.

Providence, June 22.

At the election to-day for a member of Congress from the District, Christopher Robinson, the American Republican candidate, was elected. He received about 3,200 votes. Thomas Davis, the Straight Republican candidate, supported also by a portion of the Democrats, received about 2,000 votes.

PAUL ZALA

HAS NOW RE-FITTED IN A VERY splendid manner the SALOON next door east of Mrs. Denslow's Millinery Store, where he will prosecute the above business in all its branches.

He will keep a general assortment of Toilet and Fancy work, and execute to order such candies and ornamental designs as is demanded for parties of pleasure and Festivals generally.

He flatters himself that his mechanical ingenuity, and long experience in his business will enable him to give to all general satisfaction.—Having been to much expense in getting his Establishment in readiness, and making his place attractive—he earnestly solicits a liberal patronage from the town and country.

He will also keep Ice Cream flavored to the taste of the most devout epicures—and hold himself in readiness to entertain his customers with the luxuries of his Saloon; and to make his place a fashionable resort to all who desire delectables.

An oyster's mouth is certainly very ugly, but it sometimes has a more beautiful pearl in it than the handsomest mouth of the loveliest woman.

Turner, of Vincennes, was over at Olney, Ill., at the Clay Court, which is ten miles from the railroad, and fell out with the hack—took his gun—beat the hack an hour and a half on foot—killed 60 prairie-chickens, two dogs—besides kissing three farmers' wives—one of whom told him that she had rather be kissed by a stranger, as he would not stay round and "blab."

THROAT AND HEAD,

As this disease frequently gives rise to Deafness Dr. L. performs operations for Cataract, Cross Eyes, &c.

The following gentlemen are kindly permitted their names to be used as references, respecting Dr. L.'s qualification, reputation, mode of treatment and success:

[illegible]

(From the Utica Morning Herald, Jan. 15, 1859.)

Benjamin T. Walker, of Madison, is the subject of a remarkable cure of disease of the eye. He had been seriously afflicted for six months or more, and the remedies applied benefitted him not at all. He called on Dr. Lighthill, of this city who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

(From the Syracuse Journal, Sept. 19, 1858.)

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of cross-eyes upon the eyes of Miss Julia C. Haskins, of Truxton, Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ should be hailed with respect by those who are necessarily liable to an injury, as it is with joy by those who have experienced similar blessings. The Pride of Opinion.

Every man, woman and child have their opinions. Some are seemingly officious with them, and others rather backward in making much display of them; and still others, with "underground rail-road" style, work them into popular favor, and the originators, themselves forever keep out of sight and are seldom seen confronting, like soldiers, the public attacks, which are often made with a leveling hand against them. These three classes in our opinion are about all who figure much in the world of mind, and who keep thought in echo throughout the land. The first class are great agitators, and extremely fond of manufacturing opinions, and very often are found to have superficiously formed their opinions, yet are tenacious that everybody should adopt them, and give them the full amount of credit for having been the origin of them.

Like the outstanding light-house, they desire to be beacon-lights to the world.—The second class seemingly are modest geniuses, and have more depth of tho't, and their opinions are generally well based before they are uttered, and when expressed are fortified with well adjusted reasons. Such persons are like leven. They leven the whole mass, and keep the mental pulse in an equal flow, giving health to public sentiment, and keep communities in a quiet mode. The third class are serpentile in their movements, and permeate all ranks, classes, and divisions of mind—fermenting in the scale of the great whole, that stir, that whirl of motion, which rouses each individuality to its own level, augmenting a perpetual flow of common sense from every mind, which it, as a cause, may choose to affect.

All these classes pride themselves on the free outflow of opinion. And in our opinion, with the best possible evidence that they can have, viz: the evidences of their own senses, which are criterions to self, and in combination with all conditions, makes the sum total, of minds endless outflow.

Commendable.—The Central Railroad Company have presented $50 to Engine Company No. 2, of Lockport, in recognition of the efficient service rendered by the members of that company in subduing the fire at the Junction. This is a just, generous and commendable act, reflecting credit upon the company.

Forgery and Flight.—For some days past there has been considerable talk on the street regarding the conduct of Evert J. Lansing, who has carried on the Hatting business for some years in our city—lately at 24 Beaver st. He having suddenly left the city on Saturday last, the talk has become more pointed until it has taken the open charge that Mr. Lansing has been guilty of forgery. It appears for some months back he has been procuring discounts on notes purporting to be signed by E. S. Herrick & Son, in amounts varying from $120 to $200, and in the aggregate to from $1500 to $2000, mostly at the Merchant's Bank. On Saturday he procured a discount at the Bank of Albany on one of the notes for $250.

The forgeries were discovered on Tuesday last, when the Messrs. Herricks received a notice of protest from the Merchants' Bank, on a note for some $250, purporting to be drawn by John Murphy in favor of Lansing and endorsed by E. Herrick and Son. Not aware of ever having endorsed such a note, the Bank was visited, the paper and endorsement seen, and the latter at once pronounced a forgery. Subsequently further investigations were had, resulting in the finding of a number of notes, to the amount above, with the forged signature of the Messrs. Herrick as makers.

Another game he has played pretty extensively, was borrowing money from parties and giving them his check on the Merchant's Bank, payable a few days ahead.—When the checks were presented, the parties holding them were told Mr. Lansing had no money on deposit there.—*Albany Statesman.*

—Ex-Gov. H. S. Foot, of Mississippi, married at Nashville, Tenn., on the 14th, the fair widow Smiley, and immediately took the cars for Vicksburg.

No little excitement was created yesterday in the Female Department of the 4th District School, (Miss Milburn) by the entrance in the school-room of a rabid dog, foaming at the mouth, snapping as he ran along the passing, and exhibiting the usual signs of madness in such sort that the greatest alarm was naturally excited in the school room. Mr. John E. Thompson, Principal of the male department, with much presence of mind, restrained some of the larger boys, who courageously volunteered to assail the animal, he fearing that by approaching it unguardedly, some of them might be bitten. Mr. Thompson then undertook the dangerous task of ejecting the dog from the room, and succeeded in so doing without injury to himself or any of the pupils. The dog died in great agony shortly after.—*Washington States.*

Accident at the Falls.—A man named Ferguson, from New Hampshire, was yesterday afternoon passing from the Falls to Suspension Bridge on foot, and when near the landing of the Maid of the Mist, being near the brink of the chasm, was startled suddenly by the whistle of an approaching locomotive, and fell down the bank, a distance of some eighty feet. He remained insensible for some time, but when consciousness returned he was able by his cries to arrest the attention of persons on the opposite side of the river, who rescued him from his position.—*Buf. Ex.*

Destruction is the great work and Death the great workman of war. Only think that at the battle of Magenta there lay dead or gasping for breath on the gory plain, twice as many men as there are in the whole army of the United States—as many men as some of our flourishing inland towns count of inhabitants. Only think of this and speak lightly of the battle field if you can.

It is said that some fifty English gentlemen have determined on chartering a large steamer, for an excursion trip across the Atlantic, and for the purpose of making a tour through the United States. The proposed route, commencing from New York, will take them up the Hudson to Saratoga, thence through the Northern Woods and Lakes of New York, where they are promised some excellent fishing and shooting.

A Board of Regulators has been organized in Green county, Indiana, for the purpose of driving away certain obnoxious persons, against whom no legal evidence of crime or criminal intent can be found. In the printed proceedings of the band six families are warned to leave Indiana, with all their goods and chattles, within four days time.

The Cincinnati Gazette says "a meeting was held at Clifton, near Cincinnati, which, as it is stated, was composed of "gentlemen of all parties," which unanimously nominated Millard Fillmore for President in 1860." As Mr. F. was in Cincinnati at the time, it is inferred this movement has his cognizance and sanction. But we doubt it. Mr. Fillmore is understood not to be an aspirant.

Appleton, in New York, has disposed of his eligible spot on which for eight years he has transacted his business. It commanded the munificent price of $350,000. It cost the owner, eight years ago, the sum of $200,000. Not a bad profit, when it is considered that the site has been one of the best for business that could befound on Broadway.

The Tribune says the government of England is about to pass from the hands of those whose sympathies are with the Austrians into the hands of those whose sympathies are with Napoleon. This may make a decided difference in the programme of the tragedy in Italy, involving a new costs of the characters.

Ex President Pierce was at the Springs of Schwalbach on the 2d instant, and intended soon to leave for Paris. His route from Rome was through Eastern Italy to Ancona, in season to take passage in the last steamer which made the trip passage between that place and Trieste. From that place he ran over to Venice by steamer, reaching Trieste again just before approach of the French blockading squadron. At Vienna he received marked attention from the authorities of Austria, and by invitation attended reviews by the Emperor of the immense bodies of troops then being concentrated at that point.

Some seven or eight months ago, the wife of a prominent citizen of our city broke off a portion of a cambric needle in the index finger of her left hand, which she was unable to extract. No pain being caused by it, the circumstance was soon forgotten. A few days ago feeling a pain in her shoulder, she had it examined, when a sharp point was found protruding from the skin. On its being extracted, it was found to be the identical piece of needle that was lost in her finger eight months before! It had, during that time, coursed the whole length of the lady's arm without causing any pain or inconvenience.—*Cin. Gaz.*

NEWS SUMMARY

—Geo. Christy has been fined $35 in New-York, for contempt of Court in playing as minstrel contrary to his agreement with Wood, his old partner and in violation of an order of the Court restraining him from playing.

—Mr. Dallas's last dispatches state that the defeat of Derby was fully anticipated, but the friends of Palmerston and Russell could not agree as to a proper distribution of power, and therefore it was believed they would not be able to form a new Ministry.

—The editor of the Times (Danbury, Ct.) says he was robbed of $350 one night last week. He'll have hard work to make that story go down.

—The Boston Journal publishes a statement of a man cured of a tape-worm by the meat of two ounces of pumpkin seed bruised in mortar with water, and taken upon an empty stomach.

—The lightning struck a house in Campbellsburg, Ky., and tore to fragments a piano on which a young lady was about to commence playing. The subtile fluid then left the house without doing further damage.

—The Washington states says that private accounts from Kentucky represent that the election of Vice President Breckenridge to the Senate of the United States is almost positively certain to occur.

—The Queen has, it seems, determined to visit Ireland this summer. She was to be treated to a grand review at the Curragh of Kildare some time toward the middle of the month.

—The Empress Eugenie wore, it is said, upon the day of her lord's departure for the field of battle, a black crape bonnet, trimmed with a simple fold of the same material, bound with crimson, and tied with crimson strings. Consequently black crape and crimson is the *mode* in Paris.

—Bishop and Mrs. DeLancy and Mr. W. H. DeLancy, Jr., returned in the Persia—all well.

—The name of the Auburn Daily American has been changed to that of the Auburn Daily Union. Kendrick Vail has become an associate of Wm. J. Kendrick Moses in its publication. B. F. Hall is announced as the senior editor of the paper.

—There is to be a grand military encampment on the 2d, 3d and 4th of July on the battle field of Tippecanoe near Lafayette, Indiana. Col. Henry S. Lane will deliver a military address and Hon. Thomas Corwin an oration.

—Mr. Van Dyck, Superintendent of Public Instruction, has removed from office Philo B. Daily, the Horseheads School Commissioner, whose recent trial for and conviction of assault on a young lady teacher was noticed some time since.

—An English Coroner's jury have recently returned a verdict of manslaughter against an owner of pleasure boats, for letting one of them out in an unsafe condition, by reason of which one of the party hiring it was drowned.

—The Utica Observer says S. P. Tucker of Dry Ridge, Kentucky, who had a rib broken and was otherwise injured by the Sauquoit Bridge disaster on the 11th of May, 1858, has accepted from the New York Central Railroad the sum of $1,300 for damages sustained.

—The N. Y. Evening Post says that about ten o'clock Monday evening, as a driver of the Bull's Head stages was searching in the straw at the bottom of his vehicle for small coin, he found a baby of six months old, which was without a claimant. It was kept over night and then taken to the Almshouse.

—The Cincinnati Gazette contains a lengthy account of the adjustment of an affray that was to come off, as had been heralded, with rifles, between Garett Davis and Capt. Simms, candidates for Congress in Ky. Several letters, numbering up as high as nine, passed—both satisfied—friends satisfied—nobody hurt—great amount of ink instead of blood wasted, and the parties went home.

Hon. Gilbert A. Grant, late representative in the Senate of California, has commenced an action against C. O. Gerberding and James W. Simonton, proprietors of the Evening Bulletin, claiming $50,000 damages for the publication of a libel. The injurious publication consisted of charging Mr. Grant with corruption in reference to his action concerning the Bulkhead bill during the last session of the Legislature.

Burglars in Brockport.—Our neighbors at Brockport are troubled with burglars and thieves just now. The Republic says that three or more dwellings were entered on Wednesday night. From the house of George Gould, a silver watch was taken; from that of Charles Van Epps, $12 from pantaloons' pocket; and from W. Davis, a silk shawl and a lot of silver spoons. Other thefts are mentioned.

—The mysterious lady who challenged Paul Morphy to a private game of chess, which she played with such spirit and perseverance, is discovered to be the wife of a celebrated financier and philanthropist, doing business in the vicinity of the Merchant's Exchange, New-York. The husband is said to be very angry about it.

The Daily Herald.

We very seldom see a man who lives to be the oldest inhabitant of the town of his birth, but there isn't one who hasn't been the youngest.

Of governments that of the mob is the most sanguinary, that of soldiers the most expensive, and that of civilians the most vexatious.

"*Can't* you credit me, Mr. Butcher, for a little meat this morning?" "No, you owe me for that already on your bones."

"*Shall* I paint your cheeks for you, wife?" "No, husband, you have done it often enough by making me blush for you."

Man is embodied paradox. As some set-off against the marvelous things that he has done, we may fairly adduce the monstrous things that he has believed.

When flowers are full of Heaven-descended dews, they always hang their heads; but men hold theirs the higher the more they receive, getting round as they get full.

SUPREME COURT—COUNTY OF GENESEE.—Cilina Wolcott and Emily J. Smith, Executors of William S. Smith, deceased, ag't Jeffrey A. Robison and Harriet A. Robison his wife, John Fuller, Levi Otis, Gad B. DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of the being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other,) by producing an equilibrium of the fluids in the body, the want of which is the only cause of inflammation!

NOTICE TO INVALIDS!! The following forms which the inflammatory fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more, no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt.*

Ask your neighbors about the *New Medical Salt.* If sick, try; if not sick, remember the *New Medical Salt.*

DR. COGGSWELL'S NEW MEDICAL Salt is for sale in Batavia by H. W. Fellows and by all [illegible] druggists wherever the Herald is [illegible]. As it is not a Patent medicine, but the [illegible] of an eminent Physician, for one [illegible] to try the New Medical Salt. [illegible] old testimonial and directions see circular

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

MEDICINES.

Similia Similibus Curantur!

DO NOT make a Drug Shop of your Stomach any longer, but come and be convinced of the sublime realities of

Homœopathy,

by being relieved of all your bodily sufferings and ills.

J. F. BAKER, M. D.,

Would respectfully inform his friends and the public generally that he still continues the practice of HOMŒOPATHY at his old office No. 2½

Cobble Stone Block, up Stairs, Main Street, Batavia, where he can be consulted at all times, when not Professionally engaged.

☞ Saturday of each week is set aside by him for the accommodation of patients at his office. Consultation Free. [tf-235

DR. JOHNSON'S
HERB DISPENSARY!
OFFICE 95 MAIN STREET,
(2d door, Up Stairs, Buffalo, N. Y.)
A NEW, SPEEDY, AND MOST SUCCESSFUL
MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will [illegible] a [illegible] of Death Rates and [illegible] chart of [illegible] which will be to them a true polar star through life.

CONSUMPTION CURED!
DR. CHURCHILL'S DISCOVERY.
Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the [illegible] of this Discovery.—Consumption is no longer to be regarded as an incurable malady.

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever, but also
as Efficacious a Preservative
as Vaccination in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"Out of twenty-two cases in the *third or last* stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *facsimile* signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $2,00, or three bottles for $5,00, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 47 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address

He has re-modled this Saloon,
And made it now a Splendid Room.
It is a place of fine resort
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease retire,
And "Pete" will them, with Bier inspire—
He will them all a dinner, sure,
Or Lunch, that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often *high* he looks, and *tall,*
He will respect to Patrons pay,
Or treat them all in friendly way!
With sparkling Lager by your side,
This world of sin, you would deride
And to your inward soul soon say,
Bright Lager pure is healthy way!

WIT AND HUMOR.

A man in financial difficulties has been compared to an Ostrich in wet weather—he can't find the *dust* to cover his *bill!*

An oyster's mouth is certainly very ugly, but it sometimes has a more beautiful pearl in it than the handsomest mouth of the loveliest woman.

Turner, of Vincennes, was over at Olney, Ill., at the Clay Court, which is ten miles from the railroad, and fell out with the hack—took his gun—beat the hack an hour and a half on foot—killed 60 prairie chickens, two dogs—besides kissing three farmers' wives—one of whom told him that she had rather be kissed by a stranger, as he would not stay round and "blab."

A. BROWER'S

PATENT WATER-PROOF COMPOSITION, for Boots, Shoes, Hose, Harness, and Leather of every description, warranted to make them perfectly Water proof single application if the directions are strictly adhered to. At the same time, it softens the leather, makes it pliable, and thereby prevents its cracking; and it will polish with blacking even better than before the application. It is also a superior article for wagon axles.

ROCHESTER, N. Y., (late of Syracuse, N. Y.,) can be consulted at the

Eagle Hotel, Batavia. May 23d.

Here he will remain 4 days, and will give his personal attention to the treatment of the various Diseases of the

EYE AND EAR

and Catarrhal affections of the

THROAT AND HEAD,

As this disease frequently gives rise to Deafness Dr. L. performs operations for Cataract, Cross Eyes, &c.

The following gentlemen are kindly permitting their names to be used as references, respecting Dr. L.'s qualification, reputation, mode of treatment and success:

E. W. Pease, M. D. H. D. Didama, M. D., A. Mercer, M. D., R. A. Moore, M. [illegible], N. C. Powers, M. D., James Fuller, M. D., C. F. Williston, Mayor of Syracuse; Hon. J. Gardner, Esq., Cashier of the Onondaga Bank; Judge G. B. Middleton, and A. H. Tracy, Esq., T. D. Davis, Esq., A. Benedict, Esq., President of the Onondaga Bank, all of Syracuse.

[From the Utica Morning Herald, Jan. 15, 1858.]

Benjamin F. Walker, of Madison, is the subject of a remarkable cure of disease of the eye. He had been seriously afflicted for six months or more, and the remedies applied benefitted him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 16, 1858.

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of cataracts upon the eyes of Miss Julia C. Hoskins, of Truxton Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with respect by those who are momentarily liable to its injury, as it is with joy by those who have experienced salutary blessings. 300tf

SNOW IN JUNE.—The Hamilton (C. W.) Times of the 23d says that snow fell in the southern part of that city, between twelve and one o'clock, on Tuesday last. The fall was light, but such a phenomenon is of strange occurrence on the 21st of June.

Hon. Alexander C. Walker, formerly a member of the State Legislature, has been nominated by the Dem. Party for Congress, to fill the place of Mr. Stephens, of Georgia, who has retired from Congressional life.

The Detroit Tribune is informed by a gentleman from St. Clair, that Deputy Marshal Tyler, now in jail at that place, got into a dispute with another prisoner in the jail, a day or two since, which ended in blows, from which contest the Deputy came out second best. The efforts of the jailer, we are told, for a time were of no avail to separate the combatants, the other prisoner appearing to hold a strong grudge against Tyler. Tyler it will be recollected, was arrested for shooting in Canadian waters Captain Jones, of the schooner Concord.

A careful investigation has developed these facts. There are at present in London (which contains nearly three millions of inhabitants) 1762 wives who have left their husbands to follow their lovers; 2371 husbands who have run away from their wives; 4120 couples living apart by consent; 191,023 couples living under the same roof in a state of warfare; 162,320 couples hating each other cordially, but masking, in public, their ferocious hatred under a feigned politeness; 510,132 couples living in a state of indifference to each other; 1102 couples reputed happy by the world, but who are not so in reality; 135 couples happy in comparison with others more unhappy; 7 couples really and truly happy.

The Chicago papers give an account of the elopement from her husband, and from Fort des Moines, of a remarkably handsome and dashing young lady, who belongs to a wealthy family in Boston. She was married against her will to a middle aged Western man, and quite in a hurry, as her conduct caused her friends to suspect that she was too familiar with an unprincipled sporting man, well known as the keeper of a faro bank and the owner of a trotting horse—a marriage with whom they wished to avert at any price. She was wicked enough to take with her, probably induced by the "sporting man," her guilty partner, $272 in cash, and her marriage certificate. The middle aged gentleman is after them.

The number of dead letters annually returned to the Department at Washington, is about 2,250,000. About 20,000 annually are found to contain money and other valuables, and are, as soon as found registered and returned to the owners.—The aggregate contents of letters thus annually restored to the owners is about $60,000 in money, and about $3,000 in drafts, checks, notes and other valuables, as computed at their nominal value.

In the United States Circuit Court at Cincinnati Thursday, Adam Oerbaugh, the Postmaster at Donaldsonville, Highland county, Ohio, arrested some time since for embezzling from the office two letters, one containing one dollar and the other ten dollars, was put on trial. He withdrew his plea of not guilty and made that of guilty, and was sentenced to pay a fine of ten dollars and to a term of ten years in the Penitentiary. This should prove a warning to dishonest Postmasters.

The coffee-house and reading-room just established in No. 25 New-Bowery, New York, to reform "the boys" of the 4th Ward, was formally opened Thursday night by addresses from Mayor Tiemann, (who presided,) the Rev. Henry Ward Beecher, Orville Gardner, to whom the superintendence of the rooms has been assigned, and several others. The room was crowded.

A man named Gaines, residing at Sturgis, Ind., lost his life by his rashness, a few days ago—some of his friends having said that since oil of wintergreen, which they had, was too strong for use, Gaines maintained the opposite, and, to prove that he was right, drank two tablespoonfuls, which soon produced vomiting, and in a few hours death.

LATER FROM CALIFORNIA

Arrival of the Moses Taylor.

NEW-YORK, June 26.

The steamship Moses Taylor arrived at 12:30 P. M., from aspinwall on the 19th with California mails to the 6th. She has 600 passengers and $2,041,000 in specie.

The Golden Age took from San Francisco $2,630,000 in treasure, of which $320,000 was for England, and $273,000 in specie for Acapulco.

The revolution in Chili is perfectly suppressed. Frequent outrages are reported by bands of robbers throughout the country.

The leader of the revolution in the North Senor Gallo, was at Lima. Don Bartalome Riobo had been sentenced to death, and two others to ten days banishment.

The Austrian frigate Novara had left Valparaiso for Gibraltar.

Bolivia and Peru were in a peaceful condition.

The U. S. frigates Merriman and Saranac were at Callao.

The blockade of the Equadorian ports, by the Peruvian squadron, continues.

The English ship Indian Queen, Brewer, from Melbourne for Liverpool, with 41 passengers, struck an iceberg April 1st. Capt. Brewer, first mate, 13 men and two passengers, got into a life boat and came alongside a quarter of an hour afterwards, and finding the ship making no water, attempted to get on board, but, losing their oars when too far off to catch a rope, drifted off and were never scene after. The ship in a dismantled condition, but all on board well, reached Valparaiso May 10th.

SALVADOR

An attempt had been made to assassinate Gen. Hermandez, Governor of the Department of Cuscatlan, who was severely but not mortally wounded. The would be assassin was shot.

War seems inevitable between Salvador and Honduras, but it was thought Guatamala would interfere to preserve peace.

NICARAGUA

Gen. Lama had sent copies of General Cass' dispatches to the Government demanding acceptance to the Cass Yrissari Treaty Ratification of the Mosquito Convention, Re-instillation of the Wright Contract, Transite-holders Indemnification for the seizure of boats and satisfaction and apology to the United States, for the insult of having offered them the Ouley Treaty.

The substance of the Nicaraguan reply is as follows:

Nicaragua, as a sovereign power, claims the right to accept or reject a treaty; she had made previously three treaties with the United States, which were ratified by her Congress and rejected at Washington; that on this one she only requires amendments, and that after the Congress considered the treaty last year, and it had been sent to Gen. Jerez, in Washington, who had full power to remedy it. The Cabinet though agreeing to certain modifications, did not make them; nor was the United States Minister in Nicaragua authorized to do so. Furthermore, that when Sir Gore Ousley concluded his treaty, which was the Cass-Yrissari treaty, with the re-modified amendments, according to the American view, Gen. Lamar made the Zeledon treaty, with the favorable amendments as to England and the United States of Sir Gore Ousley.

The Government of Nicaragua cannot see any insult to the United States in this. As to the Mosquito treaty, it has not been rejected, and will probably be accepted. Nicaragua claims the return of the Mosquito territory unconditionally, and refuses to acknowledge a King whom neither she nor the United States ever admitted, and she prefers to let the matter remain statu quo than act against her ally. In regard to the seizure of the boats, Nicaragua justifies her conduct.

CALIFORNIA.

There is no news of interest from California or Oregon.

PITTSBURG, June 25

About 9 o'clock last night Richard Jones killed his wife by stabbing her several times and shooting her, mutilating her in a shocking manner. He immediately surrendered himself to the police, alledging that he had committed the deed while she was in the act of adultery with a butcher named Mentger, who was also shot and had fallen into the river, the affair having taken place at the upper Mongahela bridge. It was rumored that Mentger was seen alive this morning and well, but this needs confirmation. Jones' wife had been a notorious prostitute named Mary Delana and had served a two years term in the State Prison. Jones has highly respectable connections.

To obviate the delay in the delivery of American letters in England, the Postmaster General has made arrangements for sorting the letters on board each steamer on her homeward trip, so that they will be ready for delivery the moment the mails are landed. This plan has been found to work admirably on the Peninsular and Oriental steamers.

NEWS SUMMARY

—The Newburyport Herald says that an individual in that city drank three quarts of milk the other evening, without stopping and after taking a chance to breathe, imbibed another quart!

—The Empress has requested all the ladies of her household to employ themselves in making lint for the army, and the Prefect of paris appeals to all the inhabitants for supplies of old linen and bandages for the same purpose.

—The number of emigrants arriving at the port of New York since the first of January is 35,334—an excess of 4,884 over the same period of last year.

—The Wisconsin Methodist Conference has expelled Rev. J. W. Wood for what they call scriptural adultery, which consists in marrying a second wife while the first was living, from whom he was legally divorced, but not for the reason for which the Bible allows divorce.

—A few days since a boy in Philadelphia found a sealed tin canister floating on the water, which on being opened, was found to contain $8,000 in bills. The money is supposed to have been stolen, and placed in the side of a culvert emptying into the creek, and that the tide washed it off.

The Ginseng excitement exists in Wisconsin as well as in Minnesota. It is estimated that $100,000 will be paid to the inhabitants of Bad Ax and Richland counties, Wis., this season for the root that will be gathered.

The greatest instance of impudence on record, is that of a Yankee, who, in an Italian city, stoped a religous procession in order to light his cigar from one of the holy candles.

A child five years old was left alone in a house by her mother, while the latter went out to make some purchases, on Thursday last, at Galena, and getting at some matches, the little one set clothes on fire and was burned to death.

The Red Bank (N. J.) Standard says that the peach trees in that section are dying by hundreds. The cause is attributed by some to the excessive cold weather during the winter, as a great many trees were frozen so badly that the bark bursted on them.

LOCAL MATTERS.

Nearly A Runaway.—This morning as two gentlemen from Le Roy were driving along Main street, a piece of paper blew against their horse's hind legs, which caused him to kick, thereby catching one of his feet over the thill, which frightened him so much that he continued to kick until the dash-board was stove to pieces and the wagon otherwise damaged. Only for the driver being a good horseman and plucky it would have been a complete runaway.

Regulator.

We notice to-day that Bierce is paying 16 cts per pound for good butter and has reduced still lower the price of all his Summer Goods. Lawns worth 12½c to 8c; Silks worth 75c to 50c. Embroidery setts worth $4.00 to $2.00; Challies worth 25c to 12½; Kid Gloves worth 87½c to 50; Linen worth 50 to 25c. Miles always undersells the other Merchants. *

Closing Up.

S. H. Russell offers his entire stock of Dry Goods and Groceries *at cost*. Being desirous to close the concern, he offers good goods at this immense sacrifice. Every one should improve the chance, and let the crowd rush to Russell's and obtain Goods that are Goods. See adv.

DIED.

Barnes—In this village on the 25th inst., Mr. LEVI BARNES, Esq.

Mr. B. was an old resident and for a long time one of the Overseers of the poor of the Town. He was a kind hearted and inoffensive man, exemplary in his deportment, a member of the Methodist church, and has gone the way of all the living, a worthy family and many friends to mourn his loss. He had been for a long time under the influence of impaired health and has suffered much, which he seemed to endure without the least murmur, but has now left us for, as we hope, that better world where we are promised we shall be at rest from our labors.

MRS. M. M. DENSLOW,

Having returned from New-York with her usual supply of New Millinery Goods, is now ready to offer to the Public an assortment that will vie with the very best *self-imported* Stock ever before brought into a Batavia market.—True Mrs. D. *did not go to Paris herself*, but got her supply at Importing Houses in New York, who have been long in the Trade and who sell to their old customers who pay, at very reasonable rates, and Mrs. D. being one of that class of customers, is enabled to give her patrons the full benefit of a superb Stock of Goods, purchased at those Houses, where Fashionable Goods are to be had, at very small profits. The Public are invited to call and see, after seeking to be supplied elsewhere, among *Importers*, and she feels they will not be inclined to go empty away.—The cash trade is greatly desired—though responsible persons can have credit from four to six months.

She is fully prepared to execute all orders in the line of trade, and to prosecute with dispatch and with all of the neatness, elegance and fashion, that her reputation has heretofore won her, any work trusted to her care. Her uniform prices are also made to suit the times and in favor of the buyer. 255-tw

Latest News.
BY TELEGRAPH.

Arrival of the Steamer Bremen.
Napoleon to Return to France.

New York, June 26.

The steamship Bremen from Breman via Southampton 14th inst., arrived this evening.

The British Ministry have resigned.

Lord Granville was summoned, but was not able to form a government.

Lord Palmerston agreed to serve under him but Lord Russell would not.

Lord Palmerston then had an interview with the Queen, and had undertaken to form a government with the co-operation of Lord John Russell, who accepts the Foreign office.

The news from the seat of war is brief.

It was rumored that Napoleon is about to return to Frace, and that Pellisier would be Commander-in-Chief of the Army.

The Austrians had evacuated Piecenses after blowing up the Citadel and fortifications. Their provisions, amunition and cannon were abandoned.

Pavia and Lodi had been evacuated, and the Austrians quitted Bologna on the 11th for Modena.

There had been a demonstration at Bologna in honor of the National Corps.

The Austrians had also evacuated Ferrara and Ancona, and indeed all the States of the Church.

Garibaldi had occupied Bergamo, and repulsed the corpse of 1500 Austrians who were marching against —— from Brescia.

The French army had passed the Adda without striking a blow.

Prince Metternich died on the 11th.

The Russian government had concluded a convention with the Rothschilds by which the latter are to raise any future loans the former may require in London.

The French fleet in the Adriatic had received heavy reinforcements, and it was reported that a landing of troops would take place at Venice and Trieste.

The Austrian head quarters were at Mantua.

Five thousand Austrian prisoners had arrived at Marseilles and Toulon.

There had been a demonstration in favor of the French government and general illuminations at Rome.

The People of Parma have asked that troops may be sent into their country.

From the London Times, 14th.

Amid the thousand and one rumors that have been chasing one another since it fell to Lord Palmerston to re-construct a Whig Cabinet, one thing alone as far as we know, is definitely settled. Lord John Russell has accepted the Foreign office. This places beyond any doubt, if doubt there could be, the policy of England on the Italian question.

Lord John Russell has ever been known as an ardent friend of the Italian race, Italian freedom and Italian unity. As these feelings have been generally expressed out of office, or where they had not to stand any practical test, there has been as much enthusiasm as was compatible with Lord John's singularly calm and rational nature. With Lord Palmerston's avowed belief that, had England stood by France in her negotiations with Austria, she could have prevented the war, and that even now we must look to the Anglo Gallic alliance for the satisfactory settlement of Italy, Lord John Russell will have as much scope and authority in his office as if he stood alone.

It is difficult to imagine a disagreement between the two statesmen. Both wish Austria to admit the fact of her defeat, her ascertained inferiority, and the incurable disadvantages of her position south of the Alps; both are of the opinion that she will consult her own greatness better by relinquishing territory which costs an immense army, and still greater odium; both see in France a better agent for the re-organization of Italy, and for the creation of that federal union which is all the unity possible under existing circumstances. Were the question to be confined to the present state of affairs, the policy to be pursued might be stated in a sentence—Austria is flying homewards—France and Sardinia are pursuing her across the Adda, free corps are molesting in the North—Venice is to be attacked immediately on the East—and on the South the whole Penisula is rising against her and expelling her allies and her garisons.—The only advice to be given is that Austria should accommodate herself to these painful circumstances, just as England admitted the independence of the United States, and France has twice submitted to the dictation of invaders. There can be no glory gained by a stubborn, and even a victorious, resistance to the just claims of a great nation, and it is unwise to wage a war when military success incurs a moral approbrium. No doubt this and similar considerations will be urged upon Austria by the two ministers who have undertaken to divide the responsibility of our foreign relations.

The Daily News of the 14th says that it believes Lord Elgin had been offered the Se Colonies.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT [illegible] of its being a remedy for all ills; has control over but one, ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS! The following diseases which the established facts assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more, no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt.*

Ask your neighbors about the *New Medical Salt*. If sick, try; if not sick, remember the *New Medical Salt*.

DR. COGGSWELL'S NEW MEDICAL Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is [illegible]. As it is not a Patent Medicine, but the [illegible] of an eminent Physician, no one [illegible] fail to try the New Medical Salt. [illegible] and testimonial and directions see circular

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten."

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhœa, Nervous Debility, Marasmus or Wasting Consumption

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent, in community, dooming at least 100,000 of both sexes, annually, to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or consumption, wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat, shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body, pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhœa or Fluor Albus, &c. Likewise, Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from unchecked [illegible] and chronic inflammation [illegible] of [illegible], hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this [illegible] with the most astonishing success. The treatment adopted by the [illegible] is new, it is based upon scientific [illegible] Diseases [illegible] and [illegible] is cured. CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new remedies—the HYPOPHOSPHITES OF LIME AND OF SODA—remove all remaining doubt as to the legitimate value of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already received this treatment with almost incredible success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am certain that the HYPOPHOSPHITES should be brought, as speedily as possible into universal use, as I know that they will prove [illegible]

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever, but also
as Effectual a Preservative
as Vaccination is in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the past year, *eight have completely recovered*, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of Nerve known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile* signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $5.00, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 12 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S. on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

A NEW LAGER BIER

SALOON!

BY PETER WORTH,

No. 2 Cary Block, Batavia.

"Pete" would inform his friends around
He's took the Stand—on Gardner's ground—
In No. 2 of Cary's Block,
Where Lager's sold, of purest stock!
He has re-modled this Saloon,
And made it now a splendid Room,
It is a place of fine resort
Where Lager's drank, of sparkling sort;
Here Patrons [illegible], with ease retire,
And "Pete" will them, with Bier inspire—
Or sell them all a dinner, sure,
Or *Lunch* that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often *high* he looks, and *tall,*
He will respect, to Patrons pay,
Or treat them all in friendly way!
With sparkling Lager by your side,
This world of sin, you would deride
And in your inmost soul *must* say,
Bright Lager puts in healthy way!

"*Seth*, how sheepish you look." "Sheepish! I guess you would look sheepish too if you'd lived on nothing but mutton for a week as I have."

A runaway thief having applied to a blacksmith for work, the latter showing him some handcuffs asked if he understood such kind of work. "Why yes sir," said the other, "I guess I've had a hand in 'em afore."

A. BROWER'S

PATENT WATER-PROOF COMPOSITION, for Boots, Shoes, Hose, Harness, and Leather of every description; warranted to make them perfectly Water-proof single application if the directions are strictly adhered to. At the same time, it softens the leather; makes it pliable, and thereby prevents its cracking; and it will polish with blacking even better than before the application. It is also a superior article for wagon hubs.

DR. LIGHTHILL,

Oculist and Aurist

ROCHESTER, N. Y., (late of Syracuse, N. Y.) can be consulted at the

Eagle Hotel, Batavia, May 23d.

Here he will remain 6 days, and will give his personal attention to the treatment of the various Diseases of the

EYE AND EAR

and Catarrhal affections of the

THROAT AND HEAD,

As this disease frequently gives rise to Deafness Dr. L. performs operations for Cataract, Cross Eyes, &c.

The following gentlemen are kindly permitted their names to be used as references, regarding Dr. L.'s qualification, reputation, mode of treatment and success:

R. W. Pease, M. D. H. D. Didama, M. D., A. Mercer, M. D., D. A. Moore, M. D., N. C. Powers, M. D., James Fuller, M. D., C. F. Williston, Mayor of Syracuse; Geo. J. Gardner, Esq., Cashier of the Onondaga Bank; Judge G. B. Middleton, and A. H. Tinsley, Esq., T. D. Davis, Esq., A. Benedict, Esq., President of the Onondaga Bank, all of Syracuse.

[From the Utica Morning Herald, Jan. 15, 1858.]

Benjamin F. Walker, of Madison, is the subject of a remarkable cure of disease of the eyes. He had been seriously afflicted for six months or more, and the remedies applied benefited him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 10, 1858.

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of cross-eyes upon the eyes of Miss Julia C. Haskins, of Truxton Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with respect by those who are momentarily liable to its injury, as it is with joy by those who have experienced salutary blessings. 268tf

THE CROPS WEST.—We saw Mr. E. PARKS, of Le Roy, on Saturday last, on his return from a tour through Kentucky, Indiana, and portions of Ohio and Illinois, who informed us that the reports concerning the damage of the crops by frost in those States have been greatly exagerated. He told us that the wheat and corn crops especially are remarkably forward and abundant, not having been injured to an extent sufficient to be felt by the agriculturists, except in very limited districts.—Having made special enquiries of many persons from all parts of Ohio, and many parts of Illinois, that he did not visit; he found invariably that no damage had been done in the vicinity of those of whom he sought information, all referring to some other district of which they only knew by rumor.

He learned also that there were some heavy holders of last years crops, and that many of the reports have been circulated by these speculators with a view to sell and realize large prices. Mr. Parks is of the opinion that the cultivated fields in the west never covered so large an area as at this time, and that an abundant yield was never more promising, and the prosperity of the country never better than now.

Supreme Court.

Mutual stock Below Par.

Judge GREEN yesterday refused to try the Genesee Mutual Insurance Co's causes of which there are thirty or forty upon the calendar, upon the ground that he might possibly have an interest in the event, as he had been notified that it was claimed he was a member of the Company for the reason that about nine years since he had a policy which he supposed was surrendered some years since, but by mistake it seems it was not.

So another ten dollars term fees follows for the defendants to pay in the event they are beat. The Company does not pay any thing and there is no law to make them.

Circuit Court and Court of Oyer and Terminer, held at Batavia, Monday 27th day of June, 1859.

PRESENT.—Hon. JUSTICE GREEN.

WM. H. DAVIS, } Ses. Justices.
WM. BARRETT, }

H. W. HASCALL, Clerk.

Eight Constables were announced and answered to their names.

Twenty-three gentlemen summoned answered to their names and were sworn as Grand Jurors.

AUSTIN E. WARNER, Foreman.

The People vs Polly Frish. Indictment for murder. On motion of District Att'y, Court ordered 50 Talismen to be summoned in this case.

Rufus J. Hunn vs Chester Olmstead.—Jury returned with verdict for Pl'ff—ordered that Def't have 20 days to make and serve a bill of exceptions and all proceedings in the meantime be stayed on part of Pl'ff.

John Lent vs Robert McVean. Jury found verdict for Pl'ff. of $195.36. Ordered that 30 days be given Def't to make and serve bill of exceptions.

Isaac Smith vs Eliza P. Ellicott. Ordered trial. Jury returned a verdict for Pl'ff of $120.46.

A. F. Burrell vs M. W. Hay. Ordered trial. Jury waived and cause tried by Court. Court ordered judgment against the Def't for $101 75.

The village of Batavia vs M. G. Soper. Ordered trial—case now on.

HOBART COLLEGE COMMENCEMENT.—On Wednesday the 29th inst. U. States Senator, James R. Doolittle will deliver an Oration before the Alumni of Hobart College at Geneva. The commencement exercises will be held on Thursday the 30th of June. The many Friends of Senator Doolittle will have a fine opportunity to hear him upon this occasion.

Wonderful Feat by M. Blondin.

All the reports we gather of M. Blondin, the rope walker, and those from men of integrity who have seen his performances, go to confirm the impression, that he is a man with the agility and daring of a squirrel. The railroad men and others who are at the Falls every day, are now prepared to believe that he can do anything on a rope that he promises to do.—His performances yesterday and the day before when his rope was being drawn across the river, were quite equal to crossing, although he has reserved that feat for the whole public to witness. Before the rope had been stayed by the guys, M. Blondin ran out upon it some two hundred feet from one bank and there opened and drank a bottle of ginger pop. Suddenly he dropped from his erect position, and was seen hanging by his feet, head downward, over the great chasm. He amused the spectators by running down some small guy ropes to trees on the river bank, and then he would climb the limbs of the trees, frequently going up and down feet foremost.

M. Blondin announces that on Thursday of next week he will cross the Niagara on his rope, which has been suspended, and will be ready for use by that time.—He will then return with a sack drawn over his head, and finally he will recross with a pack upon his shoulders pushing a wheelbarrow—the latter being his crowning feat for the day. We confess that we believe M. Blondin will do all that he has promised, and perhaps more. It is now pretty much settled that this wonderful individual is to remain at the Falls through the pleasure season, making frequent passages of the river on the rope to entertain visitors. He will rival the great cataract as an object of interest for those who may go to the Falls this summer.—*Rochester Union, of Saturday.*

Murder in Lancaster.

We are indebted to the Telegraph operator of the New York and Line for the following horrid tale:

Mr James Nichols and Mr. Blackman were each about sixty years of age, with families, being within forty rods of each other.—Their farms adjoining—they were both accounted to be respectable citizens. They have had much trouble in their school districts in regard to the management of their school, some of the tax payers of that district, had resolved to refuse to pay their district and the legality of the assessment. The collector was allowed to levy upon property which was ascertained to be sold to-day at 1 o'clock.—Some half dozen neighbors were congregated at the house of sale at the appointed place, some two miles west of the village of Lancaster, on the plank road. When a sharp talk arose between Nichols and those of a different opinion. Some one who observed the outline of a pistol in his pocket, accused him of being armed, whereupon he drew a revolver from his pocket, and said, yes I have a pistol, now come on, I defy you. One neighbor said, you foolish old fellow put up your pistol, ain't you ashamed.

About this time Mr. Blackman walked directly towards Nichols, face to face, until they came within reach of each of each other, when Blackman raised both his hands towards Nichols in sort of a grabbing manner, whereupon Nichols fired, the ball passing near and under the heart of Blackman, into his stomach.

The next shot took effect in the groin. Mr. B. then clinched and threw Nichols upon the ground, falling upon him.

Mr. B. rolled back upon the ground and exclaimed, "I am dying," while Nichols was in the act of firing the third shot.—Mr. Atwood clinched him, and snatched the revolver out of his hand, while the spectators were providing for the dying man.

Mr. Nichols ran to his wagon, which was near, and jumping into it, put his horse upon the road for home. Mr. B. was carried into the nearest house, where he died in an hour and a half.

Upon search being made upon Nichols' premises, he was not to be found, but it is understood that some person saw him making for the woods south of his house. Perhaps he started for the house of his brother, who lives in the town of Aurora.—*Buff. Express.*

GRAPE CROP OF OHIO.—An experienced vintner, who has one of the best vineyards in Hamilton county, Ohio, says that four hundred gallons of wine per acre may be safely depended upon this year, as the product of the grape crop. The fermented juice of the grape readily commands, when new, an average of $1 25 per gallon. At the above rate the crop will yield $500 per acre—about the most profitable crop that is produced in this country.

The California mare Princess, that the people are beginning to suspect is the fastest animal afloat, was raised by A. M. Billings, of Clairmont, N. H., and sold by him to Mr. GAGE of the Tremont House, Chicago, whence she went to California and became famous. She was known by the name of "Topsey." Mr. TEASLE, her present owner, gave $5,000.

NEWS SUMMARY

Lewis C. Levin, the representative of Americanism in Philadelphia, is now a confirmed lunatic.

One day last week more than eighty vessels of one kind and another passed Detroit, as was ascertained by actual count. This is said to be the largest number that ever passed in one day.

The Governor of Connecticut has vetoed a bill chartering a Pacific Railroad Company. He thinks that such charters should be obtained from the States which the road will traverse, or from the United States.

Advices from Arizona say another revolution has broken out in Sonora, and the Indians had taken the field in favor of Gandara and the Church party.

—The Tribune says: "We have trustworthy advices to the effect that there is promise of excellent crops in Europe; and that in spite of the war, there will be no unusual demand for American breadstuffs in that part of the world."

—Archbishop Hughes has written an article for the Metropolitan Record, in which he upholds Austria and condemns the Allies. Prediction is made that in the end the cause of conservatism (Austrian conservatism!) will succeed, and the revolutionists be chastised.

—At an exhibition of fireworks at Charlestown, Mass., on Saturday evening, on Bunker Hill, Mrs. Oliver Frost was struck by a rocket stick and fatally injured.

The Legislature of Connecticut have passed a bill taxing Savings Banks one fourth of one per cent, on their deposits. Also, a bill authorizing Savings Banks to loan one-half (instead of one-third) of the deposits on personal security; but only ten per cent. can be loaned on bank stock.

The lightning struck a house in Campbellsburg, Ky., and tore to fragments a piano on which a young lady was about to commence playing. The subtile fluid then left the house without doing further damage.

The Charleston News declares that if the Charleston Convention hesitates about a slave code, and especially if Douglas is in danger of nomination, the southern delegates will secede, and nominate for themselves.

C. B. Ivy killed his sister-in-law nearly twenty-five years ago, in Roane county, East Tennessee was tried and sentenced to imprisonment for life. Soon after being incarcerated he made his escape, and went to Arkansas, and established himself high up on the waters of the Arkansas river, where he became a leading citizen, living undisturbed and enjoying the confidence of the community to such an extent as to secure his election to offices of high trust. He also became a member of the Methodist Church, and to all appearances, led a consistent christian life. About two weeks ago, some persons who were acquainted with the crime of his former life, discovered him and procured his arrest, and he was brought up on the steamer Kate Frisbee to Memphis last Wednesday, and will be conveyed to the scene of his crime to suffer the penalty adjudged as punishment for the same.

Strawberry Festival.

A Strawberry Festival will be held in behalf of the Methodist Episcopal Church, at Ellicott Hall in this village, on the evening of Thursday the 30th day of June, and all are cordially invited to attend.—The object of this Festival is to give such as are disposed an opportunity to aid the Church in laying down a stone side-walk, in front of their Church on Jackson street. As this is the first call of the kind made by this Church and the object is so praiseworthy, that we hope and trust our citizens will manifest their usual liberality and come up and contribute to this long desired and necessary public improvement.

DANGER OF A GENERAL WAR!

Farther Point, June 27.

The steamship Nova Scotian from Liverpool Wednesday the 15th, passed this point at half-past 4 o'clock this afternoon on her way to Quebec.

A Turin dispatch says that after the retreat of the Austrians from Bologna, the Cardinal Legate departed, and the municipality proclaimed Victor Emanuel dictator.

The King of Sardinia issued an order of the day, extolling Garibaldi, and awarding him a gold medal of the military order.

The official Weiner Yeitung says, the Emperor of Austria will forthwith assume the commander-in-chief, and had ordered a new position for his army, which would be taken up in the best manner.

The Austrians were evacuating Modena and were in full retreat towards the river Oglio.

Large re-inforcements were about to leave France for the army.

Napoleon, in the 12th, removed his head quarters to Gorgonzoll.

Paris, Friday night June 12.—In the afternoon the Emperor superintended the throwing of bridges across the Adda, and as soon as they were completed the army began the movement, which would be concluded yesterday.

GREAT BRITAIN

Lord Palmerston was making good progress in the construction of a Cabinet.—The authentic list was expected to be made public on the day the Nova Scotian sailed. Rumor gives the Earl of Elgin the Colonial Secretaryship, Mr. Cobden the Presidency for the Board of Trade, and Mr. Gladstone the Secretaryship for India.

The Daily News says no authorized statement of the compilation of the new government can possibly appear before Friday.

The Herald, in publishing a telegram, says that six Prussians *corps de armie* are mobilized, and says of course this means war. Palmerston had evidently induced her to take this decisive step and join Austria.

English people will now perceive the truth of what we have before asserted, that Derby's government alone preserved Europe from a general war.

The Advertiser says after Russell accepted the Foreign office, any office he might prefer was offered Sir John Graham who declined from inferior health, but assured Palmerston that he cordially supported the Ministry.

PRUSSIA

An order had been made for the mobilization of the Prussian army.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the usual loss of blood and strength, it effectually cures inflammatory diseases, (as others do) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less *fever or pain, are as easily subdued by the New Medical Salt, as fire is extinguished by water,* to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more, no less—equalizes the fluids by *removing from the system* all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt.*

Ask your neighbors about the *New Medical Salt.* If sick, try it; if not sick, remember the *New Medical Salt.*

DR. COGGSWELL'S New Medical Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is [illegible]. As it is not a Patent medicine, but the prescription of an eminent Physician, no one [illegible] fail to try the New Medical Salt. [illegible] all testimonial and directions see circular.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

HERB DISPENSARY!

OFFICE 93 MAIN STREET,

(Corner, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL

MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or emaciation wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhœa or Fleur Albus, &c. Likewise Epilepsy, Hysteria and Nervous spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense. In any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for free a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

CONSUMPTION CURED!
DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES
of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of *pulmonary disease* by Dr. Churchill's new treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the inestimable value of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already accepted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever, but also
as Effectual a Preservative
as Vaccination is in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of Vital force known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile signature.*

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $2.00, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 49 John street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

As this disease frequently gives rise to Deafness Dr. L. performs operations for Cataract, Cross Eyes, &c.

The following gentlemen are kindly permitted their names to be used as reference, respecting Dr. L.'s qualification, reputation, mode of treatment and success:

[illegible] Pease, M. D.; [illegible] D. Dolson, M. D.; A. [illegible], M. D.; [illegible]; E. C. Powers, M. D.; James Foster, M. D.; C. F. Williston, Mayor of Syracuse; Geo. J. Gardner, Esq., Cashier of the Onondaga Bank; Judge [illegible]; [illegible], and [illegible] Esq., T. D. Davis, Esq., A. [illegible], Esq., President of the Onondaga Bank, all of Syracuse.

[From the Utica Morning Herald, Jan. 15, 1858.]

Benjamin F. Walker, of Madison, is the subject of a remarkable cure of disease of the eye. He had been seriously afflicted for six months or more, and the remedies applied benefited him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 10, 1858.]

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of [illegible] upon the eyes of Miss Julia C. Hawkins, of [illegible], Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with respect by those who are [illegible] liable to its injury, as it is with joy by those who have experienced salutary blessings. SENATOR DOUGLAS AND THE RIGHTS OF NATURALIZED CITIZENS.—A gentleman of this city, says the Cincinnati Times, inquires the position of the Illinois Senator in regard to the duty of our government to protect naturalized citizens traveling in European countries. We can assure our correspondent from the words of Mr. Douglas himself, that he is distinctly opposed to the doctrine enunciated in the letter of Gen. Cass; that he is in favor of protecting in every land, the adopted as well as the citizen. In support of his opinions, he instanced several remarkable cases in which the most powerful nations of Europe have asserted and recognized, among themselves the absolute right of expatriation.

EARLY BARLEY HARVEST.—The Rochester Daily Union states that John Park, of Gates, Monroe Co., commenced the harvest of his winter barley day before yesterday morning. He has shown the Editor of the Union a sample which is very fine, and he informs us that the yield will be a good one.

The steamer Geo. Lambert, bound up the Missouri with a valuable cargo, took fire four miles above St. Louis last night and was burned to the water's edge. The boat and cargo were a total loss. The boat was valued at 28,000 and was insured for $15,000. The cargo was insured. No lives lost.

Mrs. Emma Lodge has been arrested in Brooklyn on a charge of malpractice in causing the death of Mrs. Kenny, at No. 14 Rapelyea street. The case will be investigated.

A Washington dispatch says that under instructions of Secretary Cobb, Mr. Guthrie, the agent of the Treasury Department has investigated the expenditures of the New York Custom House, and recommends the dismissal of 200 incumbents as superfluous. The proposed changes are intended to be made on the 1st of July.

Blondin passes the chasm to-morrow, between four of five o'clock P. M., or perish in the attempt. The Maid of the Mist is to take position underneath the rope and serve Mons. Blondin with what beverage he desires during the performance.

The receipts of the Treasury last week were one million two hundred thousand dollars. The balance on hand subject to draft is three millions and forty-six thousand.

DISTRESSING ACCIDENT.—Friday, a widow lady named Robertson, living with her brother Richard Lester, four miles north in Rushville, Ill., was accidentally shot with a rifle ball which struck her in or under her left shoulder. A physician was called, but the ball could not be found; the patient suffered extremely, and fainted away several times. The gun was discharged by a neighbor, who had just stepped out of his door yard and fired at a bird sitting on a fence in range with the house. What adds to the severity of this affliction, is the fact that Mrs. Robertson's husband was killed in Michigan last winter, by the falling of a tree, leaving five young children, and yet further increased by the circumstances that she was shortly to become a mother. Mrs. Robertson was preparing to move into Rushville on the day following the accident.

The Niagara Falls Gazette says a gentleman from La belle France was relieved of twenty dollars by the "ball game" on Monday last. He was promenading around promiscuously through the Ferry ground, when a pair of "gentlemen" made his acquaintance and soon prevailed on him to loan them $40, taking a $200 check for security. Before parting with his new made friends it seems he began to doubt and his doubts rapidly became so strong that he collared one of the fellows and forced him to disgorge his half of the profits of the speculation. In the meantime the thief disappeared.

There was a terrible hail storm at Hudson, Ohio, on the 24th, which destroyed 12,000 panes of glass. The College building looks like a ruin. The crops and fruit were badly damaged.

Circuit Court and Court of Oyer and Terminer, held at Batavia, Monday 27th day of June, 1859.

The Town of Batavia vs. M. G. Soper. Jury found verdict in favor of Pff. of $341.36.

Hammond Sewing vs Jas. R. Tucker.—On motion of F. Frothingham, Att'y for Pff. ordered trial.

The Hingham, Mass., Journal records the recent decease of Mr. Daniel Corthell of that town, who had for some time past a living snake in his stomach. Several attempts were made to eject the reptile by different methods, which proved unavailing, until at last boiled milk was resorted to, the steam of which, as it entered the mouth of Mr. Corthell started the snake up into his throat, where it stuck fast, and before it could be removed Mr. Corthell choked to death. It is supposed that Mr. Corthell swallowed the snake when it was quite small, while drinking.

MAPLE SUGAR IN VERMONT.—The Vermont papers state that the banner belongs to Harwick for making the most maple sugar this season. That town made 220,000 pounds. Orleans county boasts of fifteen farmers that have made 15,000 pounds. Harwick has 20 farmers that have made 75,000 pounds, and two farmers in the same town have made 14,000 pounds

A SINGULAR "CASE OF LARCENY.—It has transpired of late that some villains in the western part of the city, at what is called the Burt Farm, practice a singular larceny. Several of the residents in that vicinity have awoke in the morning, and missing their calves, commenced a search over their premises, found their carcasses divested of the skin. The thieves have caught the calves and killed them for the only purpose of securing their hides. At length suspicion was attached to a man named Flynn, and Mr. Augustus Vadney, who had suffered the loss of one or more calves, had him arrested Saturday. Flynn denies the charge.—*Alb. Stat.*

About half past six o'clock yesterday morning, James Tonhill and some other persons employed in the Clinton Foundry, says the Troy Times, while going to work found in the Poestenkill, in the rear of that establishment, the body of a woman lying face downward in water not sufficiently deep to immerse her.

A few evenings since, in the village of Binghampton, a member of one of the engine companies made up his mind to enjoy a little domestic felicity, and accordingly got married. After he had retired to the bridal chamber for the night, a number of the b'hoys dragged their machine to a convenient position, set the brakes going with a will, and directed the stream against the young man's window with such force that the glass was swept away by the flood, and a magnificent shower bath fell upon his head. After giving their companion a pair of wet blankets, the jolly extinguishers decamped.

The Connecticut Senate have passed a bill providing for a Convention to frame a new Constitution for the State. The bill provides for submitting the question October 3, 1859, and if the vote is in favor, the Convention shall be held in Hartford January 2, 1860. If a majority favor the new constitution, it is to go into operation on the 4th day of July, 1860. It remains to be seen how the bill will fare in the House.

Thursday, the engineer of a train on the Oswego Road saw an object lying on the track, but too late to stop the train. The cars passed by, and the engineer saw the object was a man, who rolled down the embankment as though he was dead.—The train was stopped, and the man jumping up said: "You had better keep your d——d cars off from me."

In the village of Waterford, Racine Co., Wis., a few days since, several ladies got together, and tarred and feathered a cyprian for—for—for something or other in which their husbands had been engaged. A suit has been brought by the tarred woman for damages, as the suit she got from the ladies did not suit her.

As a Mr. Taylor, a man of sixty-eight years, was engaged in hauling gravel on Canisteo street, Hornellsville, N. Y., on Monday last, his horses became frightened at an engine on the Erie Railroad, and Mr. T. getting tangled in the lines which he had thrown over his neck in order to restrain them, was dragged full half a mile over the stones, by which means the back part of his head was entirely torn off, and his hands and face terribly mangled. He had ceased to breathe ere the team was stopped.

The average expense per annum to the members of the different denominations throughout the United States, for the support of their different church services, is estimated to be about as follows: A Baptist and Methodist about $3,40; a Presbyterian, $7; a Congregationalist, $10; a Roman Catholic, $12; an Episcopalian, $18; a Reformed Dutch, $22; a Unitarian, $23.

NEWS SUMMARY

—Henry Lee, an inmate of the Attleboro (Vt.) Poor House, 70 years old, eloped with Miss Cynthia Pelge, a maiden of 22. The fugitives were not pursued.

—Private letters received at New York by the California mail report the death of M. Belly, the famous Frenchman whose canal schemes on the Isthmus have caused some commotion.

An inebriate Asylum is about to be started at Cleveland, under the charge of Dr. Seelye. He goes to Europe to visit and inspect similar institutions there.

—The Washington official organ contradicts the statement that Walker and Buchanan have become reconciled. Any statement of that character is absurd, for while Buchanan has lost tens of thousands of friends since his election, we have to hear of the first one he has re-gained.

—The telegraph announces that a Boston artist has just completed a bust of Mr. Buchanan. The job was a needless one. The President long ago made a more complete "bust" than anybody else can.

—The manufactory of Avery Babbit, in Auburn, was struck by lightning on Friday evening, and set on fire. Before it was subdued the damage done amounted to over $9,000. Insured only $5,000.

—The Municipal election in Norfolk, Va., on Friday resulted in the election for Mayor of Ferguson, Opposition, by two majority over Lamb, Democrat, and present incumbent. The election will probably be contested.

—At the burning of a dwelling house on Plymouth street, Brooklyn Monday evening—James McGinnis and Daniel Orcott were suffocated to death. A child was rescued in an insensible state. A fireman fell from a ladder and was fatally injured.

—The train due Philadelphia on the evening of the 26th, from Baltimore was thrown from the track near that city, killing the engineer, R. R. McClough, and injuring two other men belonging to the train. No passenger was injured.

—A very extensive burglary was committed on the premises of Horton & Lewis corner of West and Clarkson streets New York, on Friday night last, and notes, drafts, etc., to the value of $17,000 taken from the safe which was forced open by means of a cold chisel and sledge hammer.

—A dispatch from Texas says the Supreme Court of that State has reversed the decision of the lower Court on the Southern Pacific Railroad.

—An English missionary, now in Sumatra, lately wrote home that he "had the melancholy satisfaction of examining the oven in which his predecessor was cooked."

—A poor servant girl in New York committed suicide the other day because she supposed she was enciente. A post mortem examination proved that her fears were groundless.

—The preliminaries have been arranged for a prize fight in Canada between Australian Kelley of New York and Edward Price of Boston, for $1,000.

—About eight hundred hens have recently been stolen from Dartmouth, Westport, Fall River, and vicinity. The rogues deserve to be tarred and then covered with the feathers of all the hens they have stolen.

—A prize fight for $200 a side, came off at Louisville, Ky., yesterday between Johnny McCooley and Dublin Tricks. The latter was whipped in 30 rounds. The fight lasted 1 hour and 10 minutes.

—The first newspaper established in North America was issued in Boston in 1690. The oldest existing newspaper in Massachusetts is now published in Worcester, established in 1770.

SUSPENDED.—The well-known Banking House of Whiteman, Standart & Co., of this city, owing to the collection in their hands of a large amount of suspended paper, were compelled to-day to suspend payment. We are informed that they paid all their depositors, and think the assets in their hands will be sufficient to meet all their liabilities.—*Cleveland Plaindealer.*

The Sandiego Herald says that Gen. William Walker has resigned fillibustering, and that he intends to unite his destinies with a lady of Lower California, who once saved his life. She is said to be abundantly rich, but objected to the alliance in consequence of a difference of religion. That has been obviated by the ceremony at Mobile.

Independent Engine Co. No. 1, of Dayton, Ohio, recently drew water through fifteen feet of suction, forced through five hundred feet of hose and threw water 205 feet high, through an inch nozzle. She is a Jeffer's make and on this occasion was manned by 24 men.—

Arrival of the Steamer Arabia.

LATER FROM EUROPE.

A GREAT BATTLE ANTICIPATED!

SACKVILLE, N. B., June 28.

The Royal steamship Arabia, Captain Stone, from Liverpool on Saturday, 18th inst., arrived at Halifax at noon to-day, en route for Boston, where she will be due to-morrow night.

The following brief summary of the news is all that has yet come to hand:

The news from the seat of war is unimportant.

The Austrians were retreating from the line of the Oglio river to take up a position behind the Nuncio.

The French troops were being concentrated for a decisive attack, and a great battle was anticipated within a week.

A French naval demonstration in the Adriatic was also expected.

GREAT BRITAIN.

Lord Palmerston had formed a strong Cabinet, including Lord John Russell, Mr. Gladstone, Lord Elgin, Mr. Cobden, Mr. Milner Gibson, Earl of Granville.

Terrible Railroad Accident.

CLEVELAND, June 28.

A train on the Michigan Southern Railroad was thrown from the track last night by the washing away of the culvert, and 20 or 30 persons are reported to have been killed. Particulars will be obtained as soon as possible.

SECOND DESPATCH.

CHICAGO, June 28.

The accident on the Michigan Southern Railroad last night occurred near South Bend, Ind. The stream where it took place is naturally a small rivulet, but was much swollen by heavy rains the previous afternoon and evening, and the flood of wood which passed down probably choked the culvert, converting the embankment into a dam, and the great weight of water with the concussion of the train caused the sad accident. There were about 150 persons on the train—33 were taken from the ruins dead and 36 others wounded.

NEW YORK, June 28.

The proposition for a lease of the N. Y. & Erie Railroad was to-day submitted to the Executive Committee, accompanied by a request that the Board of Directors appoint a committee to confer with the party proposing. The offer is to take the road for ten years, pay $1,300,000 for the first year, $100,000 to be added for each succeeding year for four years, and $2,000,000 per year for the five remaining years, with the privilege of renewal for another term of 10 years, at $2,300,000 per annum. The proposition is made by an individual formerly identified with the Company, on behalf of himself and others.

It is now ascertained beyond doubt, that Edward Griffith, who a year ago was sentenced to prison for 10 years for shooting and wounding a policeman is perfectly innocent. The two burglars, Kelly and Gordon, arrested last week, confessed to having committed that crime, and that Griffith was a stranger to them.

A NEW

CONFECTIONERY.

PAUL ZALA

HAS NOW RE-FITTED IN A VERY splendid manner the SALOON next door east of Mrs. DENSLOW's Millinery Store, where he will prosecute the above business in all its branches.

He will keep a general assortment of Toilet and Fancy work, and execute to order such candies and ornamental designs as is demanded for parties of pleasure and Festivals generally.

He flatters himself that his mechanical ingenuity, and long experience in his business will enable him to give to all general satisfaction.—Having been to much expense in getting his Establishment in readiness, and making his place attractive—he earnestly solicits a liberal patronage from the town and country.

He will also keep Ice Cream flavored to the taste of the most devout epicure—and hold himself in readiness to entertain his customers with the luxuries of his Saloon; and to make his place a fashionable resort to all who desire delectables.

At Pierson's Mill.

Where can I get the best flour?

At Pierson's Mill.

Does he warrant his flour?

Yes; at Pierson's Mill.

Well, my husband is always changing from one place to another, and I tell him to keep going to the "Mill," for "I have no trouble with "Pierson's best" flour."

At Pierson's Mill.

You will find good and cheap flour. It ain't but a little way down there, and Pierson will deliver flour anywhere on the Corporation. Come Mrs. G. Walk with me

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

recently discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—[illegible] Discovery.—Consumption is no longer to be regarded as an incurable malady.

Many hundreds of physicians have already adopted this treatment with almost [illegible] success, [illegible]

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove [illegible]

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever, and also
as Effectual a Preservative
as Vaccination is in Small Pox.

"*In no instance have I found the remedy fail* [illegible]

"Out of twenty-[illegible] cases in the third or last stage, treated [illegible] Discovery, during the past year, eight have completely recovered, eight have died, and six are still under treatment. Such a result is altogether unparalleled in the annals of Medicine."

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia, and whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a fac-simile signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $2.00, with full directions for use. [illegible] physicians and the trade. [illegible]

WIT AND HUMOR.

"You exhibit a great deal of vanity, madam, in always telling what others think of you."

"It would certainly be no vanity in you sir, to tell what the world thinks of you."

A minister of Hadley, celebrated for the dullness of his sermons as well as for his piety, was dining with a friend on Sunday noon, after preaching in the morning. The lady offered him pudding—he declined, saying he could not eat pudding before preaching, as it always made him dull. I think then (said the lady) you had pudding for breakfast.

[From the Utica Morning Herald, Jan. 15, 1858.]

Benjamin F. Walker, of Madison, is the subject of a remarkable case of disease of the eye. He had been seriously afflicted for six months or more, and the remedies applied benefited him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires in justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 13, 1858.]

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of cross-eyes upon the eyes of Miss Julia C. Jenkins, of Truxton Cortland county, with perfect success. Truly, the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with respect by those who are so unfortunate as to be liable to its injury, as it is with joy by those who have experienced [illegible] [illegible]

Daring Abduction of Negroes—A Whole Family Kidnapped.—The Carlisle (Penn.) American, says:

One of the most outrageous cases of kidnapping ever done in Cumberland Co., occurred on Friday night last, in Dickinson Township. A colored man named Butler, his wife and two children, residing near Weakley's saw mill, were captured between the hours of 9 and 10 o'clock P. M., by parties unknown and carried off. A carriage track was found leading to the house and from thence to Papertown, where it was lost. Late in the evening, supposed to be the same, forced its way through the Holly toll gate. The secrecy with which the affair was conducted, leaves little room to doubt but that the parties were well acquainted with both the neighborhood and their nefarious business.—Although the cabin from which the abduction took place is in a thickly settled spot, some four or five families of whites being within stone's throw, not the slightest alarm was raised, and the fact was not discovered till the next day, when the house was found entirely deserted; the articles of clothing strewn about, the half-rumpled bed of the little girl, the bread left to rise on the hearth, showing that this outrage had been perpetrated in the most sudden and precipitate manner. The Butler family came into this county from Adams about a year ago, and are highly esteemed by their neighbors for sobriety, industry and general good conduct.

The Cleveland Leader announces the arrival in that city of Mr. George Raymond, all the way from Salt Lake City via Cherry Creek Mines and Kansas, having come the entire distance driving a span of Elk before a wagon. The Elk in question are only three years old, an age at which horses are not at all fit for use, yet Mr. Raymond says he actually traveled as far as one hundred miles in a single day. Mr. R. is on his way to Vermont with his novel team. The elk have now upon their heads horns three feet in length, which have been only six weeks growing.

Will Queen Victoria visit Canada?—The Hon. H. Smith, Speaker of the Canadian House of assembly, has arrived in London. His mission to England is, as is well known, to lay at the foot of the Throne the loyal address of the Parliament of Canada, requesting Her Majesty to come and be present at the ceremony of opening the great national work, the Victoria Bridge at Montreal, which bears her royal name. "In the present disturbed state of Europe," says the Colonist, "it is scarcely possible that the English people would trust our Queen out of sight of their coasts, but the idea of a substitute being found in the person of His Royal Highness, the Prince of Wales, seems not at all unlikely to be carried out."—*Buf. Business.*

Republican State Convention.—The Evening Post says the Republican State Committee will meet at Albany on Wednesday, July 6th, to decide upon the time and place of holding the Nominating Convention, and also to fix the number of delegates to represent each district.

Yesterday morning a young woman fell from the skiff some miles above the city and but for her hoops, which buoyed her up, would most certainly have been drowned. Some of the girl's companions, after crossing the river from the opposite side, got out of the boat and then pushed it out in the stream to frighten the only remaining occupant, who, in endeavoring to paddle back to shore fell into the water. She was rescued some five minutes after the accident, more scared than hurt.—*Wheeling Intelligencer.*

Another Victim of Hydrophobia.—We never read an account of the awful sufferings of a human being by hydrophobia, without wishing the whole canine race exterminated. In Boston a few days since, a boy four years old died of this disease.—He was bitten about five weeks since and the wound healed. But time brought on that most terrible malady, and he soon died in dreadful agony.

A man named Lawrence, who lived in Sardinia, Genesee, Co., committed suicide on Wednesday, by hanging. He said to his wife that he was going out to kill a rooster. Not returning soon, she became alarmed and went to find him, which she did hanging by his neck in the barn. She gave the alarm, but before he was cut down he was dead.

—General Nye, ex Commissioner of Police, is said to be lying dangerously ill at his residence in New York and is not expected to recover.

New York, June 29.

Yesterday afternoon, a homicide was committed in the Fourth Ward, the murdered man being James Boston, keeper of a sailor's boarding house, at No. 44 Baxter street, and Edward A. Eddy, a sailor, the murderer. The parties met in the street, some words passed between them, and Eddy stabbed Boston in the abdomen, ripping open his bowels and causing his death in about half an hour.

For several days a trial has been going on in Illinois, investigating certain charges made against Ex-Governor Matteson. He was said to have presented canal checks to the Treasurer of the State for re-payment, after they were supposed by him to have been destroyed, and in which operation the State was fleeced of $223,000, but the Grand Jury have decided that Matteson is all right, and that no fraud rests on his shoulders.

St. Louis, June 29.—The overland mail arrived here last night, San Francisco dates of the 6th inst. The news has been anticipated. 400 Mexican families, Liberalists, had been driven across the Rio Grande, near Fort Davis, by the Church party.

Profs. Wise, Gager and La Mountain will leave this city on Friday in their balloon expedition to the Atlantic coast.

Strangled to Death by a Snake.—The Hingham (Mass.) Journal records the recent decease of Mr. Daniel Corthell, of that town, who had for some time past been troubled with a living snake in his stomach. Several attempts were made to eject the reptile by different methods, which proved unavailing, until at last boiled milk was resorted to, the steam of which, as it entered the mouth of Mr. Corthell, started the snake up into his throat, where it stuck fast, and before it could be removed Mr. Corthell choked to death. It is supposed that he swallowed the snake when it was quite small, while drinking.

A correspondent of the St. Louis Republic, writing from Springfield, Ill., states that in the published accounts of the suicide of Dr. A. J. Morrison, at Henderson, Ky., after an unsuccessful attempt to poison the prosecuting attorney, great injustice is done to a very worthy man.—The writer endeavors to show that the prosecution of Dr. Morrison for forgery was the result of the malice of his enemies, as was also the subsequent accusation of poisoning, and cites many facts tending to prove that the unhappy man had endured a long series of persecutions which drove him to madness and self-destruction.

Horse Thieves.—The country is swarming with horse thieves. Last night a valuable horse was stolen from the common on Cottage street. A few days ago there were 3 horses stolen from Tonawanda, and we hear daily of similar robberies. There appears to be a regularly organized gang of these thieves, and we hope they have got nearly to the length of their rope.—*Buf. Post.*

—In one of the back counties of Mississippi, Judge S. G. Perkins has announced himself as an independent candidate for the legislature of Yazoo county, intending to run upon an anti-grand jury ticket.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

LOCAL MATTERS.

Great Fun July 4th, 1859.

In addition to the many attractions of the day, which are set out in the large bill, at 4 o'clock P. M., five of the most daring, dashing Squaws of the Six Nations, will ride a race of one mile upon their Indian Ponies, with their characteristic grace and fleetness.

Any of our readers afflicted with Scrofula or Scrofulous complaints, will do well to read the remarks in our advertising columns respecting it. But little of the nature of this disorder has been known by the people, and the clear exposition of it there given, will prove acceptable and useful. We have long admired the searching and able manner in which Dr. AYER treats every subject he touches; whatever has his attention at all, has a great deal of it, he masters what he undertakes, and no one who has a particle of feeling for his afflicted fellow man, can look with indifference upon his labors for the sick. Read what he says of Scrofula and see in how few words and how clearly he tells us more than we all have known of this insidious and fatal malady.—*Sun, Philadelphia, Pa.*

Be sure and go to the Strawberry Festival this evening and we will have a good stone walk in front of the Methodist Church.

ORANGES! ORANGES!—Just received at *Knowles' fifteen boxes of fresh Oranges.* *

The Great "New York Gift Book Store is in town once more, and strong inducements are offered to those wishing anything in the Book line, to supply themselves now, and take their chances in getting with it a splendid prize. *Every Book draws a prize.* Who will get a watch?—Remember at the Champion Block Book Store you get the worth of you money—for a few days only. Walk up.

Regulator.

We notice to-day that BIERCE is paying 16 cts per pound for good butter and has reduced still lower the price of all his Summer Goods. Lawns worth 12½c to 8c; Silks worth 75c to 50c. Embroidery setts worth $4.00 to $2.00; Challies worth 25c to 12½; Kid Gloves worth 87½c to 50; Linen worth 50 to 25c. MILES always undersells the other Merchants. *

Closing Up.

S. H. RUSSELL offers his entire stock of Dry Goods and Groceries at cost. Being desirous to close the concern, he offers good goods at this immense sacrifice. Every one should improve the chance, and let the crowd rush to RUSSELL'S and obtain *Goods* that are GOODS. See adv.

FURTHER BY THE ARABIA.

A Great Battle Expected!

KOSSUTH IN PARIS!!

Russia Preparing For War!!!

SACKVILLE, June 29

The Arabia left Liverpool at 10:30 A. M. of the 18th inst.

Gen. Guylai had been superceded in the command of the second Austrian army by General Schliet.

The Austrian report that Gen. Burban had repulsed Garibaldi, and the latter was at Brescia.

Additional Austrian troops were moving towards Italy, and the Emperor Napolean had demanded an additional 100,000 men to besiege the fortresses.

The Austrians, it is said, were preparing at Mantua to attack the allies.

The mobilization of the Prussian army together with the additional hostile attitude of Germany, had created great uneasiness.

Kossuth had passed through France en route to Italy.

Prince Napoleon's corps had commenced moving.

It was reported that the Austrians had entered the Valteline.

The British Parliament had re assembled, but Lord Palmerston had postponed the announcement of his programme.

The Paris Bourse was much depressed.

The telegram from Vienna the 16th, says that Gen. Count Schlick had taken command of the 2d army, instead of Gen. Guylai, and that the French had established a depot at Antivari, on the Albanian Copalbanian coast, and disembarked large quantities of gold coin there.

The last accounts from Napoleon's head quarters say that he was concentrating his forces in order to attack the Austrians with an overwhelming force, and it was believed in Paris that a decisive battle would be fought in the course of a week.

The following bulletin had been received via Turin:

TURIN, June 15

The Austrians are retreating from the Oglio, and the allied armies continued to advance.

It is at present uncertain whether Ancona has been entirely evacuated by the Austrians.

The numerous municipalities of the Romagna had pronounced for the National cause.

The allied army passed the Serio on the 13th, marching towards the river Oglio. Their advance guard is at Coccaglio.

The head quarters of the King of Sardinia are at Palazzia.

Urban's corps quitted Coccaglio on the 13th, and appeared to be retiring to Arzinori.

An Austrian bulletin, dated Verona, 13th says the different *corps de armee* took their allotted positions unmolested by the enemy.

The division of Gen. Durban alone sustained a fight at Castinodolo, with Garibaldi's bands, which, although amounting to 4,000 men and four pieces of cannon, were repulsed by the Austrians.

A second Austrian extraordinary levy is to be terminated by the 15th of September, and the standard military stature of the men reduced.

Garibaldi's corps is represented as becoming daily more formidable. It was threatening the Southern Tyrol, where the people were getting extremely impatient of Austrian rule.

A late telegram from Vienna via Berne, announces that a numerous Austrian corps had arrived at Grostoto, in the Valteline, and had advanced towards Tirano.

The Swiss federal council had ordered the occupation, by the federal troops, of the pass of Muretto, between the Grisons and Valteline.

It was reported via Vienna that extensive preparations were making for attacking the allies.

The French fleet had received powerful re-inforcements, and it was expected that the landing would shortly be attempted between Venice and Trieste.

The first detachment of siege Flotilla had left Toulon for the Adriatic.

It is asserted that the French are about to occupy Ancona.

The Sardinian Commissioner Extraordinary in Tuscany had issued a decree opening the various new ports to the reception of breadstuffs.

It is asserted that the King of Sardinia had ordered the arrest of the Colonel of one of the Sardinian regiments for having contrary to discipline and obvious policy addressed a proclamation to the Roman legation.

The Paris correspondent speaks of dissatisfaction of some Italians at the territorial accessories of the King of Sardinia.—They protest against his taking the possession of Lombardy and require a confederation, not fusion.

Garibaldi, when at Milan, had interviews with the Emperor and King of Sardinia.

The Nord says the second series of operations by the allies will be simultaneous. The allied troops are all to be put in movement to invest the Austrian fortresses.

Napoleon, with his force will proceed without delay towards Les-espo to support the right wing of the French army.

The Turin journal publishes a proclamation by Klapka, drawn up for distribution amongst the Hungarian soldiers in the Austrian army.

A polish legion is said to be forming for Italy and Hungarians at Genoa.

FRANCE.

The Moniteur would soon publish a decree, conferring the promotion of honors and crosses on nearly one thousand persons, for military service in Italy.

It was reported that the Generals under Pellissier are forthwith to repair to their respective stations, and it was considered not improbable that the army now called the "Army of the Rhine."

The Emperor is said to have demanded one hundred thousand men for Itally to besiege the Austriams fortresses.

The french army of observation on the Rhine frontiers number 71,000

AUSTRIA.

An Imperial decree proclaims that the public will receive, for the interest on the National loan now due, either bank notes at 125 florins for every 100 florins, or second government bonds redeemable with compound interest in five years.

Commercial letters from Vienna describe the financial condition of Austria as one complete bankruptcy.

RUSSIA.

A letter from St. Petersburg says if Prussia allows herself to be goaded into menacing steps, Russia will concentrate troops on the Galician frontier, and send detachments on her fleet to the Russian Baltic ports.

TURKEY.

It is said that the 12th of June was the day appointed for the rising in European Turkey.

The political ferment in Servia was increasing.

GREECE.

Demonstrations in honor of the French victories have taken place in Greece.

LONDON, June 18—A. M.—Kossuth has left London for Paris with French passports. On Monday next he will arrive at Genoa where a becoming reception awaits him. He will have an audience of Napoleon, but no grounds exists for the report in circulation as to his plans.

An amnesty has been granted to the political prisoners at Naples, on the strong remonstrance of Mr. Elliott, the British Minister.

The Times in its city article of last evening, quotes advices from Frankfort, which state that the German Confederation are understood to have resolved that 80,000 men, namely, the 40,000 Prussians and 40,000 Austrians shall be sustained on the Rhine. There were also strong rumors that Prussia will issue semi-decisive announcements in the course of a few days.

According to the prevalent conjecture peace is to be proposed to the Emperor Napoleon on certain conditions and if these are refused, Germany is to enter into the war. Under these circumstances, there is great anxiety and stagnation in all commercial cities.

The Times also says that Russia is making most warlike preparations at all the naval depots. The Naval division of the fleet is reported to number 32 first class ships and the Baltic fleet 35 sail of the line, of which 14 screw steamers are at Cronstadt.

The Times accounts for the recent shipments of gold from St. Petersburg to London, as payment for machinery made in America and elsewhere. Large Russian orders are lying still unexecuted in England.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, [illegible], by producing an equilibrium of the fluids in the body, the want of which is the one cause of inflamation!

NOTICE TO INVALIDS!! The following forms which the unballanced fluids assume, and many not here mentioned, that have more or less fever or pain, are assually subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtain'd from any Druggist who has this valuable medicine for sale.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. JOHNSON'S

HERB DISPENSARY!

OFFICE 95 MAIN STREET,

(2d floor, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhœa, Nervous Debility, Marasmus or Wasting Consumption,

AND ALL

Diseases of the Urino-Genital Organs,

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Paresmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society and to business or study, dimness of eyesight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body, pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhœa or Fleur Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named have their sole primary in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of abnormal irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new. It is based upon scientific principles, with new discovered remedies, without the use of poisons. The facilities of cure are such that patients can be cured at their own homes without exposure in any part of the country, from an accurate description of their case by letter and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA.

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's concurrent with the HYPOPHOSPHITES OF LIME AND OF SODA—remove all remaining doubt as to the inestimable value of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Some hundreds of physicians have already adopted this treatment with almost unexampled success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption as Quinine is in intermittent fever—but also as Effectual a Preservative as Vaccination is of Small Pox.

In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.

"*Out of thirty-two cases in the third or last stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and [illegible] under treatment. Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda, J. Winchester, New York." Each bottle has also a fac-simile signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 49 John street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover the prepaid postage. Also, circulars and all requisite information without charge. Let no one delay, for time to purchase is an actual malady as consumption. Address,

The only real Hair Restorative

MCOMBER'S HAIR RESTORATIVE AND INVIGORATOR.

IS WARRANTED to grow hair on bald heads, stop its falling out, increase the growth of moustaches and whiskers to any desired extent; to cure dandruff and all diseases of the Scalp, even "scaled heads." It has a reputation of merit unknown to any other article, and those who buy a bottle are sure to purchase the second and third, as it never fails to give satisfaction, and to do all that it is claimed it will do. For TOILET USE it is also unsurpassed.

When the evidence of this kind is within the reach of every one, why will any one doubt? Get a circular and read the certificates of well known citizens, then buy a bottle for 25 cents, or a dozen bottles. It never has failed.

☞ Each bottle has the following words impressed on its side:—*McOmber's Hair Restorative and Invigorator, Buffalo, N. Y.*

MRS. M. M. DENSLOW,

Having returned from New-York with her usual supply of New Millinery Goods, is now ready to offer to the Public an assortment that will vie with the very best *self-imported* Stock ever before brought into a Batavia store. True Mrs. D. *did not go to Paris* herself, but laid her supply at Importing Houses in New York, who have been long in the Trade and who sell to their old customers, who pay, at very reasonable rates, and Mrs. D. being one of that class of customers, is enabled to give her patrons the full benefit of a superb Stock of Goods, purchased at those Houses, whose Fashionable Goods are to be had, at very small profits. The Public are invited to call and see, after looking to be supplied elsewhere, among Importers, and she feels they will not be inclined to go empty away.

The cash trade is greatly desired although responsible persons can have credit from four to six months.

She is fully prepared to execute all orders in this line of trade, and to procure with the goods, and with all of the workmen engaged in fashion, that her reputation has heretofore won, any work brought to her care. WIT AND HUMOR.

The Richmond Whig tells a pretty good story of a Virginia negro boy, who professed to be dreadfully alarmed at the cholera. He took to the woods to avoid it and was there found asleep. Being asked why he went to the woods, he said: "To pray." "But," said the overseer, "how was it you went to sleep?" "Don't know, massa, 'xactly," responded the negro, "but I spec I must have overprayed myself!"

Strawberry Festival.

This charming affair last evening, was well and largely attend by all classes of our citizens, and we are glad to learn that its results were entirely satisfactory in every point of view.

The ladies were attentive to their respective duties at the tables, and the provision was abundant and all seemed to enjoy themselves as well, if not better, than upon any other occasion of the kind that we remember to have witnessed.

Its object being to procure funds for a permanent improvement in laying a stone side walk in front of the Methodist Church, all seemed anxious to participate therein, and while our *Brass Band* discoursed sweet music," those in attendance regaled themselves with strawberries, ice creams and cake of the choicest and most delicious quality.

It yielded the pretty little sum of $120, which is ample to make the improvement and pay all expenses.

Caution to all.

BATAVIA, June 30th, 1859.

MR. EDITOR:—Will you be kind enough to give these few lines a space in your Journal, and you will I think, confer a favor on the traveling public:

Having occasion to go to Mt. Morris I purchased my tickets at Rochester for the above place; the cars were late and I had barely time to get my baggage aboard before they started. I had extra baggage in two Sewing Machines that I always take with me, as I am in that business and obliged to carry samples and expect to pay for them. The Conductor (and he is a *gentleman*) ordered them put on the way-bill, but there was not time. After the cars started I asked the Conductor what would be the charge to Mt. Morris, he said 49 cents; I handed him 50 cents and told him that was near enough. At Avon we changed cars, and I heard the Conductor tell them that the Machines were paid through, but on my arrival at Mt. Morris I was very roughly informed that I could not take the Machines until I paid the freight(they had not even asked me for the freight). I told them that I had paid it on board of the cars coming from Rochester; they said I had not and that I had no receipt to show. I then told the agent to make out his receipt and I would pay it. He did so, and charged me back charges from Rochester to Avon and I paid it. He said that if I had paid the freight as I stated, that the Conductor on the line from Rochester to Avon, must refund the money. I came back to Avon, saw the Conductor, showed him my receipt and asked him if I paid him as I had stated. He said I had paid him and that they had no right to charge me again. He said they must refund the money but they refused to do it, so of course I had to pay double. I write this that all may look out if they do not wish to be skinned and made to pay double price, and all on the account of the negligence of their employes or agents. As I am not the first one bit I think the officers of the Road should look to it for their own benefit as well as the benefit of the traveling public.

Yours Respectfully

A. G. BUTTERFIELD,

Traveling Agent for Howe's Original Sewing Machine, N. Y.

The Plymouth Rock reports that the workmen are making good progress in laying the foundation of the Pilgrim monument. The foundation consists of three tiers of stone, all laid in hydraulic cement, and about 800 tons of Quincy granite have already been used. The corner stone, which is the gift of some gentlemen in Quincy, and is already wrought, will be laid with appropriate ceremonies on the first of August.

A man named *Singleton* is under arrest in Kanawha county, Va., charged with passing counterfeit money. $7,800 spurious issue, on the North-Western Bank of Virginia, Wheeling, were found in the possession of him and a comrade named Knott.

Mons. Blondin Walks the Chasm.

There was a large concourse of people on both sides of the river yesterday, perhaps ten thousand, to witness the daring feat of Mons. Blondin. On this side the enclosure known as White's Pleasure Ground, was made the place of starting. Here was collected perhaps one thousand persons. On the bank and below for half a mile there was a crowd, on the opposite shore. There were stagings which accommodated a large number of persons and a large crowd, which extended along the bank above and below the rope. The British and American flags were near neighbors, and a band was playing God Save the Queen, Hail Columbia and other national airs. At about four o'clock Mons. Blondin appeared in the pleasure grounds and performed some wonderful feats on the tight rope, while a band of music was playing. At about five o'clock he was ready for his feat, and the signal was given for his departure. He stepped boldly and nimbly upon the rope, which extended across the chasm, amid the most deafening cheers from both sides of the river. He took with him balls of twine, with which to make his communication with the Maid of the Mist, which was playing around in the stream below. He then balanced his pole in his hands and started with the same confidence and careless indifference that he would perform an act upon the stage of a Theatre. The rope curves about fifty feet from a level line, and he stepped quickly down the slope. When about half way down he stopped and laid himself down flatly upon his back, and thus balanced himself over the abyss. He then passed on to the centre of the stream, and again rested, by sitting up and lying on his back for some ten minutes, until the Maid of the Mist could gain a position beneath him. This done and he cast down one end of his twine, to which a bottle was attached from the steamer, and he drew it up and refreshed himself from its contents. He was again greeted with cheers from both sides of the river, when he proceeded on his journey without again stopping until he had reached the opposite banks. He was about 20 minutes in crossing, including delays. After remaining some time among his Canadian friends, he returned to this side, having performed what he promised and what has been characterized as dangerous and foolhardy. It was an exciting scene to witness the crossing, but it was handsomely and successfully performed. It beats the world in point of daring.—*Buf. Express.*

The State Paper Controversy.

We understand that the Court of Appeals have decided the controversy between The Atlas and Argus and The Evening Journal, as to which was the State Paper. The decision is in favor of The Argus. It is said to be unanimous, and if so, is not of course obnoxious to the charge of being partizan.

The Court will probably adjourn tomorrow morning, when the decision will be officially announced.—*Alb. Statesman.*

RIGHT TO THE POINT.—The citizens of Green county, Indiana, in consequence of the recent murder of the old German named Deppe, of which we have already given an account, the circulation of unusual quantities of counterfeit money, and the presence of a large number of suspicious characters, have organized a band of "Regulators," and passed a long series of resolutions, of which the following is a specimen:

Resolved, That Stephen Scaggs, with all his goods and chattels, leave the State of Indiana within four days, and that he shut up his grocery immediately, and that he shall not sell, give away, or suffer spirituous liquors to be drank about his house; and if any mischief or private injury be done in the neighborhood before he leaves, his hide shall pay the penalty.

A KILKENNY FIGHT.—The Tribune says that in Virginia, Wise will kill off Hunter, that Stephens will destroy Cobb in Georgia, Breckenridge will slaughter Guthrie in Kentucky, and that the feud between Douglas and Slidell is so bitter, that the Democracy will not dare nominate the latter. In this way all the prominent Southern aspirants are put *hors de combat*, and the Charleston Convention will have to look up some man now in comparitive *obscurity*.—*Alb. Statesman.*

An ingenious Scotchman has trained a couple of mice to turn a reel for twisting twine.—The laborers run about ten miles a day, and reel from 100 to 120 threads. A half-penny's worth of oat meal lasts a mouse five weeks, and the clear annual profit on each animal per year, is computed at six shillings. This beats the industrious flea.

The Philadelphia Ledger says that since the last act of the Delaware Legislature, renewing the lottery grants, the business has revived with redoubled activity, and lottery tickets and lottery policies are sold in Philadelphia by the thousands. The business has got so bold that scarcely an effort is made to conceal it.

NEWS SUMMARY

—Some ten days ago a cat in Cape Elisabeth had a litter of four kittens, one of which is minus a tail, and instead of fore paws these limbs resemble the hands of a little child, which are slightly covered with hair. It also walks backwards.

—A full grown child was born in Baltimore, a few days since with a head like a bull-frog and a streak of hair down the spinal column. It lived a few minutes.

—Several of the New York city churches and Sunday Schools have closed during the dog-day season—until September.—We presume just as many persons will reach Heaven, notwithstanding the cessation from religious labors.

—Advices from Arizona say another revolution had broken out in Sonora, and the Indians had taken the field in favor of Gandara and the Church party. The revolutionists had captured several large towns and were daily receiving additions to their numbers.

—O. B. Merrill was arrested in Boston, Thursday, for committing a rape upon his own daughter, thirteen years of age. It was a third offence. Two policemen who had been placed in ambush at the instigation of the mother, stood by and watched for more than an hour while the crime was being consummated!

—Hon. S. A. Douglas is now at the Everett House, New York. The Post says he has been spending a few days with Ex-President Van Buren at Lindenwald.

—A leading drug house informs the Tribune, in view of the ginseng excitement in Minnesota, that the Autumn is the time to gather ginseng, and that the root dug in the Spring is valueless as an article of export.

—The Detroit & Milwaukee Railroad Company are constructing a pier at Grand Haven which will be 3,000 feet in length and cost upwards of $225,000.

—The inhabitants of Tenghai and Ampo, two cities in China, being in fear of attack from a large band of marauders, have raised a body of cavalry, consisting of 130 horses and three men to each horse.

—A Washington clergyman, a Sunday or two since, while stating a deficiency in the collections remarked that since the issue of three cent pieces the revenue of his church had decreased nearly one-half.

—A gentleman walking along the streets of Philadelphia, in the vicinity of a large fire, was very much startled by the effect of a large coal which, alighting on the top of his hat, burnt through and warmed his head intensely.

—In London, a lawsuit was instituted towards the end of the reign of Edward IV., and was still pending in the reign of Edward I., at which time a compromise took place between the parties—thus embracing a period of one hundred and twenty years.

—Mr. Wm. Russell, the well known Crimean correspondent of the London Times found some difficulty in getting permission to follow the army of the Allies, although he was armed with credentials from Lord Aberdeen. He finally succeeded, however, and one letter from him has been published.

—A curious and not very agreeable fact is mentioned in connection with that disgusting insect, the bed-bug—namely, the faculty it has of living for six years without blood! It is painful to hear that this insatiable blood-sucker can live for even six weeks, under any condition.

—Mr. P. T. Barnum delivers a Fourth of July oration at East Bridgeport this year.

—Wednesday, the wife of a clergyman in Boston, caught one of her feet in her skirt in such a manner as to throw her down with such violence as to break a leg.

—On Thursday evening, a street over a sewer, in St. Louis, caved in, and completely swallowed up a coal wagon and four horses. A chasm of 40 feet in width by 30 feet in length was made and the cart and horses were hurled out of sight. The people of St. Louis are beginning to walk carefully along their streets.

—At Richmond, Va., on Friday last, a Frenchman who was a young and powerful man died of the "locked-jaw." In his case the muscles became so violently contracted that all efforts to open either his hands or his mouth failed, and death was the consequence. The locked-jaw was caused by giving himself what many would call a trifling cut.

—A philadelphia paper tells of a broker, a few months ago worth hundreds of thousands of dollars, who now possess nothing convertible save two shirts and a boot jack.

Mr. IRA PORTER, of Fredonia we are informed, has picked from half an acre of ground, 1700 quarts of strawberries, with a prospect of getting 2,000 quarts in all.—These, at 15 cents a quart, will yield him $300 as the product of half an acre of ground. So says the *Censor*.

The Galway Steamship Argo Sunk!

Safety of Passengers and Crew.

NEW YORK, June 30.—The steamship Argo, of the Galway line, left this port on the 23d inst., for Galway, via St. Johns, N. F. She went ashore near Trepassy in a fog on Tuesday morning and sank in the evening. All the passengers and crew were saved by the prompt assistance from St. Johns, but it was feared the vessel and cargo would be a total wreck.—The captain and crew behaved admirably. She is a superior ship—costing at the time of her construction £55,000 sterling.

She was employed in the transport service during the war in the Crimea and in India. She was lately purchased by the Galway Co., and insured at Lloyd's for £45,000 sterling. The Company hope that with the prompt assistance she has received from St. Johns, she will yet be saved.

WASHINGTON, June 29.—Notwithstanding the failure of the Postoffice Appropriation Bill it is probable that the clerk hire and all incidental expenses will be paid by the Deputy Postmaster as heretofore out of the accruing revenue on postages for the quarter ending the 20th of September. The Postmaster will render their accounts for that quarter in the usual form with proper vouches; the adjustment by the auditor is not required to be completed and the results entered to the revenue accounts before January 20th next, before which time Congress will, there is no doubt, legislate, as to relieve the present embarrassments of the Post-office Departments. Since March, statements amounting to over a million of dollars have been furnished to the mail contractors, although some of the brokers here have orders to pay none of these evidences of indebtedness. They have been offered as a basis for loans to contractors.

Lieut. Maury has been ordered to the command of the steamer Mystic, and Master Moor to the steamer Anacostia. Lieut. Almy has been ordered to report for duty at the New York Navy Yard.

There being various competitors for the transmission of the through mail between Portland and New Orleans, including the commercial cities, the Post Office Department has invited proposals for the service—the object is to secure the most speedy and certain connection. The trip each way is to be guaranteed to be performed within a stipulated time or no pay.

EVENING REPORT.

ALBANY, June 30.—The Canal Board held a session here to-day, and adjourned to July 26th. The only business of general interest done, was the acceptance of the new sliding Canal gates, giving increased length to, the chambers of the locks.

BANGOR, ME., June 30.—The Democratic Convention met to-day and was organized by the choice of John C. Talbot, of Lubec, as Chairman, and one Vice President from each county.

The Committee on Resolutions consists of one from each county, selected by the county delegation, and a majority of them are anti-administration.

There are a large number of delegates present.

A jester in the court of Francis I. complained that a great lord threatened to murder him if he did not cease joking about him. "If he does so," said the king, "I will hang him in five minutes after." "I wish your majesty would hang him five minutes before," replied the jester.

"Well I declare," said Mrs. Sims, throwing down a newspaper, "there is really nothing in this paper at all." "I should think not," observed her daughter, "for it is just two hours since you commenced reading it."

DR. COGSWELL'S NEW MEDICAL SALT.

For Inflammatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has [illegible] but one ill, has but one aim, and [illegible] but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, stomach, [illegible] or skin.

NEW MEDICAL SALT. Its peculiar excellence is, [illegible] without the useless loss of blood and strength, it effectually cures inflammatory diseases, [illegible] by producing an equilibrium of the fluids in the body, the want of which is the [illegible] of inflammation!

NOTICE TO INVALIDS! The following forms [illegible] which the unbalanced fluids assume, and many not [illegible], that have more or less fever or pain, are [illegible] subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Jaws, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affection, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGSWELL'S NEW MEDICAL SALT does not [illegible] claims to do—or more or less [illegible] equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt.*

Ask your neighbors about the *New Medical Salt.* If sick, try it. If not sick, remember the *New Medical Salt.*

DR. COGSWELL'S NEW MEDICAL SALT is for sale in Batavia by H. W. Fellows and by all [illegible] Druggists wherever the Herald is [illegible]. As it is not a Patent [illegible], but the [illegible] of an eminent Physician, no one [illegible] to try the New Medical Salt.

[illegible] all [illegible] and directions see circular.

Dr. Coggswell's Antiphlogistic Salt.

ACUTE PACKAGES, $1.25; CHRONIC $2.50.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla.

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary [illegible] by Dr. Churchill [illegible] remedy—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the inestimable value of this [illegible]. Consumption is no longer to be regarded as an incurable malady.

Many thousands of physicians have already adopted this treatment with almost universal success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove [illegible]

As Sure a Remedy in Consumption as Quinine is in Intermittent Fever, and also as Effectual a Preventive as Vaccination is in Small Pox.

"In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.

"Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have [illegible], and six are still under treatment. Such a result is altogether unparalleled in the annals of Medicine."

This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a fac-simile signature.

No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

Price $1.00, or three bottles for $2.00, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 41 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

WORTH OF

BOOTS & SHOES

To be sold in the next 2 months, at 20 per cent. less than Manufacturer's Prices.

THOMAS YATES,

Who, for the last 20 years has held forth in this Village, and has never yet been outdone, either in prices or quality, would respectfully announce to the inhabitants of Batavia and surrounding country, that he is still in the field, opposite G. B. Worthington & Co.'s Hardware Store and second door from the corner of Jackson-st. where may be found an extensive assortment of

BOOTS, SHOES, RUBBERS & GAITERS,

of the latest styles and most approved workmanship, which will be sold from 30 to 36 per cent. less than the usual prices. This is one of the best opportunities to obtain GREAT BARGAINS, ever offered to the people of Western New York, as it is desirable that the stock should be closed off by the first of December next.

Ladies' Black Fox Gaiters only 4s worth 7s; Ladie's Black Fox Fine Gaiters only 5s, worth 8s; Ladie's Black Fox very fine Gaiters, only 7s worth 10s; Ladie's Black Fox Heel Gaiters only 8s, worth 14s; Ladie's Black Fox Congress Gaiters only 10s, worth 16s; Ladie's Kid Congress Gaiters, thick and thin soles, less than cost to manufacturer.

Boys' and Youth's Patent Leather, Calf, Kip and Double Sole Boots, Brogans and Gaiters, at low figures. Gent's Brogans [illegible]; Mens' Stoga Boots $2,00.

MEN'S KIP AND THICK

DOUBLE SOLE BOOTS,

Custom Made, worth $3,25. I shall sell for 18s and 20s. Children's Shoes, a large assortment, Fancy and Plain, Kid, Calf and Morocco, from 15 cents up. Ladie's Kid Buskins and Slippers, 2s, 4s, 5s and 6s.

My Stock is too numerous to mention. I have on hand more than all the Shoe Dealers in this Village combined, and can spare enough to fill all their small shops, and still have a large supply left. All will be sold at less than Rochester City Prices. You are all invited to call and examine the Goods, whether wishing to buy or not. All those who come barefoot without money, can have them "without money and without price." *Goods warranted as represented.*

MRS. M. M. DENSLOW,

Having returned from New-York with her annual supply of New Millinery Goods, is now ready to offer to the Public an assortment that will vie with the very best [illegible] ever before brought into a Batavia market. True Mrs. D. *did not go to Paris herself* but her supply at Importing Houses in New York, who have been long in the Trade and who sell to their old customers, who pay, at very reasonable rates, and Mrs. D. being one of that class of customers, is enabled to give her patrons the full benefit of a superior stock of Goods, purchased at those Houses, where Fashionable Goods are to be had, at very small profits. The Public are invited to call and see, after seeking to be supplied elsewhere, among *Importers,* and she feels they will not be inclined to go empty away.—

The cash trade is greatly desired—though responsible persons can have credit from four to six months.

She is fully prepared to execute all orders in this line of trade, and to promise with dispatch and with all of the neatness, elegance and fashion, that her reputation has heretofore won her, any work trusted to her care. Her millinery prices are also made to suit the times and the means of the buyer. [illegible]

A jester in the court of Francis I. complained that a great lord threatened to murder him if he did not cease joking about him. "If he does so," said the king, "I will hang him in five minutes after." "I wish your majesty would hang him five minutes before," replied the jester.

"Well I declare," said Mrs. Sims, throwing down a newspaper, "there is really nothing in this paper at all." "I should think not," observed her daughter, "for it is just two hours since you commenced reading it."

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla.

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. C. CHURCHILL'S DISCOVERY

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA.

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill [illegible] [illegible] of Consumption [illegible]

[illegible] have already adopted this treatment with almost universal success. [illegible] is there hope?

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into general use, as I know that they [illegible]

As Sure a Remedy in Consumption [illegible]
as Quinine is in Intermittent Fever, and also
as Effectual a Preventive
as Vaccination in Small Pox.

In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.

"Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. Such a result is altogether unparalleled in the annals of Medicine."

This Remedy is the most powerful promoter of Blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia—whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

Is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a facsimile signature.

No other can be relied on as the purely hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No other [illegible] should be combined with them, or taken at the same time.

Price, $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts [illegible] [illegible] Sold wholesale and retail at the sole General Depot in the U. S., 41 John Street. Let me [illegible] Winchester's Preparation."

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla.

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

HERB DISPENSARY!

OFFICE 95 MAIN STREET,

(Second, Up Stairs Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhœa, Nervous Debility, Marasmus or Wasting Consumption,

AND ALL

Diseases of the Urino-Genital Organs

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty, [illegible] youth of both sexes annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus or consumptive wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society and to business or study; dimness of eyesight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhea or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now in ninety nine out of every one hundred [illegible] the above named disorders and a host [illegible] have their seat primarily in the sexual organs and arise from [illegible] and chronic inflammation—a state of [illegible], hence the want of success on the part of old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new; it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for $1 a series of Health Hints, and other chart of cases, which will be to them a [illegible] through life.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA.

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill [illegible] HYPOPHOSPHITES [illegible] remarkable value of [illegible] Consumption is no longer to be regarded as an incurable malady.

[illegible] of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment away it. It is their last hope!

Dr. Churchill says:

"I am desirous that the HYPOPHOSPHITES should be brought, as speedily as possible, into general use, as I KNOW that they will prove an [illegible]"

[illegible] a Remedy in Consumption [illegible]

In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.

"*Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. Such a result is altogether unparalleled in the annals of Medicine.*"

[illegible] This formula is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, A tonic, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "*Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York.*" Each bottle has also a [illegible]

[illegible] other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No [illegible] should be combined with them, or taken at the same time.

[illegible] PRICE, $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The Hypophosphites [illegible] in the trade [illegible] by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 41 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for there is now here an infallible remedy in consumption. Address,

MEAT!

HAVING ENGAGED THE STALL FOR A

MEAT MARKET,

THE SECOND DOOR WEST OF THE GENESEE COUNTY BANK,

The undersigned would respectfully call the attention of the public WHO EAT MEAT, to his establishment.

Having a long experience in the business he flatters himself that he can cater to the wants of all who buy meat for cash.

The public will find at his market the best quality, and consisting of everything usually sold in such places, viz:

Beef, Pork, Poultry, Sausage, &c. &c.

T. B. WARE.
Batavia, Sept. 13th, 1858. [illegible]

MRS. M. M. DENSLOW,

Having returned from New-York, with her usual supply of New Millinery Goods, is now ready to offer to the Public an assortment that will vie with the very best ever offered before, brought into a Batavia market. True Mrs. D. did not go to Paris herself, but bought her supply of Importing Houses in New York, who have been long in the trade and who sell to their old customers, who pay, at very reasonable rates and Mrs. D. being one of that class of customers, is enabled to give her patrons the full benefit of a superior stock of Goods, purchased at those Houses, where Unbeatable Bargains are to be had, at very small profits. The Public are invited to call and see, after seeking to be supplied elsewhere, among Importers, and she feels they will not be inclined to go [illegible]

The cash trade is greatly desired—though responsible persons can have credit from four to six months.

She is fully prepared to execute all orders in this line of trade, and to guarantee with dispatch, and with all of the newest, [illegible] fashion, that her reputation has heretofore won for her, any work trusted to her care. Her millinery prices are also made to suit the times and the means of the buyer. [illegible]

Another Allied Victory.

The brief despatch from St. Johns, last evening, says the Rochester Democrat, is of the highest importance. The long expected general battle near the Mincio took place on the 24th ult, and according to the despatch of Emperor Napoleon to the Empress, resulted in a complete victory to the Allies. We place full reliance upon this intelligence, and all the more readily because the French accounts have thus far proved reliable. This will be astounding to nearly all of Europe, as it was confidently believed that after gaining a new position, in the midst of strong fortifications, the Austrians would be able, if they did not turn the tide of war, to at least make a successful stand.

The future parties to this bloody contest will not be long in taking their positions.

The express bag sent by the United States Express agent at St. Louis for New York in the balloon Atlantic was picked up July 4th, on the lake, six miles west of Oswego. It contains over 40 letters to New York correspondents, among which is a draft of $1,000 on any bank. The package was forwarded by express.

The Republican State Committee met at Albany yesterday, and fixed upon the 7th of September as the time for holding the Convention for the nomination of a State Ticket. Two delegates from each Assembly District are to be chosen—the same as has been usual since the organization of the Republican party.

A messenger arrived at Boston last evening, 6th inst, with an official despatch from the President, commuting the sentence of Plummer to imprisonment for life.

The Railroad Disaster.

The Toledo Blade learns from the Mishawaka Enterprise that reports arrived at that place from the ravine, (two miles distant) on Friday morning, that another car had been found entirely buried in sand and water, and supposed to be filled with bodies. The bells were rung, and the citizens were rushing with spades, &c. en masse to the spot. The editor of that paper saw men whom he knew, who said that they saw the ventilators and felt the top of the car.

It seems almost incredible that an entire car should have been embedded deep enough to escape observation so long, or that the absence of one among the trains should have been so long unnoticed. But we recollect that one of the earliest despatches from the scene of the disaster made mention of a car filled with laborers, as belonging to the ill-fated train, and no account of this car and its occupants has been given since, we believe.

Explosion on the Bay State.

About half past five last evening as the Sound steamer Bay State was passing up the river, and when nearly opposite the Greenpoint Ferry, her larboard boiler burst with a loud explosion. She was run up opposite the Hunter's Point Ferry when she struck on Knickerbocker Rock, and there laid until the Connecticut came up and took her passengers off.

Two of the engineers and one of the passengers were badly scalded, and were taken to Bellevue Hospital. The chief engineer, Mr. Fickle, was engaged by the boiler at the time and his escape was miraculous.

The steamer was taken in to the foot of Ninth street and her way passengers returned to the city. A flaw in the plate of the boiler is supposed to be the cause of the accident.—*N. Y. Post, July 5.*

A party who went out in search of a pure silver mine in California, of which a Mr. Harding obtained a specimen in 1848, have returned, and report that they have a lead of silver ore, from ten to 24 feet in width, which has been traced for some eight miles. Samples taken into Shasta, on being tested, assayed at the rate of 16½ cts. to the lb, or about $164.

The Washington *Star* thinks, from all the data in its reach, that Washington city has now a population of between 75,000 and 80,000 and confidently expects that the census to be taken in 1860 will prove the correctness of this opinion.

Coopers Novels.

We are in receipt of the sixth number of Coopers Novels, Illustrated by Darley, entitled the "Bravo," a Venetian tale, and containing such a picture of the social system of that *soi-disant* republic as is to say the least of it exceedingly interesting. He who has ever read the renowned play of "Abalino the Bravo of Venice," can form some estimation of this work, as its scenes are similar in their character and the virtues and vices of the citizens of Venice are delineated, and the power of, and infliction of punishments by the Romish inquisition are happily portrayed. It is written in Coopers beautifully elegant style, and he who reads it, can not but be benefited thereby. The Palace of St. Marks, the bridge of the Rialto, the canals the Gondolas thereon, with the people from the Doge down to the fisherman, the one in his ducal splendor, the bridge of Sighs, the lateral courses of and the gay crowds upon the others in their richly caparisoned boats.

The aristocratic sway of the Doge and the rustic symplicity as well as the determined character of the fishermen, all are descanted upon in a way to give the book such attractions as are absolutely necessary to, and which have rendered Coopers novels so popular among the masses and we hesitate not to recomend this volume to the reading public, as highly deserving of their patronage and attentive perusal as we believe it will afford them much profitable amusement.

DEFYING THE DUTCH.—The German republicans denounce Massachusetts and demand, as the price of their continuance in the republican party, that her delegates should be refused admittance to the next republican national convention. To these threats the Boston Atlas & Bee the leading Black Republican journal of that State, replies:

As for excluding the Massachusetts delegates from the national convention unless they repudiate the two years' amendment, all we have to say is: *Let the convention try it.* The Massachusetts delegates would probably not leave alone, and those who urge such a proposition will find that a Massachusetts republican is as good as a German one, and they will find also that Massachusetts will take no step backwards in this or any other proposition she can honestly and properly maintain.

We say again that we have no unkind feeling towards the German voters of this country. At the same time, Massachusetts will permit no one, native or foreign, living beyond her boundaries, to dictate terms to her. Let it be known, now and forever, that if the western republicans submit their party and themselves to be lorded over by a few German voters, that they will break up their organization in their own State, and sow the seeds of another American party, which will exert a power more vast than those who now traduce Massachusetts to obtain favor of the Germans, have the remotest idea of.

Should national convention, by resolution or otherwise, be silly enough to attempt to single out Massachusetts and discredit her for having in her own way amended her own fundamental laws, or should they attempt to exclude the delegates from this State from holding seats for any such cause, *a storm will be raised such as has not been heard of since conventions had an existence.* We hope we shall hear no more of this kind of talk.

BURGLAR CAUGHT.—At an early hour yesterday morning, Policeman Thomas Kennedy, while pacing his beat near the Elk Street Market, heard a noise of breaking glass in the neighborhood, and proceeding in the direction of the sound, discovered a man in the act of "pulling" a sack of flour through the window of Geo. L. Cracker's store, having smashed a pane of glass for the purpose. He captured the burglar and conveyed him to a secure lodging in the third Station House. Yesterday he was arraigned before Justice Bidwell and plead guilty, stating that he was driven to the act by the starvation of his family, which consisted of a wife and four children. The Justice was obliged to commit him for trial, but it is to be hoped that if his story is a true one, the higher court will feel justified in recognizing the desperate necessity which occasioned the crime. The man gave his name as Thos. Bowman.—*Buf. Ex.*

A fire broke out Sunday afternoon in the pyrotechnic manufactory of Professor Samuel Jackson, at the corner of Tenth and Reed streets Philadelphia. The building and its contents were entirely destroyed. A young man, named Charles Bock, was burned to death in the flames. He left a widow to mourn his loss. This is the seventh time Mr. Jackson has been burned entirely out.

NEWS SUMMARY

—Mrs. Everett, wife of Hon. Edward Everett, died on Saturday night after a long illness.

—Dr. Henry Northall, Acting British Vice Consul at Gloucester, committed suicide on Sunday by hanging.

—A sail boat containing 28 persons, on Lake Clear, Ind., capsized on the 4th and 16 persons, mostly ladies and children were drowned. No names have been reported as yet.

—Thomas G. Cary, Treasurer of Appleton and Hamilton Cos., and formerly engaged in mercantile business in New York and Boston, died at his Summer residence at Nahant, July 4th.

—Mayor Bishop, of Cincinnati, on the 4th authorized the Lieutenants at the different Station Houses to arrest all parties, large or small, male or female, who were seen to use that species of fireworks known as "serpents."

—It is reported that the London Times proprietary have settled upon Mr. Wm. Russell, their special correspondent in the Crimea and India, an annuity of £200 for life, this being entirely for past services, and independent of any work to be done by him in future.

—Senator Douglas was on the train from Washington to New York, to which an accident occurred ten miles from Baltimore, on Sunday evening last. The New York Herald says he had a narrow escape from being killed."

—In the Supreme Judicial Court, Boston, on Saturday, in the case of Sarah E. Shaw vs. the Boston & Worcester Railroad Corporation, the motion for a new trial was overruled, and judgment for $22,246 ordered to be entered for Mrs. Shaw. Mrs. Shaw's husband was killed on the road belonging to the Company.

The small town of Tilton, Fleming county, Ky., on Friday last, was visited by a destructive hail storm. The hail fell in immense quantities, and was accompanied with rain and a very hard wind which swept a great many fences away. The corn was stripped to the ground, while the hemp crop was considerably damaged.—The day following the storm vast piles, where it had drifted were found unmelted and some of the hail stones were said to be equal in size to a hen's egg.

One of the Philadelphia papers says: "The self propelling steam fire engine, built at Lee & Larned's Novelty Works for the Southwark Hose Company, arrived last evening, having propelled itself over the turnpike road from Bristol, twenty miles in two hours actual running time. The highest speed attained was at the rate of eighteen miles per hour, while several steep hills were surmounted at the rate of ten miles per hour. The weight of the engine is 9,000 pounds, and that of its fuel, water and nine men 3,000 pounds."

It is now proposed in Philadelphia to tax the Insurance Companies some $10,000 for the water used in extinguishing fires. The reason for this is, that the city pays $50,000 annually to fire companies, while all the property belonging to the city is insured—thus making the Insurance Companies gainers by this expenditure.

Mrs. Edward Everett, whose death was announced yesterday by telegraph, was the daughter of the late Peter C. Brooks, of Boston, the richest man in New England. Two sisters survive her—the wives of Rev. Dr. Frothingham, of Boston, now in Europe, and of Charles Francis Adams, the son of John Quincy Adams, and Representative to Congress from Massachusetts.

The total number of houses in Boston in 1793 was about 2600, of which 1000 were brick and the rest of wood, and the population, after a settlement of nearly one hundred years, amounted to only 12,000. Now the number of buildings is probably upwards of 16,000, while the population is in the neighborhood of 175,000.

FIFTEEN THOUSAND DOLLARS FOUND.—The American Express Company lost none of their specie by the recent railroad disaster. One bag containing $15,000 was missing, but on Thursday evening last it was discovered, buried in three feet of mud, but so soft was the spot where it sunk, that while hauling it out, it dropped some feet deeper into the mire, but was "catched" at last. The company had $30,000 in cash in their box when it went down.

A GREAT VICTORY!

THE ALLIES AGAIN VICTORIOUS!

ST. JOHNS, N. F., July 3.—(Received in New York the 5th). The steamer City of Baltimore, which left Liverpool on the 22d ult, via Queenstown, broke her propeller and was obliged to put back.

The Vigo, of the same line, took her place, leaving Cork at 2 P. M. of 25 ult., and passed Cape Race at 3 o'clock on the morning of the 3d, inst., where she was boarded by the news yacht of the Associated Press, and the following summary of her news obtained:

LIVERPOOL, Thursday, 23.—Advices from Italy to-day are of no particular importance. No battle had yet occurred, though expectation is on tip-toe for one.

The Allies have occupied Lanoto, Castiglione and Montechiaro.

Napoleon had joined the Allied camp.

The Liverpool Mercury of the 24th has the following despatch from Vienna, dated the 23d:

The Austrian government has formally declared the cruelties attributed to Gen. Urban in Count Cavour's message, as entirely devoid of foundation.

A sanguinary collision had taken place at Perugia between the soldiers of the Pope and the inhabitants.

The King of the Belgians and the Count of Flanders had arrived at Buckingham Palace on a visit to the Queen.

There had been no battle on the line of the Mincio, though the armies were face to face.

Prussia was about to move an army to the Rhine.

The attitude of the contending armies continued without change. The main body of the Austrians were on the left, back on the Mincio.

The Emperor of Austria had removed his headquarters to Valleibo.

It was believed that the force of the Austrians on the Mincio numbered 280,000.

The entire French force had passed Montechiaro, and the reconnoissance had been pushed as far as Gotio.

The Piedmontese had advanced towards Peschiera.

Napoleon, preparatory to an offer of mediation, had demanded permission, to march 31,000 troops through Hanover to the Rhine.

It was believed that the basis of the proposed mediation by Prussia would not be acceptable to France, thereby involving Prussia in war.

The reported treaty between Austria and Prussia was denied.

It was rumored that Prussia had threatened to assist in suppressing the Hungarian insurrection.

Prince Napoleon was on the borders of Modena.

Parliamentary proceedings in England had been suspended until the Ministers of the government were re-elected.

It was rumored that the new Ministry would curtail the navy expenditures.

The Swiss troops sent from Rome to Peruga to suppress the rising, had a desperate encounter with the people, whom they shot down indiscriminately.

The very Latest.

(By Telegraph to Galway.)

PARIS, Saturday, June 25.—The Emperor telegraphs the following to the Empress:

"CAVANA, Friday Evening.

A Great Battle—A Great Victory.—The whole Austrian army formed a line of battle extending five leagues in length.—We have taken cannons, flags and prisoners. The battle lasted from 4 in the morning till 8 in the evening."

A Vienna despatch supplies a partial confirmation of the above, in stating that a battle was progressing, but no details had been received.

Pretty nearly all men are benevolent when it don't cost them much. Tom Jones never sees poor John Smith suffer but he thinks Sam Rogers ought to help him.

A teacher of vocal music asked an old lady if her grandson had any ear for music. "Wa'al," said the old woman, "really do not know; won't you just take the candle and see?"

A man who ridicules his neighbor's foibles and pronounces him to be deficient in intellect, without just cause, is very apt to possess more self-esteem than sound sense.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

OFFICE 95 MAIN STREET,

(1st door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption

AND ALL

Diseases of the Urino-Genital Organs

A CLASS of Maladies prevail to a fearful extent in community; [illegible] fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or excessive wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for [illegible] a series of Health Rules and perfect chart of cure, which will be to them a true polar star through life.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA.

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—remove all remaining doubt as to the invaluable value of this Discovery.—Consumption is no longer to be regarded as an incurable malady.

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption as Quinine is in Intermittent Fever but also as Effectual a Preservative as Vaccination is in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"Out of [illegible] cases in the third or last stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. Such a result is altogether unparalleled in the annals of Medicine."

[illegible] This Remedy is the most powerful [illegible] of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia—whatever depends on deficient vitality in the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a fac-simile signature.

[illegible] No other can be relied on as the pure hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

[illegible] Price, $1.00, or three bottles for $5.00, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts [illegible] to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 49 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for there is [illegible] fatal a malady as consumption. Address,

GREAT REDUCTION OF PRICES!

$10.000
WORTH OF

BOOTS & SHOES

To be sold in the next 2 months, at 20 per cent. less than Manufacturer's Prices.

THOMAS YATES,

Who, for the last 20 years has held forth in this Village, and has never yet been outdone, either in prices or quality, would respectfully announce to the inhabitants of Batavia and surrounding country, that he is still in the field, opposite G. B. Worthington & Co.'s Hardware Store and second door from the corner of Jackson-st. where may be found an extensive assortment of

BOOTS, SHOES, RUBBERS & GAITERS,

of the latest styles and most approved workmanship, which will be sold from 30 to 50 per cent. less than the usual prices. This is one of the best opportunities to obtain GREAT BARGAINS ever offered to the people of Western New York, as it is desirable that the stock should be closed off by the first of December next.

Ladies' Black Fox Gaiters only 4s worth 7s;

Ladie's Black Fox Fine Gaiters only 5s, worth 8s; Ladie's Black Fox very fine Gaiters, only 7s worth 10s; Ladie's Black Fox Heel Gaiters only 9s, worth 14s; Ladie's Black Fox Congress Gaiters only 10s, worth 16s; Ladie's Kid Congress Gaiters, thick and thin soles, less than cost to manufacturer.

Boys' and Youth's Patent Leather, Calf, Kip and Double Sole Boots, Brogans and Gaiters, at low figures. Gent's Brogans 6s; Mens' Stoga Boots $2.00.

MEN'S KIP AND THICK

DOUBLE SOLE BOOTS.

Custom Made, worth $3,25. I shall sell for 18s and 20s. Children's Shoes, a large assortment, Fancy and Plain, Kid, Calf and Morocco, from 15 cents up. Ladie's Kid Buskins and Slippers, 2s, 4s, 5s and 6s.

My Stock is too numerous to mention. I have on hand more than all the Shoe Dealers in this Village combined, and can spare enough to fill all their small shops, and still have a large supply left. All will be sold at less than Rochester City Prices. You are all invited to call and examine the Goods, whether wishing to buy or not. All those who come barefoot without money, can have them "without money and without price." *Goods warranted as represented.*

THE DAILY HERALD.

BATAVIA, Friday, July 8, 1859.

SUBSCRIPTION PRICE 6 CENTS PER WEEK.

☞For READING MATTER see every page of the HERALD.

With Thursdays number our connection ceased with the "Daily Herald," and the same will be published by A. J. McWain Esq., who is the proprietor thereof.

Such contracts as we have made in relation to it, will be fulfilled to the letter by him, with whom we have made arrangements so to do.

In taking leave of our patrons we have to say that while we have been engaged in publishing this paper, and indeed, upon all occasions they have manifested towards us the utmost kindness and consideration, and therefor they have our most ardent acknowledgments of gratitude. We took the paper under depressed circumstances and exerted ourselves to make it interesting to the public, and we are of the opinion that we have some times succeeded in doing so, as its increased circulation evidenced to us. In transfering it to Mr. McWain it goes back into the hands of the original proprietor, who has made such arrangements as we think will insure its continued puplication and will add to its increasing interest; and in as much as it is the oldest and first "Daily" published in the County, we think it should be sustained, as had it not have been established through the enterprise of the present proprietor, we have no idea that we should ever have had a "Daily," which has proved so successful as to induce others to undertake the publication of a "Daily" also.

We have been some considerably benefited by the short connection we have had with this paper, and although it has required all our time, yet feel that we have been amply remunerated therefor in the knowledge we have acquired, but as we never designed to pursue the occupation of a publisher of a newspaper, permanently, we have concluded to relinquish it fo, the purpose of embarking in other and to us a more congenial business.

This we believe will be to our friends, and we care but little about others, a satisfactory reason for the course we have deemed proper for us to take under all circumstances, and in this our decision, we think we know, and they will acquiesce in the opinion that will be most conducive to our ultimate prosperity.

Another clerk in Rothschild's house has just been condemned to five years' imprisonment for embezzlement. This time no excuse or attenuating circumstances could be found in the state of want or destitution of the guilty party. He was well to do in the world, possessing the confidence of the masters and the esteem of his comrades. He was earning 8,000 francs a year in Paris, an enormous sum for an *employe*. He suffered himself to be dazzled by the fortune acquired by a fellow clerk, who one day came to visit him in a splendid carriage, and driving his own blood bays. From that hour the unfortunate *employe* knew no more happiness. He was resolved to try his luck likewise, and soon having risked and lost his own fortune he began to dip into the strong box of the Rothschilds. Vast sums disappeared, until at length he found the Bourse and all its airy visions changed for prison walls and the Court of Assize.

Mad With Piety.—Two most distressing occurrences took place during a camp meeting which was being held last week on the Penetanguishene Road, about seven miles from Barrie, C. W. A woman, whose name is not given, and a man by the name of Smith, a respectable farmer residing in the township of Innisfil, both went mad from over excitement. The unfortunate victims had to be tied and taken home in wagons, their maniac ravings filling the air and attracting the gaping curiosity of the uninitiated. Smith has since died raving mad, having attempted to bite several of those attending him during his paroxysms—the woman is not expected to recover.

M. Blondin Will Walk Once More. On Wednesday next L. Blondin will again walk over Niagary River, performing new feats, among others that of pushing a wheelbarrow along the rope. It is understood that this will be the last of the appearance of M. Blondin upon the great rope at Niagary, as he will leave soon for Cincinnati, where his family now reside.

New York, July 7

Lord Palmerston, in his address to his constituents, expresses the hope that the Ministry he has formed, will prove satisfactory to the country. He says it will be one of the great objects of the government to preserve for their country the blessing of peace, and to take no advantage of any favorable opportunity that may present itself, to exert the moral influence of Great Britain to assist in restoring peace to Europe. In regard to the reformation, Lord P. simply says, that he trusts his government may be able so to deal with the subjects as to strengthen the institutions of the country, by placing them on a broader and firmer foundation.

The Nord publishes the following dated Berlin, June 21st:—At a military conference held yesterday, it was resolved that the Guards shall remain at Berlin and Potsdam, and six regiments of cavalry and infantry shall be stationed in the providence of Brandenburg.

Three *corps d'armee* will take up positions between the lower and central Rhine.

Two other *corps d'armee* will be stationed upon the upper Rhine and the river Maine.

One of the *corps* will proceed to its destination through Silesia, Saxony and Bavaria.

The departure of troops will take place about the first of July.

The Journal *Des Debats* asserts that the Bavarian government has refused to allow Prussian troops to pass throughout its territory, until the prussian Cabinet shall have answered the series of questions as to the meaning and purpose of the resolutions it has taken.

The Naval expedition, possessing immense means of destruction, is on its way to Venice. 120 flat-bottom boat ,skeeled with iron and filled with cannon, are, it is said, to ascend the Adige and the Po.

If Venice falls the fleet may land a *corps de armee* on the Adige and take the Austrians in the rear, while the land army attaks them in front.

There are also in Tuscany French troops which will at an appointed day appear at a given point.

The Moniteur to Seiana publishes a ministerial circular ordering the prefects to respect free manifestations and the popular wish for annexation with Piedmont.

The circular denies the possibility of a return to the former dynasty, and declares that divisions of territory would enfeeble Italy.

Victor Emanuel is the symbol of Union and Liberty.

Two divisions of the army, at the camp of Chalons, were under orders to join the army in Italy.

The Patrie of the 24th announces that a *corps d'armie* of 40,000 men, taken partially from the regiments in Africa, was expected in the Adriatic Sea.

Late letters from Paris mention a vague report that the Chambers were likely soon to be convoked, with a view, it was supposed of announcing new levies of troops and another new loan.

The Bayonet.—The terrible slaughter in the Italian war made by the bayonet in the hands of the Zouaves, who regard the musket as simply a "handle," has excited much attention. An army order, issued by Gen. Scott, directs that greater attention be bestowed hereafter upon the bayonet exercise, which has been somewhat neglected of late in the discipline of the service.

Mr. Raymond of the *Times* has left Paris for the seat of war." He is accompanied by Mr. Forsyth of New York.

During the severe thunder shower of Wednesday evening the house of Ebenezer Carpenter, Esq., in Colchester, was struck, and a daughter of Mr. C. received a shock which rendered her insensible for some time. She has since entirely recovered.

Three brothers named Quill were shot by the police of Louisville for resisting when an attempt was made to arrest them for fighting. One of them died in half an hour, and the others are in a critical state.

—Upwards of one hundred and fifty light loaves of bread were seized in Toronto on Saturday, and given to various public charities.

—C. B. Ivey, of Roane county, Tenn., has been arrested for murdering his sister-in-law, 24 years ago. "Murder will out."

—The schooner Coquette, of Cleveland has been purchased for the U. S. survey service. She has arrived in tow of the Search at Detroit.

—Charles Cook, the young man who murdered the courtesan, Kate Bureau, in Cincinnati some time since, has had a new trial which resulted in a sentence of ten years imprisonment in the Penitentiary.

—The inmates of the Penitentiary at Washington, D. C., celebrated the Fourth of July by permission of the Warden. The exercises consisted of songs, reading the Declaration and an oration. One song was "Do they miss me at home."

A NEW
CONFECTIONERY.

PAUL ZALA

HAS NOW RE-FITTED IN A VERY splendid manner the SALOON next door east of Mrs. Darrow's Millinery Store, where he will prosecute the above business in all its branches.

He will keep a general assortment of Toilet and Fancy work, and execute to order such candies and ornamental designs as is demanded for parties of pleasure and Festivals generally.

He flatters himself that his mechanical ingenuity, and long experience in his business will enable him to give to all general satisfaction—Having been to much expense in getting his Establishment in readiness, and making his place attractive—he earnestly solicits a liberal patronage from the town and country.

He will also keep Ice Cream flavored to the taste of the most devout epicure—and hold himself in readiness to entertain his customers with the luxuries of his Saloon; and to make his place a *fashionable* resort to all who desire delectables.

LOCAL MATTERS.

A Surprise!

Last evening about half past nine o'clock a party of Ladies and Gentlemen who are accustomed to worship at the Methodist Church, assembled and repaired to the house of Thomas Yates Esq., taking the family by surprise, no one belonging to the family having any intimation of their intention.

The lady of the house received them with that politeness, which none but a lady knows how to practice, though evidently considerably embarrassed, and the ladies divested themselves of their shawls and bonnets and some of them entered the dining room while others entertained the family in the parlor, spread the table with creams and cakes, which they had brought for that purpose, placing in the center a large and splendid Pitcher surrounded with wreaths, opened the folding doors and politely asked the family into the dining room and greatly surprised them by the presentation of the pitcher, which had engraved upon it "Thomas Yates, from the members of M. E. Church, July, 1859."

Rev. J. B. Wentworth made the presentation accompanied with remarks appropriate to the occasion, to which Mr. Yates though much embarrassed responded in his accustomed happy style, and all passed off greatly to the gratification of the party, who having spent an hour in social intercourse, enlivened with some choice vocal and instrumental music retired.

Latest News.

BY TELEGRAPH.

ARRIVAL OF THE ASIA.

Important Addition to Napoleon's Dispatch.

Further Intelligence.

New York, July 7.—The steamship Vigo and Asia arrived here to-day, bringing London and Liverpool advices of the 25th ult.

The prominent features of the news have been already received in St. Johns, but the papers contain interesting advices from the seat of war previous to the great battle.

The Venice correspondent of the London Times says the pickets of the two armies were in sight of each other, and scarcely a day passed without a slight skirmish.

Garibaldi was accomplishing remarkable feat in surprising Austrians and making marches of fifty miles in a day, and setting the country in favor of national independence.

There is an important omission in Napoleon's dispatch, announcing the battle as telegraphed from Cape Race. The Emperor says: "*We have taken all the enemy's positions and captured many cannon,*" &c. There was nothing additional concerning the battle in London up to 2 o'clock, Saturday P. M.

A dispatch from Nienna, dated Saturday, says: News just reached that city that a vigorous combat began on the Mincio at 10 o'clock Friday morning. Heavy cannonading was also heard at Verona.

The recent tumult in Venice was occasioned by rumors that the French had landed at Padua, and that Venice would be surrounded in three days. The people then began to mount cockades with Italian colors, and crowds were gathered in front of an Austrian house and began to hiss. The Austrian patrol were ordered not to fire on the people, but they were received with missiles, when they made an attack upon the mob with the butts of their muskets. The military finally cleared the streets. The report that some were killed is not confirmed.

A Sardinian official bulletin of the affair at Perugia with Papal troops says, the Swiss regiments attacked the town on the 20th and met with great resistance, but after three hours fighting they forced the town when the combat was renewed in the streets continuing for two hours.

The Swiss troops trampled down and killed even women and inoffensive persons.

Next day the outrages, and firing upon the people commenced.

The town was placed in a state of seige.

Advices from Malta state that eight steam liners are ready to depart, as asserted, for the Adriatic.

The official *Preussische Zeitung* of Wednesday says the French and Sardinian army is moving near the frontiers of Germany as entrusted to its care. The Italian conflict is assuming even increasing dimensions. England and Russia are arming on the greatest scale. The Prussian government would be faithless to its duty and to the sense of the nation if she should neglect to act commensurately with that spirit by which Prussia has become great. Prussia is free from every engagement. She obeys only those obligations which spring from the inmost nature of her State interests. It will soon be seen whether Prussia's initiative will be supported with the necessary weight by the German States. Prussia's policy stands firm, and whoever lays obstacles in its way may consider that he is rendering service to the enemies of his fatherland.

It was announced in Paris on Friday that a *corps d'armee* of 40,000 men mainly from African regiments, is expected hourly in the Adriatic sea.

Despatches from Milan confirm the accounts that the French troops are advancing towards the Valtellina.

The Arch Duke Governor of the Tyrol had arrived at Flanders to superintend the enrollment of 24,000 men in the Tyrol and Voralberg.

Advices from Rome say that an attempt was made there on Sunday to display the try-colored flag and proclaim forth the dictatorship of Victor Emanuel, but General Forgon interfered to prevent.

The Pope has notified his protest against the dismemberment of his States, to powers represented at the Paris conference.

He has also communicated to the Cardinals a letter of the Emperor Napoleon, guaranteeing independence.

Advices from Constantinople say that Said Pasha had been summoned to send his contingent to Roumelia, but replied that the indecisive policy of the Porte compromises Egypt, and that therefore he will send no succor, but will put his army on a war footing.

STARTLING EVIDENCE.

Let the Sick Read.—The Boston Scalpel, a medical publication says: Dr. Herrick's Sugar Coated Pills, made at Albany, N. Y., appear to be the pill of the world. Dr. H. makes no secret of their compound; he furnishes all physicians in good standing with the receipt of their ingredients, and with the Pills, sugar coated, by the pound. Among all medicine manufacturers, Dr. Herrick stands in Medical knowledge and medical responsibility, unapproached. As Spring is upon us, and hot weather expected, and a few doses of Herrick's Matchless Pills.—[Dundee Record.

PHYSICIANS USE THEM.

☞ Dr. C. T. Prevost, of Baltimore, M. D., a successor to Dr. Herrick, says: I have tested your purgative Sugar Coated Pills in a variety of diseases, and find them superior to any cathartic I ever used. My customers, particularly the female portion, have fallen in love with them, and frequently ask me to give them the Sugar Coated Pill. Your discovery in coating a pill with sugar should immortalize your name, and I doubt not your invention will be handed down to future posterity as a discovery worthy the day in which we live. Please accept my thanks for the can of pills which reached me this morning by express. Enclosed find the amount of your bill. Sold everywhere.

MRS. M. M. DENSLOW,

Having returned from New-York with her usual supply of New Millinery Goods, is now ready to offer to the Public an assortment that will vie with the very best *self-imported* Stock ever before brought into a Batavia market.—True Mrs. D. *did not go to Paris herself*, but bo't her supply at Importing Houses in New York, who have been long in the Trade and who sell to their old customers, who pay, at very reasonable rates, and Mrs. D. being one of that class of customers, is enabled to give her patrons the full benefit of a superb Stock of Goods, purchased at those Houses, where Fashionable Goods are to be had, at very small profits. The Public are invited to call and see, after seeking to be supplied elsewhere, among *Importers*, and she feels they will not be inclined to go empty away.—The cash trade is greatly desired—though responsible persons can have credit from four to six months.

She is fully prepared to execute all orders in this line of traffic, and to prosecute with dispatch, and with all of the neatness, elegance and fashion, that her reputation has heretofore won her, any work trusted to her care. Her uniform prices are also made to suit the times and the means of the buyer. 266-4w

MEDICINES.

Scrofula, or King's Evil,

Is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Mixing up the Babies.

The Weaverville (Cal.) Journal gives the following account of an affair which, however it may move the laughter of our readers we fancy to have made some of the parties concerned "laugh on the wrong side of their mouths:"

"Some time ago there was a dancing party given 'up north,' most of the ladies present had little babies, whose noisy perversity required too much attention to permit the mothers to enjoy the dance. A number of gallant young men volunteered to watch the young ones while the parents indulged in a 'breakdown.' No sooner had the women left the babies in charge of the mischievous devils, than they stripped the infants, changed their clothes, giving to one the apparel of another. The dance over, it was time to go home, and the mothers hurriedly took each a baby, in the dress of her own, and started, some to their homes, ten or fifteen miles off and were far on their way before daylight,—but the day following there was a prodigious row in that settlement; mothers discovered that a single day had changed the sex of their babies; observation disclosed startling physiological phenomena, and then commenced some of the tallest female pedestrianism; living miles apart it required two days to unmix the babies, and as many months to restore the women to their naturally sweet dispositions. To this day it is unsafe for any of the baby mixers to venture within the territory."

He had been previously afflicted for [illegible] months or more, and the remedy applied, benefited him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 10, 1858.]

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of [illegible] upon the eyes of Miss Julia C. [illegible], of [illegible], with perfect success. DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT instead of its being a remedy for all ills, has [illegible] has but one aim, and accomplishes but one thing, to wit: subdues Inflammatory diseases, whatever be the form or locality, whether in the head, throat, abdomen extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (as others) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to head and chest, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Croup, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. JOHNSON'S
HERB DISPENSARY!

OFFICE 99 MAIN STREET,

(1st door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption,

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Consumption, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the genital organs, and arise from [illegible] the part of old school Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the institution is new. It is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without exposure, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for $1 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA.

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the inestimable value of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, *as speedily as possible,* into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever but also
as Effectual a Preservative
as Vaccination in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"*Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile* signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $2.00, or three bottles for $5.00, with full directions for use. *A liberal discount to physicians and the trade.* The Dry Salts furnished to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 45 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in so fatal a malady as consumption. Address,

You who have drank "Bill's" Lager Beer,
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up *just* surprise!
It fills the nerves with Native life
And warms the stomach so,
Digestion moves with greater strife
And sets the soul in glow!
"Bill's" Lager is the best of drink,
It makes a man even all he'd think:
It warms him through and through, you know
And puts his senses in a glow.
It never makes a man quite drunk
Nor filthy as a common skunk!
But always makes the senses rise
To Truthful triumph if he tries!
Bill's glasses, too, are just the thing,
They hold so much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.
So you who want your senses whet

Mixing up the Babies.

The Westerville (Cal.) Journal gives the following account of an affair which, however it may move the laughter of our readers, we fancy to have made some of the parties concerned "laugh on the wrong side of their mouths:"

"Some time ago there was a dancing party given 'up north,' most of the ladies present had little babies, whose noisy perversity required too much attention to permit the mothers to enjoy the dance. A number of gallant young men volunteered to watch the young ones while the parents indulged in a 'breakdown.' No sooner had the women left the babies in charge of the mischievous devils, than they stripped the infants, changed their clothes, giving to one the apparel of another. The dance over, it was time to go home, and the mothers hurriedly took each a baby, in the dress of her own, and started, some to their homes, ten or fifteen miles off and were far on their way before daylight.—But the day following there was a prodigious row in that settlement; mothers discovered that a single day had changed the sex of their babies, observation disclosed startling physiological phenomena, and then commenced some of the tallest female pedestrianism; living miles apart it required two days to unmix the babies, and as many months to restore the women to their naturally sweet dispositions. To this day it is unsafe for any of the baby mixers to venture within the territory."

and Catarrhal affections of the

THROAT AND HEAD.

As this disease frequently gives rise to Deafness Dr. L. performs operations for Cataract, Cross Eyes, &c.

The following gentlemen, are kindly permitted their names to be used as references, regarding Dr. L.'s qualification, reputation, mode of treatment and success:—

E. W. Pease, M. D. [illegible] Dibble, M. D., A. Mercer, M. D., D. A. Moore, M. [illegible] Porter, M. D., James Fuller, M. D., C. F. Williston, Mayor of Syracuse; Geo. J. Gardner, Esq., Cashier of the Onondaga Bank; Judge [illegible] Middleton, and A. B. Tousley, Esq.; T. [illegible] Esq., A. Benedict, Esq., President of the Syracuse Bank, all of Syracuse.

[From the Utica Morning Herald, Jan. 17, 1859.]

Benjamin F. Walker, of Madison, is the subject of a remarkable cure of disease of the eye. He had been severely afflicted for six months or more, and the remedies applied benefited him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciated the remarkable cure so quickly effected, and desires us to render to Dr. Lighthill by this public acknowledgement [illegible].

[From the Syracuse Journal, Sept. 15, 1858.]

We learn that Dr. Lighthill, assisted by Dr. Pease, has performed an operation for the cure of [illegible] upon the eyes of Miss Julia [illegible] [illegible] of Truxton, Cortland county, who has been [illegible] blind. Truly, the blind [illegible] [illegible] who has been benefited by the operation [illegible] [illegible] should be hailed with [illegible] by those who are [illegible] [illegible] liable to the injury of it [illegible] [illegible] by those who have [illegible] [illegible] blessings.

The Daily Herald.

Shall ladies have votes? "Certainly," replies a strong-minded woman of our acquaintance. "Is woman made only to sew on buttons? And, if she is, you have no right to turn away the needle from the pole."

Our pleasure should, like bees' honey, be extracted not from a few stately flowers, named and classic, but from the whole multitude, great and small, which God has sown with profuse hand to smile on every nook, and make the darkest corners warm with their glowing presence.

A Favor that was not granted.—In Cincinnati lately, a German who had been summoned upon the jury in the Cook case in the Common Pleas, was called to the stand to be interrogated as to his qualifications to set upon the case.

"Have you formed or expressed an opinion?" inquired Mr. Prosecuting Attorney Gaines.

"Yaw!" responded the juror: "I preaks stone on the turnpike!"

The jury was told to stand aside.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflammatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues Inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and chest, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more—no less—equalizes the fluids, by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt.*

Ask your neighbors about the *New Medical Salt.* If sick, try; if not sick, remember the *New Medical Salt.*

DR. COGGSWELL'S NEW MEDICAL Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is [illegible]. It is not a Patent Medicine, but the prescription of an eminent Physician, no one [illegible] to try the New Medical Salt. For all testimonial and directions see circular.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Flour Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new. It is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for $1 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the inestimable value of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as *speedily as possible*, into universal use, as I KNOW that they will prove as-sway

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever and also
as Effectual a Preservative
as Vaccination in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"Out of twenty-two cases in the *third or last stage,* treated at my Dispensary, during the past year, *eight have completely recovered,* eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile* signature.
